1	I completely love this game! I maxed out everything in the 3rd hotel, even though all scuba gear said 0% towards my next star, it still gave me the 5th star. The 4th hotel shows 0% on the disco facility too. As a side note, the game is painfully slow without taking advantage of ads, and full of moments where there's no where near enough money for even the most basic items.	4	730
2	I've enjoyed a lot of titles from this developer but the monetization is getting worse and worse. It's always been pretty heavy, but this is ridiculous. Especially only getting 10 minutes of 2x per ad (usually just under a minute long)... If you have more patience than me, by the time you've watched enough for 2 hours, you need to watch an extra ad to top it up to a full bar! Very excessive.	2	582
3	The game is great. Can easily spend time on it. But to make it less annoying you will have to pay a small amount to get rid of the ads otherwise it becomes very annoying. Another things that can be looked at is the logistics. Some services the guests have to spend at least 30 mins to reach and hence most of them don't reach on time. The event hotels the Housekeeping keeps on zigzagging due to the room numbering system leading to unnecessary rooms not clean messages.	4	575
4	I really like the game. It's a bit challenging to manage the money, but all over it's great. Some feedback: 1) the couple doesn't sit together to eat 2) the ad placement avoids the notch area and leaves it empty 3) the status bar for money is coming under the notch bar 4) guests go all the way to the exit and then come back to the front desk while checking out	4	505
5	It's a very good game! It haves a pretty high and interesting stuff, it is one If the best tycoons, it's pretty good and it got most of the best things that other's don't have, The only problem i see is the high price for upgrading the Main Generator, and the batteries, which is very powerful but still, it doesn't even cover like enough upgrades to get a good price for the room. Well, this game is still very good and haves every property that could even get this to the best. tycoon. game. ever.	5	482
6	It's unique. This is the first hotel tycoon game I've seen with such unique graphics. It looks good, it feels good. It's awesome! However, i do have a complaint about the sensitivity, the game doesn't respond to my touches/taps sometimes when im in a room, if i press the left/right arrows the game suddenly doesn't recognize any input. If you could fix that, that would be great!	5	462
7	Simple but fun game, watching ads is completely your choice, no annoying popups occur. It's very satisfying to upgrade everything in your hotels, and it's playable without spending any money (I personally think that 11_ for all-time ads-free bonuses would be a bit expensive though). And the support is THE fastest support I've ever encountered. Not even a minute later I had all the answers to my problem. Keep up the good work! ____ Edit: Santa's shelter seems a bit lazy (just a bigger Codinental)	4	437
8	A fun game, I understand the issues with ads but it's better than most games of its kind. I've seen way worse. I did buy no ads and it's worked so far. Each hotel presents more of a challenge and more effort. which is fair. It does take a lot to get started. Though a tip. If you buy no ads you can boost your double money without watching an ad for it. which really helps.	5	388
9	The game is very unbalanced. Watching ads gives much more money than playing, so to move forward you pretty much only need to watch ads. Everything else you upgrade is pointless. If you don't watch ads , progress is unreasonably slow. The ads are too intrusive in terms of the playing experience too. Every two minute or so there's a loud sound and a guy start dancing in your hotel's lobby, until you either watch the ad or dismiss it.	1	382
10	Really enjoyed it up until unlocking the last hotel. The design seemed rushed and not well thought out. The layout is messy, cluttered and not appealing. I paid for stars that I used and upon reopening the game, the items I purchased had disappeared and the stars were not returned. Disappointed that this is the culmination of my time and money.	2	339
11	This is the first time I've ever played a game and caught up to the developers. I love that we have the option to pay a one time cost and remove all ads. I love to support the developers and that way I'm not constantly buying small upgrades... Tedious. Love this game. Brilliant, and super cute. I love watching the people roam the hotel and use the various facilities there! The animations are great.	5	327

12	Wow, this game is so much fun! Its so addicting. It is so easy to get lots of money in this game, all you do is ask the dancing king! I think thats halarious __. You also get money while offline, thats actually a really great perm. The animation in the game,in my opinion is really nice, well, other than you can kind of see the private areas.__ ITS NOT THAT BAD...Its also really cool that you can get different hotels and fully upgrade them all. Download this app! You won't regret it!	5	327
13	Pretty terrible. Seen a review saying you dont have to watch the ads, but... you do. The point of the game is watching ads, you can't play without unless you want to sit for hours watching nothing happen. It could have been made into an awesome game, but I didnt expect an ad suggestion every five minutes that if I don't accept a 30 second video I will start losing :) So cheap and awful....	2	326
14	If you want a game that is as realistic as can be expected, then this is it! I've had nothing but fun challenges here. The graphics are excellent, the ads frequency are tolerable and become an acceptable routine. Having been in hotel management, this is a great primer for promotability. A few speed and music glitches here and there in upper levels but they work themselves out. Be patient. This game gets my highest rating ever! The music stays in your head all day! It's the greatest.	5	311
15	Ads issue. The game is nice and addictive. I like it. But like any other f2p games, you need you watch ads. Which is fine I understand. The problem is this: you watch the ads but you don't get the reward. It happened a lot of times, imagine waiting for a 20-30second ad to get a reward. And you don't get it.that is so frustrating. And when you contact the the customer support they tell you it's internet connection. Sure ..	2	304
16	Love the game, but the latest update has meant that I can't play the game in an enjoyable way anymore. I can watch one video and then it goes into a permanent loading cycle for all other videos until I restart the game, and then repeat. ***as of 9th of May 2021 this issue is STILL happening. It STILL always seems to tie in with when events are happening.***	1	280
17	I actually really enjoy this game. I h aven't encountered any issues add off yet. My only suggestion is earnings for all hotels should be combined into one 'account,' so when working on other hotels we can use that money. My first hotel is all updated but I still make money off of it and have no use for it. Anyways, keep up the great work!	5	279
18	I like the game. I like the style and graphics. Game play is fun and challenging as you progress in unlocking the different hotels. I do hope more hotels will be added. I'm on the 2nd to last one. One request if it is at possible. When upgrading certain areas mainly bedrooms. An upgrade ALL button would be nice. It would work if you had enough money to completely upgrade everything in the room. Similar to how the manager informs you to build a room as you have enough money.	4	268
19	I maxed all hotels, haven't been on in a month and just checked to see if there was a new hotel.. nope, but Little Camelot got reset for the 3rd time on me now... I'm done.	2	262
20	The best game ever in my life keep it up!!! There are a lot of things to do. Great graphics. But I wish that there were more problems or events like different types of food, running out of food or water, thieves, costumers who would pay more and different types of things to clean in the rooms. Overall, best idle game ever!	5	260
21	I actually enjoy the game quite a bit. Graphics are decent and it is good fun expanding and improving your hotel. I also love the little comedy bits (maid face down on sofa).There are loads of ads but they are optional, you are not forced to watch them if you choose not to. I usually hate games with too many ads, but I actually watched a lot of these because I wanted piles of extra cash to expand my hotel faster. I have again caught up to the developers, so am eagerly awaiting the next update.	5	258
22	It's pretty much impossible to make any progress without watching copious numbers of adverts - and over jê10 for an advert-free version is daylight robbery. They're technically optional but if you want to achieve anything in a reasonable amount of time, you need that extra cash boost - especially because it's not a true idle game. You can have a full hotel, switch to another app, come back a few seconds later and your hotel is half empty. It doesn't properly simulate running in the background.	3	257
23	This is a wonderful game. Unlike all other idle games, the prices and income are fair and equal. Quite addictive and very satisfying to see the objects go from level one to 10. Also, almost no compulsory ads, and premium is not required to play in the slightest. This investor guy swings in every so often if you're running low on cash, offering an ad in exchange for a bunch of money. One thing for improvement; Please could we have a way to transfer funds from one hotel to another? Install btw!!!	5	256

24	The game was good in the beginning but then it started not giving me my bonus rewards after I watched the videos. Actually, when I pressed the video tab it played for a short second then went back to the game with no reward, that sucks cause my reward was \$10,500 which would have helped my balance a lot!!! I'm afraid this game doesn't deserve any stars until this gets fixed. Also, I tried to post this without giving it a star and it wouldn't let me. Sad!	1	248
25	Don't be fooled about the lego-like graphics... this is really addictive!! Simple yet entertaining! A great way to get the basics of management. I just noticed that there is a bug with the housekeepers. Sometimes they get stuck (or hung up) and ends up not cleaning the room, then the option to clean all rooms for an ad pops up. But when you try to refresh the game, it all goes back to normal. Fix that, and I guess I could give a 5 star. __	4	243
26	I LOVE this game, the gameplay is super fun and allows me to relax when I am tense. Its not one of those easy games and requires strategy which I love. It hardly has any pop-up ads and there are only ads when you want a reward. The only reason why it is not 5-star is because it is slow in the beginning and if you want to grow fast you have to pay SO much money. Overall it is a great game and I recommended it to anybody who sees this post (if they like strategy games).	4	240
27	I enjoyed playing the game. Now that I have completed all levels ie all hotels. I don't know what to do except to uninstall. I did not mind add once in a while but there were too much. Also allow money earned from one hotel to be used in another. Plus there is no way we can customise, I feel we just have to see and click. Nothing else. Give us option to design our own hotel, in our own way, what facilities. That would have been much fun. Some activities to earn cash. There is no task I feel.	3	240
28	I love this simple game. Just enough to do that I can play while watching tv and it's not distracting. The event hotels are a nice wee addition. I don't mind the ads, it all helps the game along, but I have a major issue with 45 second + ads. Other ads can be as short as 15 seconds, but all I seem to get now are the long 45 seconds. There is no option to cut the ad short. This is reducing my rating and enjoyment of the game. 45 second ads are ridiculous!	3	238
29	It's a pretty decent game. It's real fun and addictive. It, however becomes so repetitive as you move on to another level. It's not much of an idle game because you have to check on it every 2hrs (unless of course you avail the VIP). It would be better if you have like a drone view option to view the overall activities in the hotel. Lastly, profit from the previous hotels should be used for the developing ones, otherwise it's useless.	2	231
30	I enjoy the game, but I have 2 suggestions for a near-future update, both based on the fact that once a hotel becomes 5 stars, it generates money but there's nothing else to spend it on (at least, nothing that I've found). I think it would be nice to be able to exchange game money for diamonds (as opposed to just real money), and transfer money from one hotel to another. I like the separation between hotel money instead of having 1 big money pot for all hotels, but I wish I could transfer money.	3	228
31	I really liked this game at first but I agree with other critical reviews that ads disrupt gameplay. At first I didn't mind but once I got to the second hotel it was really disappointing that I couldn't use ANY profits or anything to make the new level easier..... it felt like there was no point in the first hotel existing. Even if I did spend the \$10 I can tell the game would be completed in a few levels. Boring.	3	227
32	I like some of the bug fixes. The game is still buggy. Ad crashes throw you out. By the way, the 1 minute 4 and 3 spot ads are really awful and way too long. It may be a deal breaker for me. Update: The bug fixes earned the full 5 stars. It really is fun now. I would love some new hotels to build. Fine job.	5	226
33	Cute game. I loved the graphics and music, but most of the gameplay consisted of watching ads. The game was built in a way to force you to watch ads. Unless you want to just sit there and watch your money deplete and your staff walk out on you, you watch the ads to boost your earnings. On top of that, there's no offline play. Overall, Hotel Empire Tycoon is a cute game to play when you have access to internet, time to kill, and don't mind watching ads for extended periods of time.	3	226
34	This is the best Codigames title yet! I've played pretty much all of them for several hours as I'm an idle game addict but I can't seem to put this one down at all. It has the most to do, the coolest progression, and the smoothest gameplay of any title in this series. I check this page every day to find out when the next hotel is released, and I can't wait to see what you guys have planned next!	5	216

35	Delightful and frustrating in equal measure. If you don't pay \$10.49 to remove ads this game will drive you insane. The ads themselves are lowest of the low, awful misleading ads for games you just want to avoid. Some are over 40 seconds long! You're not given the option to skip ads which is pretty condescending. I paid to remove them for my own sanity. The game itself is good fun, well made, has some nice touches etc. Quicker methods of upgrading would be nice, and more affordable add-ons.	3	215
36	It's actually really fun, not like a lot of the money grab games you see now and days. It looks really pleasing and plays nicely. It's also got an ending objective. I ooke jow your full on given an option to not see any ads, the only time I've run into them is if I wanted something from the game. The only real issue is it can get boring sometimes, and I would like if there were many more character models. Great game guys!	4	214
37	Game is good overall and it's different from what you guys made so far, BUT greed for money has to stop. Balance is just awful, at the beginning you can't make any money but only watching video ads to get cash from VIP. This sucks on so many levels...even though I managed to survive to next hotel after watching like 300+ ads.... this is just crazy guys....You need to do a better job on balance or you'll keep getting bad reviews like this one	2	214
38	I really enjoy this game and I love it a lot but there are quite a few issues I've run into which have caused me to give this game a 3 star rating instead of a 5 star. After you complete the tutorial portion of the game, the in-game character that is meant to help and advise you becomes absolutely useless. There's no help button or anything to help you in case you get stuck or have misunderstood something. When I opened up my second hotel it told me to keep working on my first to earn money for my second. However, you can't move funds between your hotels so I was lost for quite a long time trying to figure out how to do this when it's not possible. Many times the ads will take me to their download page and when I return to the game it restarts and I lose the reward. I've also been told that I've earned gems through watching ads but no gems were added to my balance. Sometimes ads won't even load or I'll click to watch an ad, no ads will come up and then my game gets stuck asking me if I want to watch an ad or not but it becomes unclickable. Also there is no clear time when my hotel will close while I'm not playing. There are locks that appear but they will say 2 hours and then as soon as I close my game it tells me my hotel closed, or sometimes it won't tell me until hours later. I've even gotten notifications that my hotel has closed while I'm actively playing. If these issues were fixed I would change my review to 5 stars because overall it is a really fun game to play, the graphics looks good and the areas are really beautiful.	3	213
39	I am still waiting on a new hotel. When I first downloaded this game, it advertised 10 hotels. I've been waiting on the 8th hotel since last year some time. The event hotels don't last long enough. I pushed hard and actually hit the 50,000,000 mark once with very little sleep. If you have time to produce event hotels, then you have time to produce promised hotels.	1	209
40	This game is overall good. But there is one thing about the ads in the game that I think I should talk about. You see,the ads are not like regular ads, there like websites. It's really annoying knowing that a regular ad would talk 3-25 seconds long and theses ads are 40 seconds long. I think lots of people would like to get to the game from an ad alot quicker. I'm not so sure if it's just me or everyone else, but i'd really like it fixed. Thank you.	4	208
41	Be really good if income was shared across all resorts as I have one that has nothing left to buy but making a fortune Fun and addictive, great graphics. I just wish the game speed was a little faster and the upgrades didn't cost so much real money compared to other games, but they do offer ads at your choosing to get time VIP stats. I love developers that don't force you to watch ads but give you the option if you choose for a reward.	5	207
42	Great game, must watch Ads if you want to build up quickly. The only down side is that the hotels you have 100% (not including gem upgrades) you should be able to transfer money from one hotel to the other. I understand the fact that it needs to get harder for each level, but each hotel has more and more expensive purchases. So using the other hotels would not really be too much easier. And it would keep you going back to the old hotels more often, like the games wants you to do.	4	206
43	Too many glitches. I'll list them all here. The first bug is when you open the app, before you closed the app, and you had all rooms occupied, you rejoin, regardless of when, 2 rooms are open. Guests don't come sometimes. Your guests won't come. No cars, no nothing. Even the travel agency ad doesn't work. Daily balance bugged. 2 rooms open? Same daily balance. All rooms occupied? Same balance. The balance only changes if you upgrade it or not. Services are also affected with this bug.	2	202

44	I absolutely love the game, always enjoy it when a new hotel comes out :) though I think there's one thing that's missing and it becomes very clear on the Arabian nights resort. I need 20 stars total to move to the Emperor Palace; that's no problem, I've got all the money I need to upgrade everything. The problem comes with actually upgrading. The process is painfully slow, spamming the upgrade button so much. A simple button to upgrade x object to max right away would be much appreciated. :)	4	199
45	Game is great! Best time management/idle style game around. But, once you upgrade your hotels, you can't do anything. I beat all the hotels and now I have nothing to do. Also, you can't get 5 star hotels without paying for more diamonds. So, if you can't afford to buy diamonds, you cant make it past the 2nd hotel. Please update and keep adding, this game is great!	4	198
46	I would've absolutely given this game 5 stars, if it's wasn't for the horrible ADS, omg where do I start? You can't play without ads or else you'll lose money, and I'm not talking 10 seconds ads, I'm talking 30 SECONDS, I genuinely spend more time watching ads than actually playing the game, which threw me off a little, there has to be another way to collect money other than watching these boring ads. But game wise, the game is fun.	3	196
47	There's just far too many ads! I felt my time spent on this game 80% was on watching Ads instead of playing the actual game itself. If it werent bcz of those endless ads this would actually be a pretty good game! I actually enjoyed it (but the extreme ads ruined it!) Also, the game start to crash now and I cant open it anymore that I have no choice but to uninstall it. What a pity! Please fix this bug!	1	191
48	Normally I get tired of idle games because of their "wash, rinse, repeat" cycles. I never got what was so appealing about those. This one, however, is a bit different. The pace is still the same: buy and upgrade to make money. That's where they continued where most don't. Energy, customer attraction, service speed, , staff expenses...these are all minor details that, when added to a simple idle game, really change how you play. I 'm happy to say I finally found a mobile "Tycoon" game	5	191
49	Editing my review AGAIN because it's been MONTHS, beginning on a year since the last release of a hotel beyond the event hotel. I went from playing all the time to only checking to see if there's finally a new hotel... I'd give it higher if there were more levels. I've 5 starred every level and now have nothing to do... I paid for everything that was basically offered and only regret there isn't more...	3	189
50	Graphics are nice. Management is okay. But after finishing one hotel, there is literally nothing to do. You keep on collecting cash in that hotel for nothing. There should be some element in game which makes this go away. Either transferring the cash to other hotel managements or adding some features for continuous cash flow. Also adding google play achievements is a good thing. And in-game purchases are very costly, furthermore after any purchase, the game will end in a week or two.	4	185
51	This game is really great for many reasons, but not perfect. There are plenty of hotels that you can transform all with different themes, meaning it keeps you busy for a while. I've had this game for a few months and its still entertaining. You can earn gems fairly easily by completing goals given to you, however once you get to the 6th hotel, there are no goals to complete. This is very frustrating as that's the only way to get gems without paying for them, please fix this!!	4	184
52	This game is good but not much progress. I've been playing this for hours and it's starting to get boring. Watching ads is the best way to progress but it kinda felt like I'm just watching ads and not playing anymore. Although it is a very nice game. The graphics and gameplay is good. Nice choice of characters as well. More updates and maybe this could possibly be one of the best tycoon games or whatever it is called. Lol. Overall, I still like it :)	4	183
53	Great fun, I dislike idle games but this one caught me off guard by how invested I got in so little time. Yes, the best way to build is through Ads. I don't mind that and it's not too aggressive. Loses a star because every so often you will watch an ad and won't get the cash. When this happens, whenever he comes up, no video will play. It fixes if you close out of the game, but every time i close out of the game two rooms are emptied for some reason. This is very, very irritating.	4	180
54	are played a lot of games which are basically a strategy games but this game is totally amazing and it has provided amazing experience while I was playing this game smoother. amazing story line just the one thing which it requires is few updates which can give us more access to the services which can be provided to the customers. currently in the hotel industry what kind of services which are provided to the customer we should also keep it. Thanks to the developer.	5	178

55	I love this game! Hope you planning to add more stuff to customize the hotels, cameras etc. It would be nice to see more animations. Very good at the moment, very stable. The income is a little low, you have to watch a lot of ads, but I think it's okay, because you really work hard for this game, and there should be an income somehow.	5	178
56	I absolutely love this game! I have had ot for quite awhile now and think it is so fun. A bit of a challenge to save your money when upgrading, but a good way to know what a struggle it must be to keep a business perfect for customers! There aren't many ads. The only times you have them is if you accept to am investment deal or more customers. I will keep this game a long time!	5	173
57	Super fun until you get to the third hotel and then its super glitchy. Videos ads not working, always have two rooms available and hotel closes after 30mins rather than 2 hrs. And earning money is impossible with all the glitches. Also don't see the point in keep hotels after you finish all the goals. May help the game to be less glitchy by removing them after you finish a level. Hope there's an update to fix the bugs out soon.	3	173
58	Fun game! It's a good balance between an idle game and something that requires you to be active with. You need to pick your upgrades while also ensuring there are enough funds to pay your workers. Two complaints: 1) after you get all of the upgrades in one hotel, it is essentially self sustaining and there's no reason to come back -- it needs an end game. 2) the event hotel is BS. Unlocking even 1 star in the given time frame is difficult unless you pay to win.	3	172
59	I really like this game and i played it before but i wanted an idle game to come back to since I'm busy all the time and i remember something that frustrated me was how I can't take money from a previous hotel that i finished and use it in another hotel. Its like starting from rock bottom again when I'm not entirely there because I have money from other hotels. I don't know if anyone else feels this way but if it could be changed i would enjoy the game better.	4	172
60	Carrying on from my review, this game revolves around watching adverts every minute , 30 seconds each advert so most of the game is adverts. Although I thought I might pay for advert free, I thought a couple of quid would be worth it. But no, i£10.49 for advert free version, that is disgusting and extortionate. I will probably be uninstalling the game.	2	172
61	Although the advertisements are optional, it is very difficult to advance without watching videos. Sometimes when I watch adverts for the monetary rewards, I do not even get any money. I just get a blank screen for about thirty seconds and then the guy leaves. Making money is a very slow process because when you upgrade items you do not even get the full amount the upgrade states. This game would probably appeal to the most hardcore of grinders but not for casual players.	1	170
62	Was enjoying playing this game until installing the latest update. Can no longer get extra cash or perks from watching the videos as it fails to give you the reward! You watch the video, it now takes you straight to app store as if you clicked on it, even if you didn't, and when you return to the game: the opportunity is over but no reward! Please fix!!!	3	169
63	I find it challenging and exciting until I finished all of the tasks and upgrades for the 1st hotel. Wish there was a way to transfer money from one hotel to another. It's a lot difficult to progress on the 2nd hotel due to lack of money. Upgrades, rooms, and equipment are way too expensive than the 1st one. It's non sense that the 1st hotel keeps earning for no purpose at all anymore.	2	168
64	I love this game, but I'm giving it 2 stars because after upgrading everything in one hotel, it is pointless to revisit that hotel. You can't use the profits from a previous hotel to help build up a new hotel. Why even have the option of revisiting old hotels if the profits aren't shared? It's a perplexing and disappointing mechanic.	2	165
65	Good little game, I quite enjoy it only thing is once you have upgrade all of the hotels to 100% there is nothing left to do. The Event hotel bundles are a bit of a rip off and not worth the money it. I'm curious to know if the developers of the game will be releasing anymore hotels to manage any time soon? Or is that it? Time to remove the game and move on . No new updates for months on end .	1	164
66	Awesome graphics. Super fun, and addictive. My only problem, is that if the cash guy comes and you try to watch a video, it won't let you. And sometimes when you leave the game after you watched a video it will reset some to all the money you got from watching the ad. Other then these small problems it's a great game and would recommend to anyone who is feeling the need to do something.	5	162

67	I loved it at first. Then I paid \$10 to remove all the ads and enjoyed it more. I made it to the 7th level. All the hotel guests go to the same place regardless if it's open or not on every level. When you switch to a different hotel or log out entirely, you instantly lose guests. In my experience up to 10 guests at a time would instantly be removed from the hotel depending on your level. Therefore, you make waaaayyyy LESS money to none after you log out. Waste of time and effort.	1	161
68	Great game. Love the management aspect. And that this game is not a clicker. It's really hard to find games like this one on mobile. I personally like that it's vertical so I don't have to turn my phone. Though, a lot of bugs when it comes with advertisements. I'm experiencing a lot of freezes whenever I watch a video for some cash or 2x profit which results to not getting the bonus at all. Hope you guys fix it!	4	160
69	NEED NEW CONTENT!! Updating now to just 1 star as still waiting on a new hotel to be introduced. That's over 2 years we have been waiting! I paid good money to not see ads and to update the managers in yet Codigames seems to want to just bring out more and more new games, (which are too fussy and iver complicated) instead of respecting the players of the ones they already have! Theme Park and Prison NEED NEW CONTENT!	1	160
70	Pretty cool... Starts off a little slow and you've got to be pretty strategic. The option to watch ads for more money is great and the ads I've seen are 15sec or shorter. It's a great game to wake up to because you earn money while you sleep too. I just purchased my second hotel so we'll see. The only suggestion I have is to be able to choose different styles and look in your hotel... Color options would be cool.	5	159
71	Edit: I've reached Little Camelot now and thank you for reading my review before (I asked for different upgrade in rooms). It's really refreshing and now I couldn't stop playing it even more. The ads doesn't bothered me because in fact I used the double time ads everytime. If I could give suggestion, it would be great to have a Chinese Imperial style Hotel (like those in colossal drama). I think that'd be really cool! ^^	5	158
72	This game is amazing! It's so fun and addictive. I play this for hours and hours every day! It's quite hard and slow at first, but once lots of money starts coming in it becomes easier and more laid back. I also love how there are a variety of different hotels that you can unlock later on in the game. I definitely recommend this game. If you are considering installing it... then what on earth are you waiting for?!	5	158
73	Awesome game! Rarely do I play a mobile game for more than a day or 2. But this one was so well done I 5 stared all of the hotels. My only "complaint" is that once you get 5 stars on a hotel, there is never a reason to revisit it, which also means once you 5 star the last one, you're done. I would love to see something to bring you back to the first ones. Or maybe once you finish the last one, you can restart in a mastery mode. Again, awesome game, I'll be checking out some of their other ones	5	158
74	I really love the game itself from the cute effects to the details of the game. Overall its really good and i really love it. But, as for this game is for killing time, i would love to have this game offlined and can be accessed by anyone anytime anywhere without any internet connections. Maybe someday in the future you'll have an offline game tycoon for everybody.___	4	158
75	This game is fun for the first hour and then it's just the same boring stuff. If you want to progress at all, you have to watch ads upon ads. If you pay to remove the ads, the game gets too easy and you just wait for the dancing money guy to give you all the money you need. By the 3rd hotel, I only come back for a minute to collect the offline money and spam the upgrade button a few times. There doesnt seem to be much strategy, just watch ads, upgrade stuff and come back later.	2	157
76	Loved the game! I have a request, please make the guest utilize the other facilities, and make them use their room balconies, example from the blue crystal resort's suit rooms make the guests use their private swimming pool, slides, and let them relax, sun bathe on their decks, also make them do activities like swim on the ocean, sun bathe while the beach bar is close, night party at the beach bar, you know dancing, and making some trouble. I would love to see guests interacting with each other.	4	154
77	Was fun in the beginning, but now it's gotten old. My event hotel keeps getting deleted for no reason causing me to start over every time. Also, the old hotels are pointless and there's no reason to go back to them after you've finished them. 2 stars because its a good idea, and fun at first.. but they need to fix some bugs and think of some new ways to keep people interested longer. I'll edit this if that ever happens.	2	152

78	Ads are cheating most of the time. Other than that, nice game. Placement of ad feature is perfect though as if you have to watch some ad now and then to earn some extra money, like getting a loan. Its just it doesnt work most of the time when needed. Sometimes, the ad button takes years to load, sometimes if we click it, the ad wont play, sometimes even if we watch the whole ad only to get some money for the game, we dont get the promised money. It happens mostly when the money is big	3	149
79	It's an okay game while you're bored but there are way too many ads and most of the time the ads DONT work. You click the button to watch it and it just goes back to the game without loading any video. You have to exit out of the game a few times to even get one to work again. Not worth it, find a different hotel game that doesnt require ads every 2 seconds to get any kind of revenue to expand your hotels.	2	148
80	The game is fun and i quite enjoy playing it but there are several bugs that drive me crazy!! One of the bug is alright which is I can't get the money sometimes after i watch the ads. but the other one, the most terrible one, is that last night i go to bed for like 8 hours but when i wake up and open the game, it didn't increase my money at all!!! i don't want to play this game anymore until these bugs are fixed.	2	147
81	Only game I have ever actually finished fully. I love the different locations. It is a bit repetitive, but it seems to keep you entertained and watching your guests roam and explore and utilize the services is great! Also, paying to get rid of ads is worth it. \$10 is a steep, but it transfers to every hotel and you get \$ from the VIP guest instantly, which is one of the main ways to get cash in game. It would also be grand if they added a hotel/game reset button. I'd love to play again.	5	146
82	So after playing for almost a week and I confidently say you are not going to get anywhere unless you watch ads literally every 2 minutes. I understand that it's a free game but the amount of money it takes to upgrade and get more hotels is pretty high and it will take you A WHILE to unlock. I would watch an ad for 30 seconds, get around 2,000 upgrade something and then wait for the money man to come and give me another ad so I could upgrade. Graphics are cute but money is too slow without ads.	2	145
83	Fun game, have to watch adds but not a problem you don't have to pay to get ahead, I finish all the hotels at 100% but that's it there's no more hotels. They should add more hotels, they should also have the people do different things at different times. They should not all go to the restaurant some should go to the pool, arcade, bar, etc maybe also add in room service. We should be able to make the schedule we want out shops to be open they close to soon or open to late.	4	142
84	I love this game, it's very addicting. I just got to my second hotel and its so much fun. I love that you can watch ads to double your money or just earn more altogether! Watch a 30 second add for 8,000 more dollars? Sold. I love that even after you've finished your hotel and moved on to thee next one you can go back to the original one and continue to upgrade it until it is five star, and continue to earn money from it as well. 10/10 will reccomend!	5	142
85	Great game but needs updates - similar to everyone else, I have to say: ALLOW MONEY TO BE TRANSFERRED FROM HOTEL TO HOTEL. If I'm the one building it, the money should go with me! Especially if I'm still earning on hotels that are no longer able to be upgraded. The money is still sitting there, accruing, and I can't use it! Ends up being disappointing in the end.	3	140
86	I really enjoyed playing this game, but am sad that there are no more hotels after 30 stars. I recently just paid extra money to have 10 hours of open hotel idle time, and unlimited double profits, but I only got to use it for the last hotel. If I'd have known it was the last hotel, I wouldn't have spent an extra \$15 on this game. I'm really bummed because I would've loved to keep playing, but there are no more levels after 6 hotels? __	3	140
87	Honestly this game is pretty neat. The art is very cute, simple and yet really nice to look at! I love that the hotels really change from one to the next. The ads are well placed and entirely optional. Events feel impossible unless you're willing to spend money, and honestly I might consider it if there was more to do. Once you finish a hotel, it's pretty useless, which kinda sucks. And I'm pretty sure there's a set number of hotels so eventually, you'll beat the game I assume. Great game tho!	4	138
88	It's really good! The ads are optional. And it's fun when you understand the trick or what to do first. I've been playing since feb/mar2020. Haven't bored once. I'm glad they keep it updated and adding more hotels to maintain (I was half afraid the game would be 'that's all' after I'm done with 3 hotels that's available when I first played it). Good job!	5	138

89	The game is alright if you buy the ad free in-app purchase, but if you ask for that amount of money, you should be offering a better gameplay 1)guest ai, who would spend all day " visiting" all the facilities in the hotel but don't get to use any of then because of "bad timing" 2)restaurant, queue limit at 6 but not proportional to the number of chefs? 3)after the first couple of hotel, it gets old as the hotel items are very repetitive.4)guests check out at 11:30pm?	2	138
90	There's not enough to do within a hotel, ever. I get that creating a hotel and different quests takes time, but the game should have never released if you were going to force us to wait WEEKS to even be able to play again IF a new hotel is released. I can't believe I wasted money on the ad free, I want a refund immediate	2	138
91	The game was fun but there's only four hotels and literally nothing to do when you have those completed. Rated 1star for the misleading description: "hire drivers, porters... provide laundry service or sightseeing tours... build triple or even King rooms" None of that is possible. Either add all the above in to the game, or remove it from your description	1	136
92	The game so far is very good, I enjoy it a lot, but there is a bug at The Stanley Resort where whenever I leave with no rooms available, I come back to the couples rooms empty, I don't know if I just timed it with them checking out but it always happens. It's doesn't affect the gameplay much, but the progress slows down a bit because I can't earn using those couples rooms.	5	135
93	It's an amazing game! Addicting and fun. My only concern is that you make a lot of money from another hotel that you've unlocked, but you can't transfer any of that cash you've made into the current hotel your working on. I hope more levels come soon too because I'm nearly finished all the hotels. Other than that, the game is very fun and would recommend it. A couple glitches here and there where house keeping staff go into a room, clean it, then stay in one spot and never leave that spot	4	135
94	Great game. Lots of enjoyment. Upgrade all kinds of things. As fantastic as this game is, it is plagued with ads that fail to load or connect you back to the game for your reward. The amount of times you have to reset the game as a result and losing out on your reward is appalling. ... Update. Became tired of trying to play the game now starting on the 4th Hotel. Came back after a couple of weeks. The first ad I go to watch for 2x pay for 10 minutes stalled the game forcing a reset. Uninstalling	1	132
95	Fun game but the ads don't load half the time. Just a blank screen you can't even x out of so you're staring at a blank screen for half a minute and you don't even get any rewards Sometimes it also doesn't even register that I wasn't playing in the game so when I come back to the game it's like I wasn't even away and have had no money made	1	132
96	So I'm addicted to idle games. They're perfect for a quick in and out game. This one is by far the best. I usually get bored, or the game stop progressing in an interesting way. I'm on the last hotel and had to say something before I finished it and forgot about it. Each stage is different! You don't just restart the same thing with a new added goal to reach, this one has different hotels with cool themes and fun items to build. Thank you creators, I had a blast with your game!<3	5	131
97	It is just impossible to surpass the beginning of each hotel without watching ads. Meaning, you will have to watch ads until you get to upgrade items to lessen your debt. Employees wages are too high that's why instead of a positive revenue, you will have negative revenue and even debt. I am playing Idle Inn Tycoon instead. That's much better App of yours.	1	131
98	This game is awesome! Once i started playing the cash flow in the game was great! The great thing is, i have not bought (with real money) any if the perks, because all you have to do is watch an ad to get a smaller version of them. The only thing i dont like is that sometimes when you want to waych an ad to get a perk, it doesnt work. If you like tycoons, this is the game for you.	5	131
99	I would rate this game much higher if it wasnt so glitchy! I watch the adds in order to get the VIP money, and it never fails that when a good prize is offered, the ad freezes or I get a "Video playback can not be played at this time" error message and I miss out on getting the reward. The ad that it ALWAYS freezes on is an Amazon grocery delivery advertisement. Please fix this and I will happily give a higher rating! My app is up to date, btw.	1	130
100	This is a really nice addicting game. 5 minutes into the game and I bought the no ads item and I haven't regretted it. The drawbacks of this game are: 1)you can't play multiple hotels simultaneously as the next unlocks when the current is finished. 2)Not challenging at all, victory is certain, you just try to get there faster. 3)Purchasing something for a specific event seems pointless. The reward is to reduce the time to certain victory, thus reduce your gameplay time. 4)No replay value	4	128

101	Super addictive, fun game. With a few pretty big drawbacks. The amount of adds you need to watch to get anywhere is absurd, the events are fun but impossible to get 3 stars unless you pay \$15 every week to get the bonus that should be permanent if bought once. The additional costs for the VIP guy and the guy to keep to place open for 10 extra hours are also a bit much. In the events, if you've bought the permanent VIP, too bad. There's a lot of little things that could improve the game majorly.	3	128
102	Nice graphics, easy to play, and entertaining. I bought the ad free and it's worth it! But after a few weeks of playing it, i found a bug in their event hotel. The House keeping is being stuck in one of the rooms leaving you with a dirty rooms. I tried to email the devs many times. But they still couldn't solved the problem or fixed it.	1	128
103	This is a super good game. Very creative and colorful and perfect. Really recommend it to all of you. However the only problem was the design for rooms are so messy and cause confusion. Other stuffs like the bar, restaurant, spa or pool are very beautiful but I think the room's decoration has to be improved by reducing some useless stuffs. And you can only see the confusion after you have upgraded every thing in the room (at first it was beautiful and enough).	4	127
104	This game is so much fun! There are plenty of mobile "management" games that aren't much more than clicker games, but this one actually has some management aspects to it, which make it a more involved experience. I only wish there were even more ways to get hands on with the hotel and it's staff. But this game is still very enjoyable and a great time killer.	5	127
105	It's an alright game. Issue I have is that all the sudden, when I click on a video ad via the "Investor Offer", the video doesn't load and it glitches, and I lose the money for the offer. You guys need to address that. I never thought I wouldn't mind clicking on video ads. But if I'm not going to get the credit, then what's the point? Update 01-13-2020: I ended up rebooting my modem, and I haven't had any problems with the video ads since. Hope this helps.	3	126
106	I would put 5 stars however you only get 4 hotels and even without buying any of the in game stuff you really only get a little bit of content. Once you get 5 stars on your last hotel there's literally nothing else to the game. I would have loved doing more hotels however the content is just not there. **do not buy the in game benefits because once you're done your 4th hotel (which doesn't take long) then it's useless)	2	124
107	Never get rewards for watching ads. Watch ads over and over and not receive the rewards you're supposed to get.	1	124
108	I love the entire tycoon series, there are some downsides of this game. These include high priced micro transactions, and the time it takes to build up your empire without paying to win. The time required is not unreasonable but does make the game less enjoyable. Overall, it is a great game I would enjoy more decorative choices but it's a fun way to pass time.	5	122
109	Need better offline features, I meant the game should run while being offline more like other games because we can't stay online all the time and the progression is too slow. Loved this game only the mentioned feature should be included and I will give 5 stars with best review.	3	119
110	I like the game and all these other people saying you have to spend money on this game are completely wrong. I have completed 5 hotels to 5 stars without spending any money at all. Yes it takes a while to do it and that is why you have an option to spend money. As for the ads, In order to get double profits, you have to return to your hotel while the multiplier is still on. It also works for every hotel, not just one it brings you to. 4 stars because there are no more hotels as of right now.	4	118
111	Brilliant game, I love the fact that ads are optional to watch and aren't shoved in your face every two seconds. Clearly well thought out by the devs. I love that the perks aren't a monthly subscription, but are a one time payment. I feel as though many game developers are very money hungry and only use subscriptions, so I thank you devs for being very considerate of your player base. I just wish that there were more to do besides just move on to another hotel once one is completed. Overall 5/5	5	118
112	Whenever I close the game in my mobile and open it again, all the guests in the double bed rooms disappear. This happens only in Stanley resort. This happens every time and all the double bed rooms show as vacant when I reopen the app. Anyone else facing this issue? It's very frustrating!	3	118
113	Enjoying it. But since I started the second hotel I would only rarely receive the cash promised by the VIP (maybe 1 in 10). I would watch the ad, he would walk out and I get nothing. Missed out on hundreds of thousands of dollars by now. Really annoying. Imagine trying to make progress in the challenge hotel when the VIP doesn't give you anything.	2	117

114	Great game. Very fun to play. Only problem I've had with it are sometimes things mess up. Housekeeping in the Stanley Resort do not clean all of the rooms for some reason, and I found a customer in the first hotel that was wearing skis and was stuck in a chair lift. These bugs are mildly annoying and confusing, but overall an amazing game!	5	116
115	I really do enjoy this game. But unfortunately after I've almost completed the 2nd hotel the game became unplayable due to all of the game crashes.. I hope you guys fix the issue in an update! And after I maxed out the first hotel it became useless to me. I hope this isnt a buy stupid expensive "upgrades" and just stop updating. Because that would be crappy.	1	116
116	This would have been five stars if not for a few things that started to annoy me. For starters, the guests walk around like a flock of sheep, going only in a one way system around the hotel. So you end up losing money as attractions are closed by the time they get to them. Also, on imperator, every time I click off it, it kicks 5 guests out the hotel, so i always have 5 rooms empty. The items are ridiculously expensive. A few tweaks and this game could be great.	3	116
117	Lots of fun, a great idle game...however I find myself leaving the game running so I can get the investment money when he shows up. If you do this, buying the ad free is an absolute must, and the game is so much more fun when it's ad free. Hope they keep adding hotels, because there is a very satisfying feeling that you get as you slowly upgrade your hotels to 5 stars. Fun game, and keep sending us new hotels!!	5	116
118	I was enjoying the game quite a bit and always found myself going back to it. Exciting to see what the next hotel would be like and how the rooms would be decorated. That is until I finished the castle and do not have anywhere else to go. There are the events but that gets me a new character to earn more profits. I just don't have anything to put the profits toward. I wish old hotels actually had a purpose. Also an "upgrade all" to fully upgrade a piece in the room instead of clicking 9 times.	3	115
119	I really enjoy this game!! The variation in each hotel is awesome! It takes long enough to upgrade to the next hotel to keep it interesting withput becoming frustrating. I opted to remove the ads which was well worth it and was pleased that spending additional money (which I wouldnt have done) was unnecessary. Of the codigames Ive tried (supermarket, theme park, hospital, police and jail) this one is by far my favorite and the most enjoyable!	5	115
120	Love this game, but recently (11th may 2021). I can only watch one ad in game and then have to restart the game to get one more otherwise it gets stuck in an endless cycle of loading but never actually completing. This issue means I cannot play the game in an enjoyable way. **Edit 22/05/2021** There has still been no change to this. Which is appalling meaning I cannot play the game to progress or play the events to get special managers.	2	115
121	Lowered from 5 to 2 stars. I've been playing this game for a long time, spent money on it. There hasn't been a new hotel in over a year at least. The events are now useless to me. What point is there if you've done all the hotels, and the only rewards for events are things to help complete main game? Add more hotels, and I'll change my rating.	2	114
122	This game is fun and addicting. My only complaint is that there is 5 hotels to complete. I completed them all and spent the \$10 to have the manager keep up with my hotel while I was away. For spending \$10 on a mobile game, I thought there would be a lot more hotels to complete. Not just 5...	3	114
123	I really love this game!!!! but ofcourse, for the owner to earn double - they have ads that you can click anytime to get an extra money. Which is 10x of your earning. It is really annoying, but it's my choice BECAUSE I LOVE THIS GAME AND I WANT TO PLAY CONTINUOSLY. I just hope there's a lot of things that we can do on this game rather than upgrading everything. It really took time to play this game if u dont watch the ads. I hope we can control our staffs as well __	4	113
124	Update: I have noticed it is just one advertisers issue. Anytime that it plays scrabble to go ads, I have the problem listed below. I loved the graphics and game play. However, after watching one video, it wouldn't let me watch anymore. Also, if I close out of the game, I lose any rewards I have earned. If these issues get fixed, I would definitely reinstall.	3	110
125	I love that there are different 'levels' that you can advance from. And once you buy the \$10.99 (It's DEFINITELY worth it) to remove the option to watch videos to get bonuses, it's MUCH MORE fun. What would make it better is for more buildings to be added so I can keep serving hotels and resorts! Please add more!! Or even more updates to the other hotels as well so we can keep working on them too!	5	110

126	I like this game. But I watch the videos of the investor in the sports car, and it isn't giving me the \$ at the end. I have now watched a ton of videos, and lost out on at least 10 grand or more. Please fix this. Still havinig the same problem, now the beds will say they full, game freezes, and then 2 to 4 beds are now empty. That means I am losing profit. Which I need to advance in the game to get stars to move on. Please fix.	2	110
127	It's a really good game, it's cute, awesome, whatever. It has no forced ads, which is great. But it's almost impossible to get by without watching ads, ESPECIALLY in events. Events are only 4 days long and that is still not long enough to get there. Being in quarentine, I sat for maybe 8 hours a day maybe more, watching a show and playing this game, watching every ad that came my way for money, and I STILL wasn't able to meet the requirements for the event prize manager.	2	109
128	The game is beautifully made, but there's no denying that it has much room for improvement. There's very little to play except upgrading the things. I suggest add a mini games to every aspect of the fields for example in restaurant make a mini game which we can participate and earn money our selfs instead of waiting for the ads to finish and get our money.	4	108
129	It is an amazing game! I love playing it. The best thing about it is that it is offline. There is just one thing that bothers me a lot. I have finished one hotel and there is nothing left to upgrade in it, but I still earn money in that hotel which is kinda useless cuz there is nothing left to upgrade. I have around 300k dollars in that hotel and I'm pretty poor in my other hotels, it would be great of u can add a option of transferring money from one hotel to another.	4	108
130	As far as idle games this is one of the best that is until you have completed all the hotels then your stuck playing the same "Event Hotels" with nothing new to strive for. If you can't do anything with the existing hotels or the income from them it's useless to continue to play. Give us a reason to come back to the game. Add something.. Valet parking, bellboys ,room service, security employees anything... how about more HOTELS! Just a thought.	5	106
131	The game is really amazing but only one thing is bothering me much is tat the money earned in one hotel cannot be used in upgrading the other hotels ____jâ____jâ when one hotel is fully completed what is to be done with the money collected by that hotel??? Please look into it. At least the money from one hotel can be used to upgrade other hotels. Please guys make some changes.! Looking forward to it.!	4	106
132	Awesome game, super addictive (if you like tycoon games) I couldn't stop playing. The only negative I have is that it forces you to buy things (new room/hotel) when you may not be ready or want to. Hopefully this particular developer will come out with other tycoon options because I'd definitely download.	5	106
133	It's a fun game, especially seeing the characters in your hotels but it gets repetitive. It's straightforward enough w/no need of help. Except for the special items that costs gems, I 100% the game in about a month. I spent money on 1 item to be able to double my profits. That makes the game go by way quicker. At this point, what is the point of the special managers? Unless you're adding more hotels or space to the existing hotels, I'm done & get no benefit from them. Don't spend \$\$ on the game	3	105
134	This game is fun, but very slow. It'd be nice for the profits to be slightly increased. It can get boring quickly waiting for income to upgrade stuff. I'd be interested in a PC version of you sold one on steam. Keep it simple, fun but with more content (varied locations, forest, desert, snow, etc.).	4	105
135	The game would be fun. I have been playing now for a couple of weeks. In that time u have sent about 10 emails because the ads for the dancing guy don't work!! They claim to sent the info to someone to get it fixed, but then things get worse!!! Now the app freezes when I try to view the ads from the dancing guy. This game has gone from good to the worst app I have ever played a game on!!!! Do Not download unless you want to be frustrated all the time!!!	1	103
136	The gameplay and the graphics are cool but it takes just too much time to get enough money to make new rooms and develop the hotel. You can easily get money from watching video ads, sadly you will do that every 8 seconds so the game become repetitive and too slow to get somewhere. I was watching a 14 seconds and every 10 seconds of gameplay to get some money and even that way I couldn't build much :(2	102
137	Overall it's a cute idle tycoon game. I would give it more stars but I have a few issues with it. First is the ads, there's so many that it wants you to watch. They're not absolutely required but make a big difference in how fast you can proceed. Second problem is after watching the ads, sometimes it does not give you the rewards you were watching the ad for. That's very frustrating!!	3	101

138	I updated my review a few days ago but I figured out that bug (advertising campaign) I thought since I brought that manger I didn't need it. I've been playing recently and my game is glitching. I'll come back to a hotel and all my staff are just walking in (no matter the time or shift). My guest go to use services then pack up and leave, sometimes w/o checking out (losing money)!! Fix please!!	4	101
139	Good game! Very good. Graphics are good and I like the music choices. I don't mind ads to get __ and I like you have to get stars to progress! Also,ignore all the people who saying bad stuff about this out of spite(insulting graphics etc) but don't ignore people who report bug fixes. No bugs makes a person happier. One 5 __ review =1 bug fixed	5	100
140	*updated* enjoyable game, but last few days finding that if I come back into the game after not playing it for a few hours, and watch a clip to double my profits, it is not doubling the profits, so i am missing out on the extra dollars. Makes it frustrating when expecting it to give it to you. Be great to have this fixed asap or maybe time to play another game.	1	100
141	This is a great game for killing time! I like how you don't have to constantly monitor every little aspect. The design is cute and it is rewarding to level up the items in your hotel. I downloaded a few other games from this developer. While they are very good(especially the other idle games) this one is my favorite. I just unlocked the last available hotel and am really hoping more content will be released!	5	97
142	I've been playing this game for a few days, and it's really addictive but I do some suggestions. Firstly, the amount of ads is ridiculous, 80% of my time is spent watching them, so gameplay is limited. The upgrade to remove ads is very expensive, you may find that more people purchase this at a lower cost. I'm struggling to see how I will reach the 5th star on my 1st hotel, and therefore unlock the 3rd hotel. My 1st hotel is making money but I can't use it! I should be able to use it on another.	3	97
143	I love the concept of the game. But with gems you can't buy anything but unnecessary room or kitchen boosters. After you proceed to the next hotel you do not get x2 income or so (is too long of a grind). The main reason for 2 stars are the Advertisements. It is simply taking too many ads to complete one room and manage expenses plus, a lot of times when I watch the ad thru, I do not get that in game currency. Otherwise I really like the idea behind this game and it's style.	2	96
144	Really cute and entertaining idle game! I love that you get to choose when to watch ads, it makes me feel like I'm actually getting something from them instead of just filling the dev's pocket. This is the only mobile game where it doesn't feel monotonous, It's balanced well where when you buy upgrades you actually feel like you are improving. I play it every night before bed to relax and it gets the job done. Tldr; Non-intrusive ads and good gameplay.	5	96
145	The game is incredibly slow. Boosting profits by 2x only gives you 10 minutes per ad. Max 2 hours. I have to watch 12 ads to get Max?? There's a guy dance in your lobby asking you to watch an ad for money you can get in 30 minutes also. Along with five other watch ad and get money/boost. Almost 50% of the screen is asking you to watch ads or pay for no ads.	1	96
146	I've had to watch a lot of videos to stay in the black. Otherwise I found it enjoyable in the beginning. However, once I decided to pay to disable ads (way too much I might add) it became repetitive and boring. The final two hotels showed lazy development, reusing car sounds when the flying carpet shows up, buggy people stuck in walls, etc. When you get 5 stars on the last hotel, nothing happens. You're at the end of the game with nothing to do except delete it. Disappointing purchase.	3	94
147	Great idle game, can't really find fault, rating 4 stars due to the lack of levels, but other than that it's your typical idle game. I do wish your money carried over per hotel, but I understand why it doesn't. There is no major pay to win either. You can pay to remove adds but that's about it. The closing of the hotel after 2 hours is an intresting feature that I quite enjoyed! You can pay to keep it open for 10 hours. But I never felt the need. Which is great!	4	94
148	I LOVE the game! The first 2 hotels was fun but the 3th one was a bit difficult and a bit more expensive, making it a little bit harder to complete, and mostly, the people staying at the hotels usually appear at the facilities but sometimes they were still closed, I think you need some kind of code that could trigger the customers only when its the right time.	4	93
149	It's a really entertaining and engaging game.I had played this game 3 hours straight on the first day itself and watched over 20 ads... Though I like it very much, I didn't liked the manner in which we are asked to pay for something that it's quite obviously a need for us.. moreover the payment gateway always shows errors that's why I cannot buy something with real currency even if I want to . please fix this and I won't hesitate even a bit giving it. 5 stars :P	4	93

150	This game is a good distraction for slow moments. I can see how the ads are annoying but the remove ads feature is helpful for low price. The only disadvantage is there is an end to this game. After the last hotel, that is it no more hotels available. There is nothing left to do, no reset to the beginning hotel or any more challenges.	4	92
151	The game is a lot of fun, and I find myself opening it quite often to check on my hotel. However, the prices on the in-app purchases are way too high for the game that it is. Most people wouldn't pay more than \$0.99-\$1.99 for an entire game on google play, nobody wants to pay \$10.99 JUST to turn off ads, that's way too high. The other in-app purchases are just as bad	3	92
152	THIS GAME IS Amazing! In most tycoon games, you just keep on upgrading the same thing over and over again and the 'renovating' and basically doing the same thing over and over. This game is much more sensible since there are many ways to spend your cash. Each new hotel has a unique style, with new upgrades and services. I really think that the images below don't quite capture the best parts of the game. Ads are not required you can watch them for bonuses but otherwise they don't appear.	5	92
153	Super fun for anyone! Wish I could use profits from one hotel somewhere else. I get that it shouldn't be used for the next build, but I have no reason to go back into an old hotel when it gets 5 stars. What about a bank option where I can earn enough in all my locations for a gem or take out a loan to purchase hotels and use profits to pay it off... Ya know, kinda like in real life? Otherwise, love the events and there are enough hotels to keep going, for now...	4	92
154	This is a great spin on traditional idle games. You can largely play this game without paying anything though I suggest buying the manager that lets you accumulate cash for 10 hours. My only concerns are the events and needing new hotels. I hope you guys come out with an update adding more hotels soon! The events are damn near impossible to complete without paying the \$10 EACH time for the suites. It's kind of BS. The rest of the game it great.	4	92
155	I absolutely love this game, the progress is well paced, and strategy does play a small part in playing it, knowing how and when to invest your money in upgrades and staff and extras. It does require alot of ad watching if you wish to progress at a reasonable pace. Normally that would bother me, but for this game, it benefits you to leave it open (more customers show up) so I just leave the game open and click in and out of the ads while I do other things, like homework and such. I recommend :)	5	91
156	It was a fun game at first until after you have completed the first hotel and come to find you cant use any of your money from that hotel towards the next. Whats the point with all that money building up with nothing to spend it on when everything is upgraded to the top tier? Pointless. I advise to def not use any of your real money on this game. Im glad i didnt i would have been furious if i had.	2	91
157	The game is perfect aside from the guest AI, which is terrible. Guests completely ignore when services are available and check at random times. There should be a way to improve this feature at the front desk. Making sure guests know when services are available is important when minimizing losses and maximizing profits.	4	90
158	This is the most best game I have ever gotten!_____It never forces you to watch ads, you can choose to if you want double profits or something like that. I also love that the game goes on for an entire hour even after you close it out, so when you get back you have more money than when you left! One question though, even if I have more than 6 tables then why does it only let in 3 or 4 people at a time? Is it because I need to hire more chefs__? Please let me know. Thank you _____	5	90
159	Game's pacing is good, I don't find myself wishing I was progressing any faster or slower. Had some issues getting my hotels to 5 stars in order to move on to the 3rd hotel, so I contacted the devs and the issue was resolved! I appreciate their quick response, I just wish I'd been more proactive with contacting them. _____	5	90
160	After downloading and getting to the second hotel, the "investor" for ads doesn't show up anymore and neither does the button to watch an ad for 2x earning. So the game is now basically just sitting and waiting for the tiny profit to add up very, very slowly. Makes it less playable and if the ad guy doesn't come back I will be deleting as he was the only thing that keeps the game moving.	3	89
161	Although the game is lengthy in terms of racking up enough funds to upgrade rooms fully and buy new parts for your hotel, after a few days and also a lot of ads from the investor to help speed up the process I finished the first hotel and moved on to the next. Overall, from what I have experienced, the game is very fun and rewarding when you begin to take off a bit more. It's quite polished and there are no ads other than when getting optional benefits. Can recommend :)	4	88

162	Nice game but you have a bug in your event hotel. The cleaner sometimes gets stuck in the room and doesn't finish cleaning. Also having a buy all option would make the game more fun. There aren't much updates or variation between the hotels, once you finish the hotel there isn't much point in going back to them. Maybe daily quests for each hotel? The event hotel is way too difficult if you don't play continuously for the whole period or buy the package.	3	88
163	Great game, love playing it every chance I get. The issues I have is at points I can't watch videos to increase 2x profit time. When the guy/gal comes to invest I can't watch their videos to receive money either. When I start the game it let's the videos play, but during the game I have to close the app and restart all the time. That's the only way I can watch the videos	2	88
164	It's a bit of fun, very similar to prison empire. The rewards for watching ads is very low and sometimes they won't load properly so are unavailable. In app purchase prices are way too high for what you get. I don't understand, if you're the hotel empire tycoon, why cant you use the profits from the hotels you are running really well to upgrade the next hotel?	2	87
165	Addictive game, shame so many ads. jê10 a bit steep to get rid of them, jê5 would be better. About the game though, if you are the "manager" of the hotels, shouldn't you be able to take money from other hotels that are fully equipped making money to help in new hotel "ventures"?? Would be a nice addition.	4	87
166	I am playing this game again after a long time and I now see new content including events feature. Well done. However, the ads multiplier is STILL NOT WORKING! I have purchased the "No more ads" feature for _ 920, and what is the point in skipping the ad when the double reward do not come! This is pure cheating. This issue had been raised by many since the beginning, and even after updating this game you still haven't fixed this bug. Until you fix this issue, I am not going to play this game.	1	86
167	I would LOVE to give this game a 5 star. It was fun, cute, detail-oriented, everything you want from a tycoon game. But one BIG issue was when I log out from the game, the guests from the double rooms suddenly missing from my hotel. I tried to logout just for a few seconds and login afterwards and they're gone. Please fix this and i will give 5 stars back.	3	86
168	Overall its a good game with a great gameplay. perhaps it could be improved by making the customer become more natural. make them interact each other, they look like a robot in a loop pattern. 3 rooms having a shower together at the same time, sleep in a same bed but having a different table at restaurant, make them more natural like a real social creature. I think thats all, thank you.	4	85
169	I've been playing this game for weeks now, it's quite fun and addicting but I'm giving it three stars because of the extremely expensive and absurd microtransactions. These microtransactions are called "Managers", they cost \$14.99 each and there are three of them, one of them let's you make hotel cash offline for 10 hours, instead of 2 hours. The other manager doubles money and the third removed ads. Buying the third one makes the second one useless and it isn't really worthwhile	3	85
170	I really enjoy this game, it is one of the better idle games! My only complaint is the Events only last 3 days and it is impossible to win without having to spend real money! I am an avid played and spent so long on the event, watched all the ads, got the multiplier again and again but still not even close to earning a star. It would be good if the events were longer to give people who don't pay for games a fair chance.	4	84
171	There's no point even playing after the first hotel. Progress is excruciatingly slow. So slow you're practically forced to watch ads to get anywhere at all and even that isn't enough. It's clear this is just a garbage money grab since a permanent x2 is \$11 and to earn a x2 without paying you have to watch an ad for TEN MINUTES of time. That's all you get. Garbage game from a garbage company.	1	84
172	How did I get sucked into another one of these games lol. I've already done the Theme Park one and SuperMarket one. Must be doing something right lol. I love these games because you actually get to SEE the progress you make so its satisfying. I really love this one! Thank you for fixing the money dancing guy! 5 Star Game all around! Keep up the good work! :)	5	84
173	The game is very addictive and enjoyable. I did the payment for no adds and worked great. However when I paid in the recent "Event" to be able to build 3x presidential suites, my money was taken but without the benefit given. Disappointed. Now trying to connect for the past 2 days, it gives a Code 4 Error, unable to connect to game server. Please assist.	3	83

174	It's a pretty fun game so far, but there is either a really annoying bug in it or I'm doing something wrong here...for some reason, even though I have 4 tables, apparently only 2 tables can be occupied at a time. The other people will stand in line as if there aren't any empty tables, and then get angry and leave pretty much right at the time a person finishes eating. It's like they are practicing social distancing or something...it's really wierd.	3	83
175	I definitely enjoy this game. At first it seemed like a standard idle builder. The lower levels are easy but instructive. Then you hit the first timed event and you realize that there is a lot more strategy involved. I was blown out of the water on my first event, the second I reached the one star goal, and the third a two star goal. The optional ad model is nice although after playing awhile I bought the ad-free experience (both worth supporting the dev and enhancing overall enjoyment).	4	82
176	I've been playing this game for a week and so far It's not so bad. It kind of sucks that the only way to get the perks are to watch ads or pay. My recent encounter that's lasted the whole day so far is that I don't even have the option to watch ads anymore. The dancing guy, the taxi icon and fast forwarding to the next day are still options, but when I click watch video, it doesn't do anything. Please fix!!!	3	82
177	Update: They fixed the issue of it not giving the funds so as promised five stars, it's a really fun game, I just opened my third hotel in it. Hoping they add more hotels __ I actually really like this game but it has one huge issue. When I come back to the game after not playing it a while it'll say I've earnt X amount but when I click continue or watch the and to double the amount it doesn't give me the money I've earned while away. If it wasn't for that it would easily be a five star review.	5	82
178	I played for a few hours, and I barely made any profits. I had to watch well above 20 ads to get any income. I had no 'energy' for any upgrades. Everything was super expensive. The tasks for profits where too difficult so early in the game. Unless you instantly put real life money into this game, and a lot, it's not worth playing. Uninstalled.	1	82
179	Love the game but its driving me crazy cause I worked so hard to get my first hotel too five stars but you see it says I have five stars at the top but then when I go to get another hotel it says I dont have any frustrating urgh. Tried to uninstall it clear the cashe but nothing so pretty soon just gunna uninstall it which makes me sad cause it's my favorite game...	3	82
180	It's a great game. I've been playing for less than a week and I'm 90% done the third location. The build is neither rushed or too slow. I don't feel it's necessary to always watch the ads to get further, it's possible without doing so. The only downfall I wish there's more locations (future updates?), or hopefully more to do in each location in future updates. All in all, this is what I look for in an idle game. You don't have to constantly reset to get ahead, make more money, etc. THANK GOD	4	81
181	Like this game... But... It has improved a lot in the months I've been playing it. I've done the first three hotels to five star and the Xmas one is almost finished. I like the idea of events in this but this current one is ridiculous. I've got just over 4million of the 10million required for one star and that's just in a day and a half so how you expect us to get to 100million in that time is beyond me. The only way we can make that much is to buy the upgrade and that's a big no.	3	81
182	I absolutely love this game. Great graphics. Great work guys! But I do want to say that I wish you could use money from another hotel to upgrade another one. For instance when you complete a hotel the money is useless and completed hotels earn more money, but uncompleted ones are incredibly hard when you only get 2000 dollars after a paycheck 9000. Please look into it. Thank you	4	80
183	This was a pretty nice game. A game to play when there's nothing else to do. But the sheer amount of ads you NEED to watch to actually progress is annoying and didn't need to be included what so ever. If you don't watch ads you 1. Don't get money to upgrade certain things that you actually need and 2. If you don't have enough money your staff quit.	2	80
184	They provide x2 profit after you watch a 15-35seconds ads but most of the time after watching the ads you won't get the profit especially when the profit is high amounts. Waste a lot of time to watch the ads and get nothing. Disappointed with the game. I'm not recommend this game to those players there are not planning to invest some money in the game. The time spent on watching the ads is longer than playing the game	1	80
185	I'm addicted to this game, and love playing it. It's provided hours of entertainment. My only complaint is that the prices are exceptionally high for the "vip" status during events or to get rid of ads (which I did because I play the game so much and appreciate it!). Would love it if you could unlock the vip (\$10.99 - OUCH) for events ONE time and keep that status for ALL events. It's ridiculous to spend that much money once, let alone for every event...	3	80

186	Love this game, wish there was more hotels. I've already completed all the hotels. So definitely needs more hotels so people can keep playing. I also agree with other reviews about transferring money from other hotels to your current hotel, well at least a percentage of your earnings would be nice. I'd hate to delete this game, so please add many more hotels. _____	4	80
187	I take 3j back because (1) most time I watch ads from Dancing King, the game is force closed, so I almost never get the cash Only get about 1x from 10x watching. (2) when I am log back in, all my staffs disappear. The worst is the cleaning service (3) The 3rd hotel is nonsense. From a room to the restaurant, the guests need 2 hours. So when they reach the restaurant, it is already closed. I've been thinking to uninstall it.	2	80
188	This game is a notch above other idle games! Unlike other idle games where you just mash a button and upgrade components, this actually requires some patience and micromanaging. There is a day/night cycle, shift schedules, and if you don't plan your finances right you can actually lose money! Also, I do not feel constantly bombarded with ads or "deals" to buy gems. Overall, it's a great game. Loving it so far!	5	79
189	Would definitely be a 5* because this game is fantastic. I don't mind watching adds to speed things up in the game and I'm grateful that they help, but I keep getting the same tedious advert that last at least 1 mins (Klondike) every single time. It is the most soul destroying thing ever and I'm stuck in isolation! Please at least vary the adds more and I might change my rating!	2	79
190	Great game! Very addicting! Very easy to play, it takes a little bit to get going in the begining of each level but it makes each map last longer. It is cool how each new hotel you get different services to add and different up grade designs. Ive spent money on the no ads, a little pricey at \$10 but it will be well worth it if they add alot more levels. Keep up the good work and keep the new hotels comming!	5	77
191	I dig the plot, the graphics, and the goals. my issues are with how much actual money you have to spend to have a decent playing experience. I'm not even saying it would be an exceptional playing experience, just one worth playing. The manager cost \$10, the dog to remove ads cost \$5. if you watch ads, you get cash/customers, no problem. an option to use diamonds to obtain a manager should be on the table, however he can't cost more than 300 diamonds, when you're only rewarded 5 at a time.	2	77
192	Honestly, I can get past the ridiculous amount of ads and real life cost to get rid of them (for \$18 i could buy a pc game). But when I found out after unlocking my second hotel that the money doesn't carry over from the first, whats the point? Aren't you supposed to be building your profits with more and more hotels? Could be a great game, and looks really nice but this is just a cash grab.	2	77
193	Game is so much fun but ads refusing to load ruins it. This is a consistent problem across all games from this company but this one seems especially affected. I get maybe 30 minutes per 1-2 days where ads will load, that's it. The rest of the time I can't use any ad boosts. At least set it up so that we automatically get the boost even if the game can't load an ad!	3	77
194	I appreciate the update that allows you to see the upgrade percentage of a room/ facility from the menu. It was inconvenient to search each section to check. My only complaint is that you need full stars/100% to advance to the next hotel. Update: a hotel was posted that didn't need all the stars __ thank you Devs. If I may suggest something else: it would be awesome to have a group/mass upgrade ability. It's a lot of time and attention to upgrade over 40 rooms, each with 15+ upgradeable items.	4	77
195	Lots of bugs on the beach... Every time I exit and come back to the game I have 2+ available rooms (doesn't matter if it is 5 minutes or 2 hours) even though I literally WATCHED the guests check in. So I am being robbed of my full earnings potential. **UPDATE: Same on the Santa Resort^ (even tho I did PURCHASE the \$10.99 NO ADS) I am still getting robbed on my rooms every time I leave the game. IDLE means you make money when you are away from the game? That is not what I am seeing here.	1	77
196	I downloaded this game a week ago and fell in love. It reminded me of "The Sims" and "Zoo Tycoon" that I loved so much. The first two days I beat the first hotel. Three days later I beat the second... Then the game started constantly kicking me out and back to the loading page. Can't watch an ad (which is the biggest part of earning money) to double profits or make money from the VIP customer. Takes too long now to keep my attention. So sad.	1	76

197	This is an interesting game, but it has one very major flaw. If you ever close the game, the next time that you open it, your double occupancy rooms are all vacant! Since you can only add double occupancy rooms, not single occupancy, thus means that the majority of your guests just plain disappear. Those rooms then sit empty, not earning anything, until after check-out time. You really need to fix that.	2	76
198	I love this game. I was playing it on my tablet and it kept freezing, so I started playing it on my phone and it's fine. My only problem is that all my hotels are 5 stars, and there's nothing left for me to do until the codi hotels pop up. I also don't like that it's \$10.99 each time to get presidential suites. It doesn't roll over to the next codi hotel, and it should. Things cost way too many diamonds. Other than that it's fine. It needs more hotels.	4	75
199	I like it... it's fun, but I wish when you finish with one hotel & advance to the other hotels, the extra money should at least go to the next hotels. Plus I wish that the rooms, upgrades, & other resorts wasn't so dang ridiculously expensive!!! Overall, I believe it would be a more enjoyable game if the extra money would carry over to the other new hotels. I'll admit I enjoyed it, although sometimes it can be frustrating, however, I think it could be better. Soo, I will have to give it 3 stars.	3	74
200	I don't often write reviews on games, but in this case I felt it was necessary. This game is only fun if you enjoy watching ads. I've watched probably 3 times more ads on this game, all in an attempt to get ahead. The game won't hold your attention for more than 2-3 weeks. The constant ads and the cost of in-game items is ridiculous. The regular event is impossible to advance in without spending money. But beware! The advantage is only good for 4 days and doesn't return for the next one. No wins	2	74
201	Bugs. The game constantly develops new bugs and the in app support is useless and careless. And what's with all the inappropriate ads?? This is obviously a game that kids play as well and these ads are basically softcore porn! The team needs to get a hang of their bugs and ads, it's getting ridiculous and I'm thinking of deleting.	1	73
202	It was fun but the cost of each item is way too high then you can earn. I have to watch tons of video to gain money. But I did and build a 5 star hotel and moved to the new one. Now I figured out I can't use my previous balance to upgrade the new hotel. So you have to start again. If I think as hotel tycoon then I build my business, use my current fund to grow more. I have no energy and time to watch tons of videos again to earn money. So I am uninstalling it. Bu the game and features are good.	3	72
203	Ok, so I really like this game. Fun graphics, cool mechanics, etc. I also don't mine watching ads for 2x profit or money. My problem however is that neither are working anymore. I can't watch ads for 2x profit or money. And it's very slow if you don't. I've tried backing out, reinstalling, restarting the app and my phone. Nothing works. Really hope this bug is fixed cause I really love this game	3	71
204	The game was fun at first, but it stopped connecting to ads all of a sudden and they won't come back. You pretty much need the adverts to advance so playing the game is pointless now. I'll be uninstalling by tomorrow unless it's fixed. EDIT: anyone having trouble with the game not connecting to ads, just uninstall and reinstall. You don't lose any progress. I have been doing this about once per day. It's a dirty trick they're using to get you to spend a fortune on an ad-free version of the game	1	70
205	I like it, it's a lot better than those 'Idle' games, where those just get boring. Yes this has pay to play options but you can absolutely play without ever paying, I've worked my way through nearly the whole thing with no \$ spent. It does have a lot of watch ads options to speed up the process, but it's actually not so bothersome for me with this one. Simple but addictive.	4	69
206	Great Game really easy to play and a brilliant way to kill a bit of time. I really enjoyed it, so much I paid for a manager (no ads, there were far too many otherwise), reason for only 2 stars, it's a very short game, I paid j€10 for the manager, thinking more hotels would open up... nope, there are only 5 hotels in the entire game. If you do play this, don't spend money just power through the ridiculous number of adverts...	2	69
207	Fun and addictive game. LOTS of ads, but if you watch them there's no stopping you from getting one star in the events if you put in the hours. More stars would require spending money. I disagree with other commenters who say cash should transfer over to other hotels - that would make the game too easy. I like the increasing degree of difficulty. I'm only on level 4 though. Customer service isn't very useful, when and if they respond (the game shortchanged me some gems).	4	69

208	Good game, as of yesterday I have completed all the hotels. Only scored so low because I must have watched over a 1000 ads during my time playing this game. For me, I would have it open while watching something and constantly have ads playing to actually make money in game. Another thing, once you've completed a hotel, there's no need to go back to it, it's just making money that you can't use. Guest pathing is a bit weird at times too, and the opening times of facilities is a bit off as well	3	68
209	I love this game, i really want more of it im so excited to see more added to the game. As soon as i possibly can im going to spend a lot of money into this game i want to see more things. To do more hotels, i just i love it so much from the graphics you use to the layouts of the buildings. 1 main question though do the purchases i make help the creator? Like support for the game and help live? Hopefully comfortably. I'll be trying to get my friends to play for sure they'd love it!	5	68
210	I give out 2 stars, as I enjoyed this kind of game very much. However, -3 stars as below: _ -1 star : seems like I played the ads more than the games itself _ -1 star : after upgraded all the 1st hotel facilities & hired max qty of employees, I only got 4 stars. The coins getting piled up for 900k++ but I couldn't spend it at all. _ -1 star : even after I got those 900k++ coins, I couldn't use it at the 2nd hotel. All the upgrades at the 2nd hotel could've done if I could use 1st hotel's coins	2	68
211	Fun game, easier if you'll watch commercials. You're never forced to, but there's rewards so watch a million commercials and this game will go by quick for you. 3 complaints: 1) in-game purchases are stupid expensive. I'll spend cash on a good game, but in-game purchases are like \$13 (for one manager for example) 2) special events are incredibly difficult to accomplish getting 1 star. 3) there needs to be more levels.	4	67
212	This game is lacking logic. It is so frustrating to see the NPC travel back and forth between amenities that our closed. This makes no sense! For instance, all guess will travel in pre-determined order from place to place (even when said place is closed) while your pool. By the time the arrive at the pool it closes. Therefore the hotel loses money. By the forth hotel guess don't even sleep anymore. They are just walking from place to place. I'm looking for something new. Any suggestions?	2	67
213	If you are willing to pay for "address" version go ahead. If you're not willing to pay then don't even bother. The game is conceived to force you to watch ads otherwise you can't do anything. The progress is very slow without ads and you have nothing to do while waiting for funds to gather. Here skill is not required, you are just expected to watch adds to make the money you need to make the upgrades. Or you can pay and the income from the hotel becomes normal as it should be in first place.	1	67
214	Great game with fun progression and no necessary P2W. My only complaint: I have a maid glitched and stuck in a bedroom. She won't clean, and I can't fire her, so that room isn't getting cleaned and I have to watch a video to clean it every day. Anything you guys can do to help me out? It's the first hotel. Thank you!	5	67
215	I like the game but each time I upgrade something in the bedrooms it doesn't work with the other bedrooms also my game keeps freezing and if it isn't freezing it lags and stops me from using anything after 10 minutes then when I restart my phone it kicks me out the app!!! Unbelievably bad, I have seen so many better apps and hotel empire completely sucks I hate this game because i cant even do anything, fix your game, I have tried to play for a while now and I am leaving a review now good day!!!	1	67
216	Excellent idle game for people with genuine business mind. More challenging than most idle games. You need to look at the cost/benefit of each upgrade to work out the order, because you can't just keep clicking everything like in so many games. Log in every 2 hours or so if you can and watch one add to double income, then spend the money upgrading. You can watch more adds for money but that gives you the best value for your time. Its slow progress but better than games that are far too easy.	5	66
217	Great addictive game! But when you get to Santa's Shelter - 1. It's Summer. 2. The hours of the bar & restaurant are crazy, so you spend a lot of time (if not watching adverts to proceed) watching guests wander down to find them closed, then go back up to their rooms. Bored now. If you don't watch adverts, this game would take years to get through. Was fantastic, but I'd be great if you could make steady progress without hours of adverts.	4	66
218	Special events are buggy!!! You see, when you play a special event you have 3 days to make 180m... Even after purchasing one if not all three extras (a total around \$25) the game will be playing for you only to freeze and lose a whole days worth of profits. When trying to get to support, you just get a list of known problems. No way to reach out to anyone... Highly frustrating, not worth your time.	2	66

219	This game is very well polished with a great art style and easy to use interface. I had a lot of fun with the first two hotels, but ran into a big issue. Upgrades are priced such that you really can only progress through the levels in a very linear fashion. By the time you get to big upgrades like the ski slope, for example, you are making so much money you can upgrade it all anyway. This really makes things feel bland and eventually too boring.	3	65
220	The game is fun enough, but new hotels are very slow to start. Would be nice if you could share some of the money from other hotels to get off to a better start. Also, when you watch an ad to get double profits while you were offline, you don't actually get double the profits. It says on screen that you do, but when you check your balance, it only gives you the amount once.	3	65
221	I was enjoying the game, but then I noticed the AI is horrible and makes you lose profit when you expand. When you purchase a major expansion to your property (such as the ski slopes) it actually cut the income of my hotel in 1/2 because the guest waste time walking out and around the building even when the ski lift is closed. By time they get back inside the other facilities are closed and you make a lot less because of all the time they walked around not spending money.	1	65
222	Its a fun game that helps the time pass when I'm bored. But I've noticed when I watch the ads for "double the cash" when i open the app, it only does the original ammount.... so, literally watching the ad when I first open the app for no reason. Supposed to give double the money while I'm away but it keeps giving me the original amount. A 30 second ad isn't worth it lol (and yes I know ads keep it free but thats not the problem so please don't respond with that) please fix it.	4	64
223	This game is good. I love it. Maybe because i love it so much, i really want to do well so i disconnected the game with google play and uninstall it. After that, i install the game again so that i can reset the game but nothing happened. My game money also gone but there's nothing such as reset happening there. I have done it many times but it still the same.	2	64
224	I love the game so much. I don't make in-game purchases so i don't have any complains about that. It's so cool and i love that system of paying wages daily... so you know exactly your financial position after each day. It's kind of addictive for me i won't lie. But the game is just sooo good, it's worth it. I love the game. I've tried the other games as well and they're as good as that one. Keep it up____	5	64
225	Suddenly the event hotel is not opening. It's showing "wait till connection with server is established". Whereas other hotels are working fine. Please resolve the problem ASAP.	1	64
226	Used to love it until my screen was overtaken by ads! Gradually more and more upgrade buttons kept popping up on my screen until I couldn't help but to accidentally press one and open up the pop up screen. Becomes so annoying I just uninstalled. I wish I never would have purchased the no-ad version. Because I feel like I was lied to. I look forward to a company to make a version of this game that has no ads!!!!!! I loved playing it, but the developers need to sell upgrades got out of hand.	2	63
227	Very fun game... Ad issue appears to be fixed so I increased to 4*. Suggestion: the game should be move of a puzzle in a quest to make your hotels, 5*. There should be more options to make me have to find the most successful combo, plus more than 1 way to reach 5*. Make me have to maintain my hotel instead of doing things for me once I reach a certain point. Don't like how I come back and things have been purchased. (maybe I didn't want to buy that. __)	4	63
228	A fun little time wasting game. I've honestly played it more than I care to admit. It's simple with concise goals, and allows you to play and win with minimal ads unless you choose to use them. I am hesitant to give higher than a 4 star because there are a few changes I would like to see in the app. For instance being able to zoom further out would be amazing.	4	63
229	It's fun but lacking. Just a few things I like: * It's cute. Pretty simplistic, but still very detailed. * The early stages of a new hotel are challenging. They force you to think strategically. Some things I dislike: * Way too short. There's only 5 hotels and then game over. * Late stages of a hotel are incredibly easy, but only if you're offline for the maximum time. It came down to me just getting the 10 hour offline time then doubling profits.	3	63
230	I was very hesitant about this game at first as most switch over to an advertisement every ten seconds. But within this one, you choose whether you want to watch them or not and in return, you get pennies and stuff to help expand your hotel. You can hire additional staff and choose to skip advertisements but still gain all the perks, but it's over j€10 each for these amongst others which I think is a little high. But certainly doesn't stop me from being able to play the game which I'm enjoying.	5	63

231	A fun and enjoyable game for individuals interested in entrepreneurial games. It helps pass the time, is easy to learn, and teaches one basic business aspects from micro-economics to accounting. May still need to take classes for taxes though (sorry folks lol). There are ads, but they are optional for an in-game currency reward to help your business grow faster. 5/5	5	63
232	Hey, when watching ads from the dancing king or opening back the game you get extra money. But sometimes it doesn't work properly and there is no extra money after watching the ads. Must be fixed. Also, some of the housekeeping staff in the crystal and the Arabian resorts are laying on their faces, instead of being seated or standing. haha. Please add more hotels. Events must be added as a service IN the hotels, not a hotel itself. Like a banquet department. Extend restaurant hours. 1h30 is not enough. I know it's a game but try to be more realistic ;) Too bad cannot be played on a computer.	3	63
233	It's very glitchy. Ad rewards aren't loading 75% of the time. The VIP keeps on just disappearing before entering the lobby; the car sound are there but there's no VIP car?? I've wanted to purchase the no ads package but since the benefits are being glitchy, I may have to postpone until it's fixed. I wish there were more options of further developing hotels that already have 5 star rating (like the first one).	3	63
234	The ad I saw for this game mentioned how tycoon games are usually boring... I didn't realize they were advertising that there's was boring as well. During nighttime, you have to watch the characters sleep or purchase a manager who can bypass the night. So you sit there, with nothing to do, for a few minutes. What's more boring than not being able to interact with your game?	2	63
235	Completely finished Little Camelot. Awaiting the next upgrade. Highly addicted to this game. It is a long time in between upgrades in this game.	1	63
236	Alot of ads but kills time. Unfortunately I finished the last hotel and now there's nothing to do. So I stopped playing.	3	63
237	This game is slow at start, but it gets better as you make money. The constant ad helps gain when business is slow. Good time killer, but at a time, the gain isn't much, but positive thing is it makes it challenging either by saving to build a section or spend to get better gain in the long run.	4	62
238	The game is actually good and very accommodating. But the complaints are also true. The game stops giving ad after 5 mins. then, if you restart the game, it will leave you with only 2 customers in single room. Nit even enough to cover the wages of staff. So, you end up losing money instead of getting some. Hope you guys can fix it. Ill leave it at 3 stars till you do.	3	62
239	It's fun for awhile but when you get to the later levels everything is so expensive (TV for a room costs \$30k) and there's nothing to do to pass the time and make more money. Plus you gotta watch an ad for any kind of boost, even if it's for a measly \$1k that doesn't get you anything anyway. Plus they purposely set the hours to all add ons to keep you from making more money delaying the game. Why have a bar that opens at 9am, then closes at 4:30?	2	61
240	Really enjoyed this game much more strategic than other idle games however it would be nice to have more than 2 hotels and when I got the 2nd hotel the main manager says the income from my first hotel might help me in the 2nd one yet not sure how. Lastly in latest update there was a bug which the guests went to the ski and spa when closed and got angry but sure it's a minor bug. Other than that cant wait for more hotels	4	61
241	The event is incredibly obnoxious. When there is an event the popup takes up half of the UI and you cannot get rid of it whatsoever. Terrible design. I started to dread whenever an event begins.	1	61
242	My apologies, I ended up buying the no ads and am currently working on the last 2 hotels. The Imperato has some glitches, it only had 2 goals to complete and I don't always get my doubled profits. I'm currently at 4 stars on that hotel. Can we talk decor...The Codi Resort, to be 100% honest, is ugly and needs a redo of wall and floor colors, sorry but all the other hotels are colorful __ That has no bearing on my star review. When will new hotels be coming?	4	61
243	This is by far my favorite game. I'm glad you can reset and start over with the purchases remaining.	5	61

244	Pretty fun game really. I mean, in the beginning. The first hotel is small, easy to upgrade, and has the best Bar TV seen in the game. Too bad you never see it again.... I paid to remove the filthy ads, so upgrading is faster but if you like ads you can complete the game without spending a dime. Graphics were good and the object design also a highlight. But the level design and pathfinding in the bigger hotels ... "needs work" would be a nice way to say it. Overall, a 3. Needs Improvement.	3	60
245	Fun game. I've only had it a couple of days but I'm really enjoying it. I do wish you could transfer funds between hotels with a premium exchange rate or something (like AdCap) to add a bit more oomph to higher levels. Also, the "events" are terrible. There is next to no actual reward for participating. What the heck is with the 2 hour max idle collecting time?! On top of that, the "boosters" only work for that one specific limited time event. Disgusting money grab, if you ask me.	2	60
246	In the beginning the game was great, however since the "upgrade" things have been horrible. I click on the important guest and the ad won't play so that I can collect, its constantly buffering when I'm trying to obtain double my profits, then today it said I made \$22k while I was sleep and when I tried to double my profits it didn't give me any of my money I made at all. Getting ready to delete if things don't change.	2	60
247	This is a great game. The adds are well placed. Want to skip night? Just watch an add. Want some more money? Just watch an add. The adds are optional. It doesnt hit you over the head with it. It just displays an icon saying "im here". Well done. The game play is engaging. Its a well made tycoon. I havent finished the game but for now well done. Im enjoying the game.	5	60
248	Unplayable game unless you are willing to watch 30-40 ads per day. Revenue generation is extremely slow, basically forcing you to either keep watching ads or spending real money. You can't even wait it out cuz revenue only gets generated for 2 hours if the app is closed, if you want it to be generated, guess what, you gotta pay. There are multiple hotels, but you can't use the revenue generated from one hotel to upgrade the other, means if you fully upgrade a hotel, it's BasicallyUselessToTheApp	1	60
249	I would've liked it but when i exit it and came back,some of the things are gone and it did not refund the money and gems,also the parking lot that i bought.So i decided to delete it and install it again(bc i thought that it would have a new game)but when i opened it, the previous game continued, so now i just spent my GEMS FOR NOTHING. also the ads that i watched didn't give me money even though it is said that it would give me money___.If there's ever 0 STAR RATINGS i would've been rated it.	1	60
250	This game is fantastically well done! It has a perfect blend of playability and idleness to it. Great user interface and easy to pick up, great attention to detail and art work, and the economy in the game is superb! Only thing I had a problem with was that the app slows down SIGNIFICANTLY when the bigger hotels have about half the rooms built and upgraded. Specifically when upgrading rooms, you can tap the button but the app will take up to 30 seconds to finally show that it upgraded.	5	59
251	The game is good to start off with but the more Hotels you open it's just the same thing over and over starting from scratch and you need to pay to get rid of the annoying adds, which is fine it's cheap. Suggestions, be able to transfer money from each Hotel or just one Hotel and instead of stars to open the next Hotel they should be brought to make it more interesting. In a nut shell very repeative.	3	59
252	It's a cool game, slow progress but that's better than really fast progress like in many tycoon games. You have to fix some bugs though. I lost my cheffs two times for no reason, and when I watch ads I don't get what was promised to me. I watched many ads and nooother. Please fix that. Edit: more bugs. I watched the add for double profits earned in two hours and I did not get the money. This happened two times until now.	2	59
253	The sensation of being a hotel manager is there. But the strong promotion to watch ads is there. You can't progress much if you don't watch ads or pay real money, unless you can play for hours while focusing your attention in-game. There are bugs on the waiting in-line at the front desk where the second to front always finish the queue first than the one in front of the line. The usage of the facilities are only numbered and fixed on time, so it makes the game less simulator-like. Improve the AI	2	59
254	I love this game but there's no more hotels? I paid to remove ads but every hotel is the same & the only thing that changes is the price of upgrading items! I'm a bit irritated, it seems very lazy & I regret paying 12e to remove ads. It is impossible to complete an event as the game forces you to spend more money to earn extra stuff for your hotel, which ends at 25 stars!? Don't know what I paid for. Add an "Upgrade all" button because it's just tedious & boring upgrading every room	5	59

255	First off, I want to go by saying that the gameplay if this game is phenomenal. The player upgrades the rooms inside the hotel and the then the hotel itself. Unfortunately, this is where I have to stop. They have this guy come out every 1-2 minutes to give you money for your hotel. Good because the revenue stream sucks! This is a mobile game. STOP TRYING TO MILK ME FOR MONEY. The game designers are apparently a bunch of bloodsuckers.	1	59
256	Edit: newest update doesn't double profits when entering the hotel after closing. Original: It's a pretty good looking and decent game. My biggest issue is that there just isn't enough of it. Once you get towards the end of each hotel, the money speeds on in making it easy to cap off those last rooms.. Once the hotels are completed, that's it. They just keep running and earning money you can't use. I'm done with all 4 hotels, and now the game is just taking up space in my phone.	4	58
257	So far it was a good game,managing a hotel and balancing the finance but its hard to collect money at some point that we need to rely more on watching ads in order to get enough money . Sometimes after watching an ads the app went crash with black screen . Please fix this , no one wants to waste a couple of minutes watching an ads then ended up crashing the game without receiving any rewards.	3	58
258	Extremely well designed and ceeps you busy all the time really good game, 5/5 __. 1 thing I'd change is in (stats) at the _ (services) make it a bit more clear why you have losses in whatever department (as in the "Front Desk", "House creeping" extra...) so that it can be easy to spot and change it if needed. Other than that no problems so far.	5	58
259	A fun game to play, but without the in-game revenue provided by watching ads, it would be near impossible to move the game along. Not only that, but there is a time limit (2 hours) to how long the game will run AFK, a problem only solved by paying nearly \$11 to increase the limit to 10 hours. The game is fairly addictive, but there are far too many annoying cash grabs to warrant a good rating.	2	58
260	I would absolutely love to be able to recommend this game, I played it for about a week straight maybe two. And I can no longer progress due to a pay wall. It's impossible to get 5 star hotels without spending those gems, and you can ONLY get them by doing the LIMITED tasks or by buying them with real money. The game is awesome, I love everything about it, but I just can't progress cuz I can't get the required "star ratings" to unlock the next hotel after the snow resort.	2	58
261	Fix your damn game. You watch a video to double Profits, only to have it disapear. When I go to watch videos to make money, the video starts then disapears too. It is impossible to play the event without the videos. Those are two glitches need to be fixed. If things just randomly disapear, why would I consider actually buying something with my hard earned REAL-WORLD money? I like the game but that is a real breaker. Please don't give me a generic response. Just fix it.	1	58
262	Paid the upgrades for no adverts, got a new phone, all my purchases are gone, what a waste of money	1	58
263	I love the idea and the game but I completely agree that the events are not only pointless but impossible to complete even if you buy things for it. The amount of money it asked you to make in the amount of time is ridiculous. Though I love almost everything else about the game I do not like that you only receive 2 hour max on ads for times 2 and hotel open offline. I have to watch 12 ads for 2 hours of time? The ad to game ratio is way off. Lastly, Can you make the zoom wider?	3	57
264	The game looks great and it's very well animated. My problem is that you basically play the game by watching ads. You earn instant cash just watching ads. Majority of the early upgrades you can do to your hotel about 80 percent of that money is from you watching ads and through playing the game. If you don't watch ads progression is very slow. The ads also error sometimes and doesn't give you gold.	2	57
265	Great little game, although we should be able to buy extra cash using gems. The hotel takes such a long time to make enough money to do much more then upgrade. Their super market game is awesome. I paid for both to remove the ads and def well worth it, you get your rewards fast instead of watching videos. But please make a change so we can buy money with the gems or even earn more money from customers in the hotel. Like it a lot but its too long. THERE EMAIL DOESNT WORK. DO NOT PAY ANY MONEY.	1	57
266	Love the game! Though I feel it needs more to do with the hotels. Currently once they're completed, there's nothing more to do with them (unless I have missed something). So they just make an infinite amount of money with nothing to spend it on. Perhaps there could be an option to add more floors to your hotels and thus add more rooms to make more money and spend said money! This would also make the 500% customer increase more viable. :)	4	56

267	This game was great until it started to freeze, you can't get the profit x2 reward the ads freeze. Sometimes it will tell you it gave you your profits but it doesn't. Now this game is a waste of time! PLEASE FIX THIS!!!! 2months later still don't get the double profits! We are in Oct and it still hasn't been fixed, throughly annoying. Sucks cos I like this game	3	56
268	I love the game i just wish the money you make from the other hotels rolls over and you can use it to upgrade your current one. Its doesnt make much sense for there to be a time thing on the others that the hotels close after 2 hours if the money doesnt roll over. I also wish yall would add more hotels to the game. I have beaten the game entirely and cant pogress anymore.	5	56
269	The best part is I've manually calculated my profits and expenses. When the app is offline still the business goes on and the profits are credited in your balance. I still recommend developers adding some more realistic features such as conditions when the business is hard to run it will make it more enjoyable!!!	5	56
270	Love all the codi games! Playing through hotel lately, though, I have noticed that the music is pretty loud compared to the sound effects. It would be awesome if we could have sliders for the 2 sets of sounds, rather than just on or off! I enjoy the music but I think it would be far more enjoyable if i could have it be more like background noise to the sound effects.	5	55
271	After playing the game through, I've really enjoyed, i did spend irl money to advance easier but it's not necessary with the ad based items available. The only reason I haven't changednto 5 stars is that I've finished and there doesn't seem to be a way to reset the game to do it again, without wiping purchases (unless I've missed something which is probably the case). Also devs, any chance of more hotels being added? __	4	55
272	Overall, the game is good and the game play is smooth. I did note that the front desk sometimes stand backwards and a few times the services weren't there before the guests, but overall good game. Read in another review that there weren't anymore hotels after the last one and noted that there wasn't a "prestige " option either. Just thoughts for a future update.	4	55
273	okay here is the thing, after finishing one hotel then what? what will the money be used for? I need a feature where you can transfer the money from one hotel to another. Maybe you can add tax feature for each tansfer so it will be another challenge for us. But really, starting from the start again for other hotels. and everything is 10times difficult? Hmm sure but at least add the feature i asked you: to transfer money from one hotel to another. I watched ads but sometimes its not helping.	3	55
274	It's fun in the beginning, once you reach 5 star level that hotel is as good as junk, cause you can't use that money for any other hotel so it keeps getting accumulated. Basically the developer wants you to spend insane amount of money to keep adding my stars from the scratch for every new hotel. It will be fun for a couple of days and then you'll exit & delete this app.	1	55
275	I give it 4. The biggest isshue wasn't the adds themselves, I didn't mind watching them, but they never worked and kept crashing the game. The dog is worth it, only if you can't stand that. If there were more hotels, I would play for the event managers.... However, I would LOVE to see some more hotels! Japanese traditional inn (I would LOVE!), Russian hotel, a hotel with igloos, Indian hotel, Australian outback hotel, Mexican hotel, a cruse ship! This game has a lot of potential!	4	55
276	Played this game last 3 days nonstop and loving it. Only issue is blue crystal, where we get 4 double bedrooms, but when you go offline for a few minutes, it's always stuck at '2 rooms left' which is odd. The first two resorts were perfect. Its a slow pace game and makes you work, but its so satisfying when finishing. Hope you guys have more planned! I'm almost done with blue crystal! _____	4	54
277	Fun game, but there's just not enough currency in the game. It's nearly entirely ad based revenue. Each room only pays a tiny amount per hour, so you pretty much have to watch the VIP ads if you want to get anywhere fast. The game is fun, it's just really hard to play without constantly accepting the ads.	2	54
278	Game is fun, but not enough updates. There are to few hotels. You go through them and build them way to fast. The event is the same hotel over and over and over. If we could get more frequent updates for quality of life that would be great to. A buy max option would be real nice, I would even settle for a buy 5 at this point. Also there is not much of a difference in looks between hotels. A large variety of decor that fits the hotel would be nice. Instead it's the same bed and decor.	2	54

279	I like it very much! It really feels like I'm running a hotel and the animations are great and the game style is great. The only 2 things I would really want to improve the game is 1, when you look at stats and it tells you that you are losing money and in the negatives I think you could have the option to know why you're losing money. 2, I wish that the amount of money it takes to upgrade the generator was a bit lower, 16,000 dollars is a bit much for a beginner that's running out of power	4	53
280	Great concept for a game! Unfortunately you spend all your time watching ads and many of the ads crash or you don't receive the reward after watching. Each hotel gets more expensive to build the same things as well as having extras.....a level is fun once you start making enough money to keep building but for the last few hotels it takes days of checking in every 2 hours to get it started. Also, many problems with customer AI.	2	53
281	The game is a lot of fun, typical free-to-play money-grubbing antics. Too many pop ups asking you to pay real money for things, considering it's a FTP. My biggest qualm with it is that the dancing money man is broken. He works the first time, then after that he doesn't give a reward and keeps perpetually dancing until I restart the app. If/when they fix dancing man, I'll add another star.	3	53
282	One of the suites shows the safe at a level 3 when the others are level 4 and is saying the room is 100% upgraded. Not sure how this can be when it's not. when you upgrade the restaurant to the max and have it running as fast as you can, it still doesn't allow for all the people to eat food. Half of them turn away because there isn't enough people being able to sit down and queue so you lose out on revenue. Can this be rectified at all?	3	53
283	fun game. but doesn't make sense why I can't zoom out. sucks I've gotten to the end of the game and it doesn't seem there will be anymore. and the hotel events are always the same hotel. great concept with a little more work this would be an amazing game. beat every level. it takes a little bit of time. but i can't keep playing the same event over and over we need new hotels. Months later and still waiting on a new hotel. About to uninstall this game.	1	53
284	Hi! Great game and all, I love the graphics, but once a hotel is finished, the money from that hotel just sits there while other hotels could really be using that. I wish there was a button you could send money ever so often like every 24 hours you can send however much you want to which ever hotel. But other than that it's cool	4	53
285	I love this game!!! You can buy different things for the people and more rooms! And I love how the things are cheap and money is easy to earn. And i also love the boss! This is on my top 3 list of games. Thank you for creating such a great game! I only have one question about this game. When the people leave the hotel, where are they going? Do they go home? And i also like the animations they have. That's all.	5	53
286	This is a nice game but not very logical. The only way to play the game is to watch an insane number of ads (basically the entire point of the game is to upgrade your hotel- you must watch videos to get money to upgrade). I quit the game when I realized that money can not be shared between hotels (which makes earning money on a fully upgraded hotel pointless) not to mention the new hotels are twice as expensive. I wrote support & heard nothing. Glad I realized this before spending real money.	3	52
287	I actually enjoy the game but it has too many issues. Firstly it's an idle game but has a 2 hour limit. Secondly, even when I have a strong network connection, I can't watch ads even though I was watching them 5 secs ago. Thirdly, setting up your hotel without any outside force is impossible. With all these issues, it makes the difficult and lack luster.	3	52
288	Love this game! The only downside is that after playing for a while I no longer get ads from the dancing man to get money rewards. So I have to uninstall and reinstall the game to get this feature back and then it disappears again and I have to repeat the process. Super annoying when I love playing this game so much!	3	52
289	Reeeeeeeally needs new levels and it's been way more than a year since any substantial content updated. It's not even worth coming back to the app for special events because you physically cannot obtain a measly 1 star without spending a great deal of your day watching ad after ad to get any sort of cashflow. If I wanted to watch ads all the time, I'd put the TV onto QVC.	1	52
290	I'm not sure how this game has good reviews. You make no money while the game isn't running - the only way to make enough is to watch ads. Basically a pay to play game (costs \$10.99 just to have the game function when the app isn't running). Total scam, don't download. Other reviews must be fakes. Waste of time.	1	52

291	Game is super fun and addicting. I find myself going back into it repeatedly to see the progress. However, random times when I touch the investment guy when he arrives, I touch to play video and video plays but then I don't get the money. It glitches, like it never happened. So I watched a preview for something, for nothing, frustrating.	4	51
292	This game has several great things about it. First I would like to say that for an idle type game, i actually had to pay attention to what i was upgrading or buying at first. there were a few times where I ended up negative in my income... until i fired everyone, lol. Secondly, I am really enjoying the way things change as they upgrade. Thirdly, moving on to the next hotel didn't mean a complete restart. Overall, a great idle game that requires some forethought!!!	5	51
293	It's fun and relaxing. If you're playing this without paying any money, then it probably has too many ads. I went ahead and got the \$10.99 ad free option and it's definitely a lot more enjoyable. I love the simplistic art style and upgrading things feels satisfying, keeping the game feeling fresh. Can't wait to advance further _	5	51
294	I love Simulators. This one is a bit challenging. If you hate ads, this is not a game for you because it will be hard to advance fast if you don't watch ads. It's a 2 Star for me, I don't mind watching A LOT of Ads, but there have been MULTIPLE TIMES the reward was not given to me after watching the Ad and it bothers me a lot!! Specially the rewards with high amounts.	2	51
295	I don't normally write reviews, and I do like your games as a way to pass the time, but the best way I can describe the latest Santa's shelter level is lazy. The core of the level is just a blatant copy of the first, despite there being so much scope for a christmas themed level. I really hope this isn't a sign of things to come. Edit - next level was better but now been waiting weeks for a new level, despite two updates.	2	51
296	I really enjoyed this game but after paying for the full upgrades, I'm a little disappointed that the game was quite short and does not seem to be receiving any further level updates. There also needs to be an option to do a max upgrade by item or even rooms, particularly as the game slows down so much when the levels get larger.	3	51
297	So i deleted my first review posted 3/4th april 2021 to do another one.Now in may, all main hotels still completed at 5 stars, and STILL no new hotels!!! There is no point me doing special event hotels because what you get given are pointless to me!! I cant progress any further in the game than i am!! The main hotel updates are not coming quick enough!! The last was medieval hotel and that was added last year!! You are focusing on too many codi games at once and new updates are getting slower!	2	51
298	This game is cool. But... I wish the money from other hotels could be used on new hotels. Or that you started out with more money, cause in real life you would if you have multiple hotels. More activity in the game would be great. Each section you cannot really look around. Money for watching ads doesn't always credit. More activity is definitely needed... but cool game other wise.	3	50
299	The game is quite fun. The way ads have been incorporated into it is good, it doesn't force you to watch ads but the benefits are good enough to encourage you to do so. The only annoying thing is being constantly shown the paid features. I wish these were just in a shop or something instead of onscreen at all times. developers are going to be getting money from all the ads, feels a little money grabbing.also the paid upgrades are overpriced for a mobile game.	4	50
300	This is a great tycoon game which I very much enjoy to play, but there is one problem. After you get a hotel to 5 stars you keep getting money, but you can't buy anything there because you all ready bought everything in the hotel and you can't bring it to other locations making the money you make in a 5 star hotel useless. If you could at least bring your money from location to location I would for sure no doubt give this game a five star rating.	4	50
301	I enjoy this game because I loved watching hotel impossible, but I got to a point in the game where I had upgraded everything in my hotel and done everything I could do and I just couldn't get the last star I needed to move on to a new hotel. I'm disappointed because I really like playing this game but I wasn't going to sit in a hotel with nothing else to do with it.	3	50
302	Great Game Goals are actually achievable with decent in play costs for new and upgrades. Money does take a while to accumulate but watching ads and gameplay with benefit this. Each levels difficulty raises but achievable. Keeps you interested in the level and coming back to play. Caught up with the developers and now waiting on the latest level. Actually spent money to skip adds it's that good of a game. I've actually restarted because I got a new phone	5	49

303	This game would be awesome if it wasn't for the fact the ads hardly work anymore. Constantly having to restart the game or my phone just to watch a few at a time. It's a great idle game but if ads don't work then your only option is to pay for it and honestly it's not worth it at that point. If it's not fixed soon might just uninstall and find something else.	2	48
304	The game is very simple and competitive but soon the glory ends. The task for a hotel gets over soon and there is no more upgrade then the next hotel opens up, challenge starts. The already upgraded hotel will give earning a lot but you can't transfer the amount being earned to the new location. We have to start from the scratch in the new location. There could be more challenges and if there is any possibility of transferring the profits would be great.	4	48
305	I like this game very much, it's simple, yet actually fun and satisfying watching your hotel grow. I learned a lot like needing to have enough money to pay the workers by the time they leave or you have to rehire them. The music is calming. I also like that you have a choice to watch ads and actually get something out of it instead of just wasting precious time. Good job, whoever made this should get an A. But again this is my opinion. __	5	48
306	As fun as this game is, it's equal parts frustrating. 1. FIX THE PATHING ISSUE. My guests go to closed amenities constantly! Roaming the halls at 4am. 2. Let me turn off your pop ups for the event. Not interested. Doing to same hotel over and over is BORING! 3. Extremely lazy using the same hotel for Arabian Nights (which was great!) and reusing it for the next one. And no new amenities that weren't used previously. Don't even want to play anymore. I was ready to move on to something new.	3	48
307	Add watching simulator. Literally just opened the game and the only thing I can do is wait for hours or sit there and watch ads while I'm waiting. Plus watching 3 minutes of ads for only an hour of bonus cash is far from worth it, let alone you can only stack that up To 2 hours (about 6 minutes of ads by the way). Don't get me started on how expensive the monetization is. It seems like a fun game that doesn't want me to play it so I won't.	1	48
308	I've noticed that there's another review that describes the same problem I'm going through currently. The game is very fun. However, it requires watching ads to have a normal progress. The thing is that the ads no longer load for me and the "dancing man" no longer shows up either. It's a shame because the game has gotten a lot more boring with this issue. If you could fix this, great! __ If not, I'm afraid eventually I'll no longer feel the urge to play it and might uninstall.	3	47
309	I would give higher stars if the game actually kept my save data when switching devices. I had just gotten a new phone but all my saved data "went out the window." I love the simplistic design, but the constant stream of ads that you essentially need to watch just to make a profit adds to the annoyance factor.	2	47
310	This is a very fun game to play... I am on my second hotel now.. but for some reason the game starts to glitch... Even if I have all rooms occupied, if I close the game and open it again immediately, it shows my two rooms are vacant. It happens every time I close and open the game.. I would very much like to give it 5 stars if you'd solve this issue. I tried emailing you. The mail id mentioned in the developers info doesn't work.	1	47
311	This game is really easy to play and really fun ! The only thing is I wish to turn some sound effects like people going to toilet whish was gross ! I mean we can hear everything! Hope to see that in the future update ! There is a lot of ads in order to play it to get more money! I just buy the option to get it of ads, now it just pure fun .	5	47
312	Prices for items are ridiculously expensive and the game has so many other problems that you just can't enjoy playing it. Don't even bother with the events, if you don't spend money you won't achieve anything. These developers are super greedy and don't care about the players. The game has bugs that forces you to close the app so if you have a VIP campaign running, know that it will expire as soon as you close the game, it's ridiculous..	1	47
313	Fun addictive game... However just like all the other recent reviews, the new update needs to be fixed for the videos!!! Is it just me, or does anyone else have to be connected to wifi in order for the game to connect??? I hate that I can't connect outside of the house. Also why are my maids coming to work not hung over, flat out still drunk??!!! _____	5	47
314	Not sure if this is a bug or something but I downloaded the game and tried to launch it and it seems to be stuck on the first screen before you get to a menu or options or anything. If this isn't a glitch then it's taking more then 5 minutes to get past the first screen before any game play happens and that is a ridiculous amount of time. I'm uninstall this which is annoying because I didn't get to play at all. If this bug is fixed I might redownload but right now I literally can't play it.	1	46

315	Great game, terrible progression. Once you finish the first hotel you get no reward like other tycoon games. It actually gets harder to buy things because you make less money and things are more expensive. Plus my old hotel still makes money that I can do nothing with because I have bought all the upgrades. It should be one account for money instead of separate ones for each hotel.	3	46
316	Great! Absolutely, in love with this game. It's interesting because you don't just constantly profit, you lose money too, which reminds you to always keep everything in balance, or even your staff may resign! Although, sometimes the ads don't work, or I watch a thirty minute ad and I don't get the money. Not frequent, just wanted to mention. Great game.	5	46
317	It's a game that can be fun if you don't mind ads for more money/passing time or mind spending some real money for permanent in-game perks. There's an event every week that is challenging, but doesn't change from week to week, the only thing that changes is the manager you're trying to get. I've enjoyed my time playing, but I wish there was a way to upgrade multiple rooms at once so I'm not just tapping from room to room.	4	46
318	Great game i really enjoy playing, but lately the ads have been not working properly, coming up blank,so you have to come out of game losing the money from dancing King especially the big money,getting a bit annoyed now __ Update getting really annoyed with the ads not playing and losing money, the programmers not doing anything about it and I see I'm not the only one having trouble with this, going to uninstall the game im not getting anyway,its shame its a great game.	4	46
319	I love this game! Got to spend hours "in game" to really get the benefits, but good game for anyone who can stay in game and give is 2 sec every 10 min. Have purchased twice no issues. Only glitch is sometimes your hotel guests glide sideways (on thier bellies) in thier bedrobes instead of walking in thier everyday clothes. Makes for a laughable experience.	5	46
320	The game is fun, I enjoy playing it to kill time. But I think earning gems should be easier and there should be alternate ways to hire the Hotel manager and campaign manager. Ten bucks is steep. Lower your prices, and add more to the grind especially with all the ads you have. Also you need to add more hotels. I've been maxed out already and now I can't play anymore.	3	46
321	I never normally do a review, however, this is a Great game for someone who love these types of games. definitely not pay to play, but it takes a very long time. I have purchased dog adblocker for \$15 AUD and finish the game till very end. I have just finished. will recomend to spend a little as O havr played this game consistently for last 4 months.	5	46
322	Updating my review: I love this game, and I'm enjoying the new challenge of the "Imperator Palace." But the more they add and the bigger the hotels get, the more obvious it is that the little hotel guests simply don't move fast enough - my restaurant is barely open long enough for them to walk to! I'd happily spend gems to speed them up, please!	4	46
323	Great game! Very fun and relaxing.	5	46
324	The game is great, but I have two complaints. The first is that the permanent upgrades cost far too much. In your other games, there were opportunities to earn gems to spend on permanent upgrades instead of real money. My second complaint is once you unlock the second hotel, the manager tells you to keep checking in on your old one to earn money towards the new one. However, money seems to be separate between hotels. Money should be shared.	2	45
325	It is repetitive, it is boring to have on your screen to watch, but it is still just a game to have in your background. It NEEDS more levels. Finished, now what? You should also be able to send money between Hotels. Also, the purchases are VERY expensive. Despite it being boring and repetitive, I still enjoyed it. Please add more levels though.	4	45
326	Great game.. But there seems to be a glitch. Each time I close and reopen the game I end up having only 2 rooms filled up. It's frustrating. __ And would prefer the guest to move faster on the bigger locations because by the time they arrive at the restaurant it's closed. Other than I enjoy it way too much!	4	45
327	PLEASE MAKE SOME MORE HOTELS!! I love this game and I even spend real life money on it because I enjoy how things are achievable. I would like to see some more hotels added such as a jungle, city and maybe some more services added. Maybe family rooms too that could be between a double room and a suite. I have completed all the levels now so any idea of when the next is out? (I don't like that during events you can only complete by buying a pack)	4	45

328	Love the game but hitting a major glitch. On Camelot hotel and was at 6 rooms. Twice have purchased a battery to upgrade power and a 7th and 8th double room and twice it has reverted back to no battery and only 6 double rooms. It feels like groundhog day. Just changed to 1 star. Tried 1 more time. Spent 1,000,000 on bar, 2 new double rooms, room upgrades and exited the game. 5 mins later re entered game everything gone. At least got money back. Still sucks. Major disappointment. PROBLEM SOLVED!	4	45
329	Its okay, the ads are really broken, sometimes if i get on the game and then leave,then come back,my 2x income that i watched ads for goes from 1 hour to 3 minutes,then its gone. Sometimes ads dont pop up at all unless i close the app and come back,most times when i open the app it takes away a bunch of my money that ive been saving up and i have to start all over. If youre going to get the game be ready to be set back often	1	45
330	Love this game, and other codigames! However, I have also recently found that my game has become glitchy. No matter how many times I restart the game including my phone, either I can't access any bonuses due to the videos not rendering properly, or the bonus guy doesn't appear at all which is annoying... any advice?	3	45
331	I really love this game.. But i do have an issue with it. Once you get a hotel to 5 stars, you then open a new hotel.. The 5 star hotel is now making a lot of cash, but theres nothing to spend the cash on.. And you cant transfer it to the next hotel...whats the point at that point...theres no more upgrades, no fun decorations etc.	4	45
332	The game is fun and addictive. BUT There are many time where I watch the VDO and I did not get the bonus. Also the housekeeper is very stupid I have two house keeper and 6 room (in the event hotel) the keep taking the long path and walk almost across the entire hotel which took about an hour(in game) So 2 house keeper cannot finish off 6 rooms which they should! (as of now 5 housekeeper can't clean 7 rooms!!!)	3	45
333	Any more hotels? I only downloaded the game a couple of weeks ago, but it looks like I'm on the last hotel. Will there be any more? Events are impossible unless you buy a presidential suites pack, and even then, to get past 2 stars is pretty much undoable. Art work is great, but my little guys move around in a pack andwant to do the same thing at the same time. If you could somehow make it so that room service is available, or the player could alter the timings of the services would be ace	3	45
334	This is a fun, cute game. But I dont like that I have to start all over for every hotel I have. We should be able to take our profit to other hotels with us. What's the point of my seeing my money going up at a hotel I've completed if I cant even spend that money on anything?	3	45
335	Ok so this game is pretty good. It's graphics are pretty good for most games. Big plus. Another plus is you can do just about everything without having to pay. But that means you have to watch a LOT of ads to double money, or pass night. Which is awesome. But omg, I CAN'T STAND MISTPLAY NOW. I got their same ad over 6 times in a roll.	4	44
336	I've really enjoyed the growing complexity of the game, but the increasing level of upgrades and sheer number of rooms to upgrade has become overwhelming. The app force closes repeatedly on me while trying to complete these upgrades. Can we please get some mass upgrade buttons to do a room at once when we have the resources to do so? It's fun to see the different levels of upgrade available the first couple of times through, but this latest hotel with 32 rooms of the same thing is tedious!	4	44
337	Waste of time!!! If you want to watch ads, ads, and then more ads, this is your game of choice. Oh yes, and after you get far enough into the game, the ads stop working!!! So you can't get the money or double profits. WOW, this must have been created by someone incompetent at best! DON'T waste your time, move on!!!	1	44
338	I really love this game but there are some issues that i dislike , first ; at the start of every hotels the things we can do is very less almost nothing to do and our income is very very low ,so we just only wait for investor and watch ads thats all , second issue ; why we cant use our money in previous hotels they are just numbers in old hotels and just useless for what? These issues are the worst for me and i think some of players will feel like me	3	44
339	It's fun but you either pay to win or watch adds to survive. When the guy with money shows up (who I refer to as "my sugar daddy") I'm almost always clicking on him and watching the add, I needed to because for the first 2 hours or so there is no way you can make any profit. For example the kitchen with each chef the daily wage is \$200 but, you are charging \$13 per customer when you have 4 guests who eat 3 times a day you can't afford to pay the chef and have to hire a new one every 10 minutes.	2	44

340	Love the game. This is great. Excellent. It does not force u to watch ads till you dont want rewards.. Its a great experience. But the only thing i dont like is the profits earned in a hotel cant be used in other hotels... Thats the only thing I dislike about it. Otherwise its a great relaxing game. Not only this but all other tycoons of codigames are really cool.	5	44
341	This by far is the BEST HOTEL GAME! Fun and Simple. Yes there may be ads, but it really helps because in exchange for watching the ads, you'll get money for upgrading your hotel. Try it!	5	44
342	Lots of ads. Long and short, forced and voluntary. The first hour I hardly encountered any, now I have to watch one just to load the game. Strike 1. Progress starts quickly then goes to a snail's pace soon after. I can't collect offline rewards unless I force close the app before leaving. Strike 2. Lots of their games have a great visual representation of your growth that's fun to watch. I don't get that feeling here. It just stacks stuff on screen, leaving a cluttered feeling. Strike 3.	2	43
343	Great time waster. I bought the no ads upgrade. Totally worth it, except now I've 5 starred every hotel and there's nothing left to do. To my point I currently have \$50 million in the highest level hotel, but there's nothing new to spend on. I have effectively finished this game, and spent \$11 I can longer enjoy at all. More stars when this game doesn't end, like it has for me. Also, think about adding the ability to max out an item if I have enough money to do so, so there's less button mashing.	2	43
344	Unplayable game unless you are willing to watch ads consistently. Game honestly needs to be reviewed separately for the paid and unpaid versions. I highly recommend the ad-free version and would rate it 5 stars with the exception of the event in-game purchase offers. Like many other reviewers have said, the game is almost unplayable if you do not pay for the ad-free version. Revenue generation is extremely slow, which means that in order to progress, you must watch ads or spend real money. I have no issue spending money to support free games I enjoy playing. I purchased the ad-free version and enjoy playing it. There are in-game event hotels which are limited time. There is an option to buy a package for \$11 that includes different perks including a VIP manager and hotel upgrades. The wording the developers use to promote the in-game purchase lead the player to believe the package will allow you to keep managing the hotel and continue to have access to the manager after the event period. Because why would anyone pay \$11 for in-game perks that only last for 12 hours? The game does not explain the events and the associated purchases. The details are under options in the support tab which I only noticed after I realized I had paid \$11 for nothing. As a new player, I wish I would've known that the in-game purchase would be only usable during the duration of the event. I feel that the developers have made the details and wording of the purchasable offers intentionally unclear.	3	43
345	It's by far,one of the best idle game I played. It's difficult in the first part but as time goes on,it gets more easier and challenging.I think the only minor issue of it is the fact that some guest in the double room don't want to sit together and take up one of the space.It's kinda annoying because the guest get's out of the hotel but the fact that the guest appearance is frequent so its kinda easy.So overall,a great idle game.	5	43
346	If you don't mind watching a lot of ads to get a great game, this game is for you! Love all the cute things you notice if you pay attention (hint: watch the cleaners in the staff room). They still need to fix half the guests leaving when you leave the game though. Love the latest update but we need more levels! After two weeks, I'm almost 5 stars on all levels and I need more __ Great work devs!	5	43
347	Overall so far this game is 'okay'. Simple strategy to earn money, but the developers put the goals too high so you can't earn money quickly. It will take few days to earn some cash unless you are a hard player playing the game all day with your phone on. This is a day 2, and there is a bug i the game where I can't get the reward from the investor from watching the ad...maybe make a better version of the current app?	3	43
348	The whole game is great but the Emperor Palace loses ALL PROFITS, you cant upgrade hardly anything, only have 1 room & the next room is worth \$31,000... i cant even reach 4,000 with 3 member of staff wages all count up to 2,500 a time... i cant just keep continuously playing all day everyday to keep what ive done... all the other hotels havent drained my profits when i start up... also its heavily draining my battery... **uninstalled**	1	43
349	I like and enjoy this game but it has some bugs __ to fix. The problem that I have encountered in this game __ is that the dancing king __ has stopped coming. The 2X income would take forever to come up, that I would have to get out of the game to enhance the 2 X income. The ads for the nightly skip would not come up. So irritating...please fix the bugs __.	3	42

350	A very cute game! And the most important thing - the ads are optional !!!!!!! You can always get money watching the Dancing King's ads (very useful by the way) but no need to do it all the time as in most games nowadays. Good graphics, new items in each hotel. Always interesting.	5	42
351	So, I had this game a while back. I really enjoyed it. Then it started getting all "glitchy." I uninstalled it. Missed it and reinstalled it. Now it's in perpetual "loading" mode to see an ad. It's not a real "idle" game either, because when I leave the game, the hotel stops working. I'm about to uninstall, again. Fix this, please!	1	42
352	Really nice idle game. Looking forward to new hotels. Please make the event hotels more varied. Like a beach one, or a sports one. Looking forward to see the evolution of the game. Only drawback is I don't see the point of revisiting an hotel I have reached 5 stars for. Any way to improve on that? New upgrades, or so advantage to getting revenues from them to finance another hotel maybe?	4	42
353	This is a surprisingly fun game, but be forewarned. As far as gameplay goes, it's a marathon and not a sprint. It can take days to make headway with revenue and for those wanting fast results, unless you're willing to pay up, you may be disappointed. A few thoughts. First, how about allowing outside guests to use the facilities? Second, what would happen if a hotel had to be created from scratch using revenue from other hotels? Third, if at 5-stars, turn off "!" for the optional suites.	4	42
354	WASTE OF MONEY DO NOT PLAY!!! Game play was nice, however it comes to an end. Once the hotels are done there are no more hotels. I spent money to help with the game, however that just expedited the game being over. Took a few months but again once you complete 35 Stars it's pretty much over. Update or allow players to start over with increased benefits.	1	42
355	The great is fun, perfect for slow build success. Unfortunately, the rich guy does not give you to coins after watching ads. Its inconvenience as you waste 30 seconds, waiting to get sometimes good coins(20k) and when the ad is over your balance is the same. I hope the developers fix this bug. The game itself is great though. :)	4	42
356	One of the few games that you can play without watching ads or paying money. It is up to you to watch ads to get extra money or pay a little bit to have no ads but you still get the benefits. So far the game is entertaining and helps to pass the time. It is very rare I give more than 3 stars so that means this is a great game. Update, only 4 hotels. Now what? More hotels will ad more stars.	2	42
357	I love this game so much. Codigames is the only dev that I trust that can make a really good idle tycoon game. You can really tell that there was effort put into this, unlike the other games out there that are just half-baked. I also really love the movie/pop culture references!	5	42
358	I still really like the game but it's really annoying that I spent money on the permanent 2x money and they turn that off for the non permanent codi resort hotel. If I had known I probably wouldn't have got it. Seems like a waste to me since once I finish all the hotels there's no other reason to have it. Other than that, it was still fun to play. Laggy especially on the last hotel and I think they need to improve all the AI but I'm sure that's because I have an Android phone.	3	41
359	Can you please reduce the price for premium to \$7.50? I will buy it then. At the moment it is to expensive. Also, sometimes when I want to watch an ad to get double income the ad button won't show, there is just the loading "wheel" going in circles. I had to reinstall the app one time to fix it, but now it happens again. Please fix this issue.	1	41
360	I enjoyed the game at the start and paid to remove the ads, but has become very repetitive. I even paid for an upgrade during an "event", which happen every few days. Won't buy any more as this has become a moneymaking exercise. Also there are limited hotels. I am now on the last hotel, and taken only 3 days to complete. TBH a little bit disappointed when I consider I have been playing another game for 3 years and it is still going. I will be uninstalling when finished last hotel.	3	41
361	I had to take back as many stars as I could because I am deeply disappointed with the developers. I purchased the package available during the events that was a hefty 17 euros for me, and they give the upgrades only for this one event that lasts for four days. They dont give you a permanent upgrade. Support answers to complaints, for example with ingame diamonds purchased VIP decoration that is not working properly, nothing was changed. I do not want to play this anymore. Deleted all your games.	1	41

362	Really loving this game, it is one of the first phone apps ive spent money on(removed ads dog). Only complaint ive had while playing is that the AI of the customers needs work, their stupidity limits the money I make when playing actively due to their wasting of time by walking back and forth to closed places, which is only made up by the dancing king(sometimes). It's a major issue, but is pretty good otherwise. Will update this review over time.	3	41
363	the game is really great, no pressure just pure fun. I used to have no problem with it but now I do. I don't know why but the app keeps on crashing, I've uninstalled it then reinstall again but the same problem still occurs. The other games I have on my phone are working well. Do you have any suggestions to what should I do? Because I seriously don't want to permanently uninstall this app.	4	41
364	This game sucks, it has videos to help add money to your wallet,while you wait. This money is given by watching ads. Sad part, it only works 20% of the time. Sometimes it gives a nice reward, majority of the time it doesnt work. It will start the ads then, they will disappear and you wont get rewarded. Sometimes they freeze then you have to restart the game. My other games dont freeze up at all even during the ads. I believe this is just to cheat you out of money and upgrades!	1	40
365	Fun game. I've completed all the hotels, so that speaks for itself. I'm keeping the app too just in case you add more hotels. My only critiques is that it could use more of a storyline. Maybe obstacles to overcome? And, as someone else stated, I don't know why you can revisit past hotels if they can't do anything to help with the current island. But still, you shouldn't lose stars for that. They are just suggestions. Good going guys!	5	40
366	Worst game, why? 1) A lot of bugs, example you won't get the rewards sometimes after watching add. 2) This brings to my second point, that it just a game with add baits and high prices to buy add free. 3) They have a feature that you can start with a special even and a new manager/influencer can be earned, but they throw an impossible task that can only be accomplished by spending money. Basically they try to force you spend money to progress in the game	1	40
367	A really nicely made idle game - the pace is more realistic than many others I have played, the guest movements are a nice touch and there is a genuine balance between income and expenses. One suggestion I have is to dim the lights in any unsold/unoccupied rooms so that its easier to spot at a glance once check-in has ended which have failed to sell.	5	40
368	I love this game...but the Codi Resort Hotel way of earning managers to continue the game even when I am offline is bad. They don't give us money enpugh for making upgrades for earning money...and all are to be bought with money. At least let us use our money from the old fully upgraded hotel. We have huge stacks there and would be helpful if we could use our money from other hotels to upgrade in the Codi Resort Hotel.	4	40
369	The game is almost exactly what I want from this genre. Worth the price for Ad-free. Ads are all optional, but you progress much faster not having to watch them. Upgrade system is on point. Reason for 4 stars is because there is no system for utilizing hotel profits from a hotel you have fully upgraded. There is no incentive to bother with already upgraded hotels because you can't use any of the money, anyway. If this changes, it will get the 5th star.	4	39
370	I really love this game. It's super addicting and not to hard to progress in. It's good to play during some downtime. However, I think that the money you make should be transferrable or shared between hotels. It sucks that I don't have enough money for the hotel I'm working on, but the hotels I've already maxed out just have money sitting there that I can't use. I think having a transfer system would greatly improved the game.	4	39
371	I like this game, I enjoy the simplicity of the game design but it gets boring after a while. What could improve the game is adding in a challenge component. Right now with enough time you can beat each level and fully update each hotel. It would make for a more interesting play if their where challenges with each hotel you had to overcome to complete the hotel renovations.	3	39
372	The game was great to start off with. There was a consistency in new hotels to work though. With the update to the event hotels, it seems like the amount of new non event hotels has lessened, and the event hotels are difficult to pass. With the first one I purchased the presidential pack, and still didn't complete the set by the end of the 3 days. When I didn't purchase a set, I barely made a dent. I don't really bother with the event hotels because of this.	3	39

373	After the latest update my video's have not been loading so I can watch and get more money. Also same with the investors. I uninstalled and reinstalled and it started working again for a day but it's not working again. It was working just fine before this last update. Please fix! Otherwise love the game. I will give 4 stars when fixed! Thanks	1	39
374	It's a fun game, I can easily waste a few hours playing this, but there is one thing that is annoying enough to lose the game two whole stars. No matter how many cleaning ladies I have or how few rooms, at least one room will not be cleaned and then I get a chance at the end of the day (after losing an entire day of profits from that room) to clean it by watching an ad. I have four cleaning ladies and only three rooms, but then two of them will just do nothing all day. Really annoying.	3	39
375	Best game by CodiGames but whenever I want to get extra cash from the Dancing King or ask for more customers, I mostly watch video ads but there are always annoying news ads that make me wait for a minute for my rewards and have to press "Next >" every 20 seconds which is inconvenient on its own. I promise, I don't look at news and even reset my ad ID to stop these occurrences. I hope this review helps the game get rid of these inconvenient ads and make the game convenient as possible for new players.	4	39
376	Pretty much all the hotels look the same, same stuff, not much of a difference in design, just standard cleaning staff room, rooms, restaurant, and that's kinda it. Needs more diversity in new hotels	3	39
377	The concept of the game is great, it doesn't go too fast and the goals aren't unreasonable, however, I've been having trouble getting the ads to play in order to get the bonuses. Either the ad button won't load, or when I click the button it skips the ad and I lose the bonus. Also, the inability to continue upgrading or maintaining a hotel after it reaches 5 stars is annoying. Once you're done with it, you're done.	3	38
378	This game is 100% ad based if you want to keep it on the free version, which is perfectly fine by me! You have the option to pay to get rid of the ads and keep the rewards, if you choose. The cons are - 1. Sometimes a video won't play when you're expecting a reward, so no reward. 2. When you have a full hotel, if you close the app or switch to another hotel and go back, you somehow lost half of your customers. 3. No transferring funds to/from hotels. Other than that, it's a very addictive game!	3	38
379	I paid to remove the ads. But if you don't want to watch the ads you don't have to. It's addictive. Hope update to the next hotel comes soon. If can utilise the completed hotels it would be better. The best part of this game is it handles split screen mode seamlessly in both landscape and portrait. Play game and chat in WhatsApp very easily.	5	38
380	The actual game play is fun but there is way too many adds. Half the time I watch an add from dancing guy I don't even receive the reward. I do love this game but I'll be uninstalling for now until she if these problems have been fixed. And as others have stated, it's completely impossible to achieve anything in the events without spending money weekly on items that should be permanent like every other game similar to this one.	2	38
381	Enjoyable and addictive! But rated it 4 because the game is so easy, especially when you watch ads. There's no challenge, just upgrade the hotel and generate profits. Once your hotel is 5 stars making tons of money, there's nothing left to buy so money adds up for nothing. However when you buy a new hotel your money starts from zero again. It'd be nice if I could use the money I'm making from my old hotel to put into my new one. Also please let the background music change too for each hotel.	4	38
382	I liked the game, you can finish the game without spending real money but a little frustrating when it comes to game events... The goal is absurd cannot even hit 1 star (15 Million income), but it's okay I can enjoy without participating in the game event. I hope the developer will make changes on their game events someday or add new features or something other than that I will finish the game. Just my opinion.	3	38
383	Please help!!!! I purchased many expansions, and those have been restored, but my game data is completely wiped out!!!! I was almost done with Camelot. I only had to finish upgrading the rooms. I even had all the services and amenities. Please help. I've sunken hours and hours into this game and a decent amount of money.	3	38
384	It's a great and fun game but my only issue is... if only there was some way to use the money in one hotel to upgrade the other... I am at the second one and I barely go to the first one cause I'm at 4 stars and have a lot of money nothing else to update but getting money in the second is quite difficult...	4	38

385	Originally gave this game 1 *. I even spent money buying some features. Over the past year they introduced events... and offer a special pay package for the event at \$10.99. Given these events last 4 days, run about one per week based on what I have seen, and you have to buy a new package every event, this means a cost of over\$500 a year to be able to compete. Further, i bought a package that updated my open time to 10 hours, cost me approx \$10, does not work with event.	1	38
386	The game in itself is nice. But lot of bugs. After playing the advert also the reward is not credited or the game just restarts after playing the ad. Secondly what kind of tycoon game is this, if you cannot use the money earned from one hotel to another.	3	38
387	I loved hotel empire tycoon but from some reason the important patron didn't let me watch the video to earn money twice !! It was unfair ! Really! Daughter, of karelyn .	3	38
388	Totally worth it to pay for no ads. I only wish that when you pay to play that there would be an upgrade all button. When you generate enough money to be able to upgrade a room in full it is kind of boring to have to keep just tapping each object multipule times... Please make an upgrade all option because like it is worth it to pay it will also be worth it to upgrade all and not spend an hour upgrading when you know you have the money to get it done already. My only suggestion... 5 stars __	5	37
389	Sure, it's a great tycoon, more elements than usual but this is getting ridiculous. I bought stuff from previous games you've made but now all you're doing is making a "new" game every 6 months and forgetting about the older ones. SO MANY ADS. So expensive to remove ads. Difficult to play without watching ads. If you continue this I'll just end up 1 starring every game I've previously reviewed. This is getting silly.	3	37
390	Ads don't appear automatically after some time and you have to reinstall to continue them. Not much option for gameplays since upgrades are too expensive. You have to spend a insane amount of time to watch videos. But, it has good graphics and good game designs. Not monotonous except that ad watching part.	3	37
391	Game concept is good enough to play for fun. It's a mix of Tycoon and idle clicker style game. However, there are so many bugs that need to be fixed. 1. Reward ads are not working properly, sometimes I play an ad but not got the reward. 2. When game is closed , when reopening every time 3 rooms are vacant. No matter how much time I got offline. Either 1 min or 1 hour the result is same and thats really frustrating. 3. What is the use of the money earned at previous hotel ? Nothing!!!	3	37
392	I would definitely give this game 5 stars if it weren't for these bugs, for example: I've had many times when customers didn't come, no cars, nothing; It also happened that I entered the game after 2 hours and the cooks magically disappeared, and I don't know why. I didn't have any problems at first, but then the game started to feel a little pointless. It's nice if they fix the bugs of the game.	3	37
393	There's a lot to like about this game but at the moment there are few things that need to be fixed. The money boost ads sometimes don't load up, which prevents the boost from being gained and when that happens the customers will sometimes act differently as well. For instance, a customer got angry for not getting breakfast and spent the next two days in one spot in the room mad. Also the front desk clerks don't leave even though their shift ends at 12am. Small bugs, but still an enjoyable game.	3	37
394	I've been playing this game for about two months now and still enjoying it. Easy to grasp gameplay. Fun themed hotels to manage. The only problem is that some ads force the game to close without giving rewards.	4	37
395	I payed for the no ads thing. I do love it but I've almost beat every level in the game. I continue to throw a few bucks at it here and there, I was just wondering and hoping there would be a few new levels in the future. This is the best time killer I've found on my phone, I'd hate to complete it with nothing else to do. Please make a few more levels, and props to the developers for making a simple game super fun.	5	36
396	Heavy ad based. Your screen is sandwiched between push icons for you to buy. If you don't buy, you can always sit through many ads to get some double profit, etc. However, the ads only let you play one, then the next ad will load forever until you exit and restart the entire game. Very annoying. I've cleared cache, searched their help section, and changed to 4 different wifi and get the same frustrating result.	2	36
397	This is a really fun app, reminds me of a mix between a Sims game, and Dinner Dash. The things you can do are fun and numerous. You can watch ads to get currency and customers, or you can purchase premium items to give you the benefit the ads give you, which is really cool. I'm glad to see the options. Gameplay overall is just fantastic. The game is fast paced enough to keep things fun. Give this one a go, and buy the devs a cup of coffee if you can afford it.	5	36

398	Great game. Art style is good, gameplay if interesting, and overall a good time killer. But its kinda p2w. At the start, your gain is like 10.5 something in your rooms, and then the upgrades are like 300, 500. You must watch a lot of ads to get bonus cash. Tips are quite low. And you can easily get bankrupt. But when you get the hang of it, you can get everything right. So overall, good time killer, but grinding is so slow	4	36
399	__I love this Game!. But it is too expensive to play without ads. Have to watch as many ad videos as possible to establish the hotel. Otherwise, Good to play. Many things to improve in this game such as different music for each hotel, And to make the game more realistic by setting the wage manually, choosing decorations and room checkin check out...etc. Thank you	4	36
400	This game has kept me engaged for about 2 years now. I love it, but the hotel guests are the dumbest hotel guests I've ever seen. It takes them 30 mins to get to the restaurant, they get there 2 mins before it opens, and instead of just waiting, they walk away. They walk around looking for fun at 2am. Or they all rock up at a public space at one time and there are too many of them so some are turned away. Sometimes I lose a lot of income from this and it's very annoying.	4	36
401	Good game, I love it. But I only give it 3 stars due to profits way too low and expenses way too high. So I have to depend on the ads to get money. And the problem is now that ads won't load either. Ads gives you guys money, why would you make it playable in a limited times if you want to earn profits as well?	3	36
402	Great game! I have but one complaint: How about 20 or 30 minutes for watching ads to get the 2x bonus? I know, revenue. But it would be nice to enjoy the game without literally 10 minutes worth of ads before I can enjoy the extra scraps 2x money gets me. Please consider my suggestion. Thanks you.	5	36
403	Its fun. But if you are away for a while and come back, they offer double your earnings by watching a video. I have done this multiple times and ever time, they don't add double to my balance. :(they should fix this. I watch a billion ads already to get anywhere in this game. It doesn't deserve anything more than a one star at this point.	1	36
404	Without the ad problem and issues with occupancy dropping to half every time you log out the game it would be an easy 5 stars. Even with the gameplay issues, I would have given it 3 stars. But to see many people on here express their issues here for weeks, and to see the developers give bad excuses and say they'll look into it with nothing changing is my reason for giving it 1 star.	1	36
405	GREAT GAME!!!!!! This is more of a suggestion than anything. Was just thinking how it would be nice to have more of an opportunity to many extra money in the game. i.e. let's say all your rooms are booked and the new walk-in guests are denied because there are no vacant rooms. Instead of leaving they would visiting one of our services room restaurant, bar Etc..And than this way here you still can possibly make extra money from randomly choosen denied guests. Keep up great work! _____	5	36
406	Slow to the point of boredom right off the bat. I dont know if it gets better because I don't want to spend any more time playing. Good luck paying for your employees without watching ads. Upgrades to rooms seem to give only the tiniest uptick to your profit, so you would need to watch ads for several hours to begin to actually make money. Most mobile games start out very fast and slow down, this one is like a brick wall at the start, and I dont care to bash my head against it.	1	36
407	This game is easy and fun to play. It's enough to pass a few hours away with. BUT! And it's a big but, you have to watch a ton of adds to really get anywhere with game. If you don't watch the adds it could take months just to build up enough money to complete one hotel. Unless you spend actual money on this and to skip adds completely it'll cost you ;ê10.49. No thanks! That just way to high for me for a game that only has 4 hotels to build up. And I'm already on the last hotel!	3	35
408	I play the game and to try to keep without any boosts or anything I barely use ads which firstly makes the game very difficult from the startup of a new hotel. Also, this is meant to be an idle game so I don't understand why the hotel closes after just 2 hours of inactivity. And now I think my game is bugged and wouldn't let me open it even though I have a strong WiFi connection. I can literally play the other game theme park idle simulator with no issues.	1	35
409	It's a fun game, but I'm having issue with the double profits function. If you watch 12 ads, you accumulate the maximum of 2 hours of double profits, but if you close the game and re-open it (immediately), the amount of double profits time decreases significantly (usually by 1 hour), which either is a glitch, or either the app is quite aggressive ad-wise.	3	35
410	Really good idle game. The downside, once every couple days the game will only allow me to watch one ad for extra money. I reboot the game and once again I can only watch one ad. I reached out to the games support but never received any.	4	35

411	There needs to be more hotels & a reset option. I have finished the last hotel & now have nothing to do. I tried deleting/ reinstalling after clearing my cache to restart, so I would have something to do. No luck...so I now will not log into the game until there is a new hotel added. Gems should be awarded more, so we have the ability to buy more gem items.	1	35
412	Really enjoy this game. Only downside is I have completed the third hotel. All rooms are maxed out, all services maxed out, and all targets are completed but have not been awarded the fifth star. All staff that are available and have been employed and all advertising is on. I am making maximum profits and still cannot unlock the next hotel as for some reason, have not been given fifth star even though there is literally nothing else I can improve in this hotel.	4	35
413	Is it possible to increase the number of guests that each member of staff can serve at the restaurant and bar? It seems silly that 1 chef can only serve 2 customers. There are lots of empty seats and a small queue of people, and most of the hotel goes without food if you have a large hotel. The prison game was more realistic.	4	35
414	Game is superb but only one thing that is very bad that it has very low money generation compared to all expenses and everytime i leave and back then i was in loss . Plz fix this And one request that you must provide landscape mode for playing this type of games .	1	35
415	It's very nice game and interesting but after completing the other hotels there is no use of going back to it even though they still continue to run and make more profit could've been better if u can borrow money from the other profitable hotels to use on the new ones instead of starting from scratch and there will be no use of the money made from the already existing profitable hotels.	4	35
416	Nothing more than an ad delivery device. About every minute or so, it is presenting some reason for you to watch an ad. And now, it's gotten to the point where even if I agree to watch the ad, no ad actually shows, so no reward. And \$10+ just to keep the game running idle for more than 2 hours? Really? The depth of play nowhere near justifies the pay-to-play upgrades.	1	34
417	Love this game. Absolutely no forced ads however if you want extra financial earnings you can watch them for a good amount. The ads generally aren't super long either unless they're uncommon 30 second ones to show up. The game for me was a tad laggy, especially once I started upgrading a lot of stuff, but overall the best tycoon game developers I've seen so far	5	34
418	Main reason i give the game a 3 star is due to the bug this game has. For some reason when you leave the game running in the background it won't countdown your time or build up your profit after leaving the game alone. You have to completely close the game and reopen it but even that sometimes doesn't work and you're not able to to get your reward for coming back to the game. Please can you fix this issue it's tedious and annoying.	3	34
419	It is alright but I actually want to start a hotel like no objects is there from the start and that you get to choose where to put the objects. How ou can do the tutorial is just have enough money from the start to buy a counter. Then they pay you enough money to make a room and make it evolve. I know I'm asking a lot for you but I'm begging you, please listen and understand my advice. My opinion A fan	3	34
420	I love the game, it was the only thing I wanted. Half a year ago I was searching for a hotel tycoon but all I ended up with was some kind of bUiLd YoUr oWn CiTy, like townscape and now that this game came out I was so happy! The only thing I don't like is that there are only boys and I would also like you to add a family room and add girls and little kids (please) thanks a lot if you do because that would be a great pleasure!	4	34
421	Edit: Took three days to get an answer about an issue and then y'all leave a half smarta\$\$ reply on here. I understand it isn't an automatic service, THAT'S FINE. What isn't fine is there's no wait time listed not even an idea of how long things will be handled and in my case, it was 3 days. ANYWAY, people who buy on this game are making you money. Remember that, developer when you're leaving halfway smarta\$\$ replies.	1	34
422	Update: after posting this review the problem got solved quickly and the game is back to being very fun! Just a little bit buggy. I'm hoping the problem stays fixed The game was fantastic until the ads stopped working. I loved it but now it's incredibly slow and not very fun. I didn't mind watching the ads and they sped up the game to a good pace. Now they won't load and the game is very slow.	4	33

423	I really enjoy playing the game it is great. However I recently got to the second Hotel and problems are starting to occur. 1. Anything that is ad related will close the game at times. 2. The button for the boosters won't function at times as well. 3. The game will only keep in game guests checked-in the single bed bedrooms. Once you exit and return to the game the two bedrooms will be unoccupied. Like I said I enjoy the game but these glitches make the game a bit upsetting to play with.	3	33
424	poorly made cash trap. played through most of the hotels in the game and it's taken months. cool concept at first but not worth the little space it takes up on the phone. not to mention the bugs. you can return to older hotels but theres no point at all considering you have to get 100% done with each hotel to even get the next one. edit - in one of the last hotels and I'm permanently stuck making -3k a day. great game. I'm honestly ashamed I spent the amount of time I have on this.	1	33
425	Keep having to close the game out! Everytime the ads stop working the housekeepers get stuck and game play is no longer worth the time!!!! I wouldn't be so agitated over this if I was using an old device, however, my device is brand new, which means the game needs to be fixed so people can play it. I hope this is taken seriously as I love playing this game, but it seriously needs to be fixed to work properly. At the moment this game isn't even worth one star.	1	33
426	I enjoyed this game yes I paid to get all the bonuses .. it was a little more expensive than I like but well worth it the game is so much more enjoyable. My only concern in I'm worried I will beat the game and it will run out of levels. I would also like to see a bit more flexibility in what you can do with guests but otherwise thoroughly enjoying playing this as a past time.	5	33
427	will there be a new hotel? Finished the latest one ages ago	2	33
428	I love this game! Every detail was thought out so it plays beautifully!! However, here's my issue: Ever since that last update, nearly every time I click the VIP the app crashes. Sometimes I've watched the video and gotten the money, then it crashes and I lose it. Sometimes it doesn't even black out the screen to take me to the ad and The VIP has turned to leave, then it crashes. Lastly, when it crashes it kicks the people out of 2 rooms, even if it's night. (Always 2). I'd like my VIPs back...	3	32
429	Fun for 10m but it quickly gets old. I also felt it did not do a good job explaining rating system. Felt this game was very unrewarding for the hours of ads I had to watch and the constant grind, literally everything needs an upgrade on top of an upgrade. I was finally done getting to 5 stars on 1st hotel after prob 4-6 hrs. After all that time and resisting the obvious cash grabs to skip ads it just reminded me how unplayable pay- to- time-skip mobile games are.	1	32
430	I've been playing this game for over a year now and its been engaging. But I would love to pool in all the money from all hotels, that can bring in the feel of a hotel tycoon. Codigames should introduce hotels based in different countries and can develop the hotel portraying the culture of different countries and different regions. This would bring in actual feel of being a hotel tycoon. I would just like to know when is the new hotel update coming up??	5	32
431	In app purchases don't work. Customer support ignored my request to simply receive the event booster I purchased, and then ignored my second request for a refund when the event was halfway over. Super disappointed and out \$11.	1	32
432	I've completed all the hotels to 5 star level. I'm not spending any money on buying upgrades, so what now?	1	32
433	I liked it a lot. I'm on my second hotel, but when I got the game, whenever that "dancing man" came, it would OCCASIONALLY freeze in the middle of the ad and then not give me any coins. Now, nine times out of ten, it CONVENIENTLY freezes at the end of the ad, and then clicks out without giving me coins- or it freezes and I end up having to restart the app. Please fix that.	3	31
434	Game is overall fun with quite few bugs and hard parts. I'm on the 5th hotel currently and it's still as fun as the 1st one. The biggest and most annoying bug I've come across is that after the "dancing man" arrives to offer me an ad for video and i watch it, after he leaves, his icon pops up on the right of my screen in order to watch another video for more money. I never seem to get any of that money and sometimes the dancing man's money also doesn't get delivered. Not sure what's at fault.	4	31
435	Good fun little game, worth buying the no ad upgrade if you can afford it though. I'm already in the last hotel.. kinda wondering what happens after that, as finishing that negates the point of doing the event hotels. Editing this nearly a year later, still no new hotels! Downgrading your star. Come on, new content please!!	1	31

436	Where has this game been all my life!? Its fun managing the ins and outs of a hotel. I thought I would be overwhelmed, but it has a nice pace to it. Charming game...the finacer/investor is my favorite character!	5	31
437	I wish it wasn't quite so focused on ads as a part of the active play. In order to advance quickly with the app open you need to watch adds to get perks that would otherwise take a while to get; I would just enjoy it more if the ads weren't nearly as necessary. Other than the vast quantity of ads, the gameplay is very fun and rewarding! Excellent concept!	4	30
438	Great graphics and addicting game play. All the shiny reminders of things to buy can be annoying and really take up the screen. Biggest issue is tha the profits from one hotel can't be spent on another--once I've reached 5 stars, what's the point of even collecting the profits? Isn't that the basis of a business empire???	4	30
439	I like the game! I enjoyed playing the game until about halfway through the third hotel! At a certain point the investor stopped coming and I am unable to watch ads to double my income. This makes the game move too slowly as upgrades are extremely expensive compared to what you are accumulating in the game. I am at a point that I cannot do anything without double income or investor perks.	2	30
440	The game is fun but very very very glitchy. The ads don't play. I either have to force stop the game or uninstall-install it again. The investor doesn't come as well, unless I uninstall the game then get it back, that trick only works for the first time i open the game after re-installing it. If i watched a video successfully to double the profit, when i exit out of the game the doubled profit goes away. If I had all rooms occupied, once i leave the game i come back to find half rooms empty.	1	30
441	I thoroughly enjoyed this game from start to finish! The first time I've ever played a game like this and now I'm a fan. I'll keep this one on my phone to delete and replay in the future. I did pay the extra \$10+ for ad free and another \$10+ for the manager later in the game. Neither is neccessary. I was simply enjoying the game so much that I decided to enhance the experience and I would have spent that much on a movie and snacks which would not have lasted as long or entertained me as much	5	30
442	At the bottom of the screen is the VIP campaign where you have to watch a 30 second advert to get 10 minutes of 2 x's play. Click on watch video then come out of the game and go back in. You don't have to watch the advert and you'll get 10 minutes double play each time you do it up to 2 hours. I don't think it work's anywhere else in the game but it definitely work's on VIP campaign.	2	30
443	So far I really do love this game. I definitely can't wait for more hotels to come as I have finished the first hotel and fully upgraded it so for now my money is just building up and I hope when the new hotels come I get to keep it all instead of losing it like most of the games that are like this. This is an awesome game just watching the rooms change when you upgrade them brings me fun to see the differences they have with each upgrade.	5	30
444	This game is a lesson in how NOT to do addictive phone games. I've finished the game not once but TWICE now after their "additional content" amounted to 1 more hotel. Top tip CodiGames - if you're going to make a game this addictive, at least have a ton of content ready to go *before* you release it. Now I'm sat around waiting for them to catch up. The game itself is great and well thought out - but i£10 just to keep the hotel open for 10 hours is outrageous given the issues above.	2	30
445	I think that it's a brilliant game, but very recently a notification keeps popping up when I access the game and it's rendering me unable to play the game at all! I'm extremely angered by this; I hope that the issue can be resolved or I will have just have to rid of the game.	3	30
446	Really love this game but im upset that after getting really far. I didnt manage to get back and check my hitel and the game continues to play..which i didnt know. I return after cooking dinner and i get a... my hotel closed!..and i have to start over. Happened twice now. How often do i have to go on this game? Love it but why the hotel death? No fair ..can it be fixed? Would be 5 star if game didnt ruin my fun.	3	30
447	Thank you for fixing glitches in game and responding to my request promptly. Love this game! So addicting and fun to play! Just wish you could earn enough diamonds to get extra speciality items for every room.	5	30
448	Constantly crashing. Great when it work, but crashing doesn't even let me open the game.... Dissapointed	1	30
449	Many glitches as when ever u close the games few rooms become empty. Then in restaurants the take seats which are away making more time.the cleaner also cleans room which are away so it take time.	1	30

450	The game is enjoyable. But I wish housekeeping would go into the rooms where people aren't in. Also, they charge way too much for the removing adds and other extras. 100% of the apps I've played, which is a ton, they charge about \$1.99 or \$1.95 to remove adds. The other perks are also way too expensive. I would understand if it was \$2 or \$3 dollars. I also wish that when you max out one hotel, you could transfer up to half that money to another hotel where you really need the money. GG though	3	29
451	Pretty fun game so far. Love the concept and game play and the fact I can own and have multiple locations. But since were not able to use profits from our other hotels to build on our new locations, we have to watch ads to generate extra cash and watching Ads for little hotel money is pretty ok but half the time the money isn't even added to my balance. Please fix!!! Thanks. Update: the New events are cool. But I have Millions of dollars in my old hotels that I can't use to do ANYTHING. Fix pls	3	29
452	The best tycoon game I have ever found. I bought the no-ads, which made it PERFECT. And unlike some games, it didnt cost me a lot just to remove ads. My only complaint is that I ran out of hotels after getting all 35 stars. But it was extremely fun while it lasted!! *UPDATE: Despite their response, no new hotels have been added and its been nearly a year*	4	29
453	I really enjoyed this game at the start! I'm now on the 3rd hotel and am now deleting the app... the dancing man does not work most of the time which is extremely frustrating as you have to watch ads to pretty much progress in the game. This doesn't bother me too much, but the fact it crashed all the time is so dumb. Also when I switch to look at my older hotels and then go back to my current one, the guests have disappeared.	2	29
454	Yep same as everyone else .. finding the game very fun and I don't mind having the option to watch ads, you get a reward and it isn't forced on you like some other games. However, why do the ads stop? And limit to once a reload? It's silly to reward us for a while then take it away? Just makes me want to stop playing, especially because when you start a new hotel the little gold man with free money helps a lot! Please fix... plus more ad revenue right?	3	29
455	I like the basic idea of the game, but what frustrates me is that the game is at first incredibly slow to play, you get double profits for only 10 minutes if you watch one ad and some ads don't even do anything. I watch the ad, but nothing happens and the game just goes on as if I didn't just watch an ad... The ads which have no effect are the ones from AdColony.	2	29
456	It's a good game that I ended up purchasing as the ads are annoying (I feel it was worth it). Later hotels got a bit buggy and would crash and special items purchased with gems would disappear from my hotel. These were refunded by the company when reported, however on repurchasing special items they again disappeared. I didn't bother reporting again. I have now completed all of the hotels and awaiting a new one __	4	29
457	Really fun game until it crashes. It stopped connecting to ad videos and no VIP turns up even though I've tried closing the app etc. It's so frustrating because the upgrade were designed to have to use the ads to get money \$ if not I'd have to wait a whole day or two just for one upgrade. I'm not doing that. What a shame and waste of time.	2	29
458	Great but not satisfied. When you move hotels the customers will be gone when you came back. Also the chef wage is 180 but if you have 2 chef it will be 1080? Skipping tutorial is nice because you can just literally learn while playing but you should have an option for help for others that is very forgetful. You can't bring the money earned in the first hotel so basically it's nonsense to go back. This game has potential. Please fix all the bugs. Thanks	5	29
459	Love this game, however quite often if you come out of the game and then some time later go back into the game, the game will be stuck on the moment you left the game, which means your hotel didn't earn money while you were away. Also, if when you're watching a video for some extra money and accidentally click your screen and the ad takes you to the play store/apple store it cancels out the reward from the video. Such a shame as this is a good game.	3	29
460	This game doesn't save progress very well. If I am playing it and get my hotel full of guests and then my phone goes dark even for a second, it gets rid of half of the guests I had. Money doesn't seem to accumulate accurately. You can't turn the sound off. I have turned it off and still heard the noises in the game. If I'm playing and listening to music, I don't want to hear the sounds of someone pooping. Also, how immature to have that sound to begin with.	3	29

461	500 characters is not enough to summarise my thoughts on the game. It is annoyingly fun and addictive, but so terribly lacking in the way of polish. Flawed mathematics, annoying bugs, little realism, a lack of continuity between idle and active play and the list goes on. Ads aren't obtrusive and don't appear without the user's input which is a plus.	2	29
462	If you like Hotel games then it is for you!! But I can tell you right now that you can't build it yourself but ANYWAYS YA it's pretty fun so go download it yourself!!! If I like it then you will to. But ANYWAYS you can buy your own staff and buy Hotel rooms and by the way they let you start off with (2) Hotel rooms. GO DOWNLOAD IT YOURSELF AND I BET YOU WILL NEVER DELETE IT OFF YOUR PHONE. P.S can you find the gander room??	5	29
463	I loved this game becuase you can play it all day and it almost never gets old. One thing I didn't like about it is you can't create like your own account so if you break your device you have to restart or re-do all of your progress. But overall for anyone that is going on a trip and has nothing to do or is sitting in bed and saw an add I recommend this app.	4	28
464	It is very challenging that rivals a lot of simulation tycoons, but still needs some improvement like renevation and more upgrades to keep customers enjoy as well as new challenges such as daily quest to earn money and jewels. Althought I still lack more sayings to allow yourselves to improve the game, I'll keep in touch and notify if I have new ideals to say. Nevertheless, it's awesome!!!:))	5	28
465	The game is cool. I understand that you use ads to make it profitable and I am fine with that. But it's disgusting the way you intentionally make the "double profits" and "VIP campaign" buttons not clickable (most of the time). All buttons are instantly available to click, except these two, which is a way to force us to buy premium features. This is not a bug or connection issues from my side, this is intentional. Don't even bother to respond me unless you change its behavior, then I'll give 5*	1	28
466	You have to watch quite a few ads to make it worthwhile or spend \$11 to disable ads. Also, like many others have said there is now an issue where you can only use the ad loan maybe once or twice before any ad benefit is disabled when you're supposed to be able to watch several to double your profits up to 2 hours. Hopefully this will be fixed soon	3	28
467	EDITED: I loved it at first, slow but I like it for that reason... however, I got to the second hotel and I quickly realized that the game had a bug where the cleaners would constantly ignore rooms or stand in the rooms they are cleaning and stare at the walls forcing me to restart the game. I also realized that in order to get 5 stars in a hotel you have to BUY all the gem items. Not a problem until you realize you need 9 stars to get hotel 3. In other words, you have to spend to move on :(2	28
468	1 yr later- no updates with new hotels. what a shame Dont waste your time or money like i did _ . __ I still enjoy the game but I'm on the last hotel and its bittersweet. I can't believe there hasn't been any new hotels yet. I'd love to see a Halloween, kids, cruise, zoo, or amusement park themed hotel! 3/7/21 . ____ I paid for no ads and its worth it, the game is still fun and I cant wait to finish all the hotels! I hope there are more added so I don't have to stop after the final one. 9/8/20	1	28
469	Is it just me today or are other people having issues loading the game today. I have been trying to load my game all day. I have uninstalled and reinstalled 2 times and restarted my phone a few times plus I have double checked to make sure my phone is all up to date. I have a newer Samsung phone so that is definitely not the issue. All I get on my screen is loading. I have even let it stay on the loading screen for over 30 minutes and still not letting me play.	2	28
470	Takes way to long to make some money and is not working in offline mode. Usualy a game of this type, when is closed is still making money. But is not the case with this. I have played for a little bit and after a week the game didn't collect anything. Is exactly in the same place where I stop playing. I was expecting to see it had collected some money from visitors. So is uninstalled now.	1	28
471	I have gotten really addicted to this game, I don't even really like Idle games! I didn't know that this was going to become my favourite game. And I have got to say I never watch adverts for things, but now whenever I see it saying it will give me more than 400, I am there watching it. The layout is good. And I had a little laugh when I first saw them on the toilet__ I really recommend this game, and it is sort of educational because staff wages have to be kept in mind	5	28
472	It's a great game, i just got one problem I will wanted the developer for this game to make it easy, when it come down with the employee you have to continue to pay pay them. That you won't have to pay them, but the employee will still do there job on the game. And add free gems ads on this game too, to make it easy, to go to the hotel, instead of buying the gems.	5	28

473	So many have posted but nothing changed, ads don't load, have to exit game & re-enter to continue but then lose rooms & parking. And hotels take FAR too long to build up in initial stages, the rewards need to be higher. Plus restaurant staff too expensive and only serve 2 guests. And if chef wage is 400, why is daily wage 1200 for 1 chef, 2400 for 2 chefs etc? It must be 400 per chef PER MEALTIME to serve just 2? Ridiculous! Takes too long to build up earnings. Many similar games work better! __	1	28
474	I played this game everyday until now.. "Dancing King" and the "skip night" just don't work anymore. It's the best way to get money, but now I only get them once when I play. I've tried everything like turning my phone off and on, restarting my phone, and turning my wifi on and off. Without the "Dancing King" I make very small amount, so I just go off the app a few hours and check on later. just I think it's just a glitch or something, but I will delete this app if it doesn't get fixed.	3	27
475	This would be a 5 star if you didn't have to pay to actually have fun playing. If you don't pay for no ad bonuses it would be a nightmare. If you can pay it this game is honestly great, you can spend a good amount of time playing instead of just waiting but there is some waiting involved. The events are always the same but fun. Major downside is i completed all levels so long ago and I thought there would be a new one by now. We need a new level asap! Or at least the option to start over!	4	27
476	Simple but great way to pass the time. Requires a lot of patience and you must be willing to watch lots of ads or pay real money to get bonuses like 2x multiplier, extra cash etc. I'm glad the game has been updated recently as a new hotel has been added but my only gripe is that since this update, the game seems to start lagging after about 5 minutes of gameplay. When you're trying to drag your finger around the hotel it's not ideal, hence the 4 star rating. Maybe another update to fix this?	4	27
477	Addictive and enjoyable to see the hotels grow. Accomplished all missions with all hotels running 100%. But, special event is a waste of time ie NO way to achieve the final target unless spend real \$. Emperor Palace has serious known tech bugs but yet not fixed. Graphics cute though a few guests sleeping at wrong corner of bed, and some walked through walls. Thanks for helping us pass time.	4	27
478	I like playing this game a lot but sometimes a few things don't work. Like when you first go in and you can double the money your hotel has earned, the button to watch the ad doesn't work. The ad button to double your earnings while playing and to get the extra investor money doesn't work either. Quite frustrating	3	27
479	I'm a simple guy, I enjoy these tycoon idle games. The reason I gave this game 5 stars is due to how much I enjoy the game after the purchases I made, which was alot for a free game. Somewhere around \$28. I only spent the money, well, because I can and it's my money. If you're willing to play it without the purchases, I wish you patience.	5	27
480	There is a bug. Whenever I close the game and start again, always 5 rooms seem to be empty and even if it is 2am in the night in game, people start leaving hotel. The Stanley resort. Please look into it. This is reason I have reduced the rating to 1.	1	27
481	Ultimately fun and I like the artwork, but the main issue is that time progresses very quickly and people move at a fairly normal speed, meaning that it can take 2+ hours for guests to walk the maybe 100 metres from their room to the front desk! Also not many hotels in the game. Also, particularly in the third hotel, the restaurant serves 12 people maximum, but I've already got 22 occupancy with only a fraction of the rooms and only a small amount queue at a time, so many just give up.	3	26
482	its nice. havent played it enough yet but im digging the graphics. 2021 Edit: The beach hotel needs work, the patrons are so freaking slow they can't get anywhere on time. It's frustrating. 2021 april edit: the ads aren't loading properly and I can see others are having the same problem. Hope this will be fixed soon.	3	26
483	It's a fun game. You don't have to consistently move characters around which I love. The graphics are pretty basic and the fonts can be difficult to read if reading small fonts are an issue. I like the options to upgrade the rooms and to keep leveling up. I'll keep this one! Fyi: the tiny dancing guy that comes into the hotel lobby to dance? Free money for gameplay if you watch a short advert. Turn off the sound .. You're golden.	3	26
484	The idea of managing a hotel and the gameplay are fine. Support is horrible, if you send a ticket, you don't get a response until you run out of patience and end up writing another (didn't get any sort of response within 3 weeks). Graphics are sometimes buggy, like street lanterns in one of the hotels only had the upper part but no "body". Would be useful if the game gave you a notification on your phone once the 2h 2x money bonus runs out.	2	26

485	Great game! I think it just needs more options on upgrade like more items, more venues and more places. Also like events, meeting room for people, birthday event. and Reservations also more choices on which room you will make as the owner of the hotel. Sorry my english was not that good, but i hope you understand my point. God bless.	5	26
486	I love this game and have been using it as a pass time for many months, but there are glitches starting to happen in the game. The ads wont load, the guy who comes to give you money just up and leaves and the game will freeze at times. These make it really hard to play expecially with the events.	3	26
487	There's some control issues with the game, and if you don't buy the no ads feature then it's a rough start, but the game is enjoyable. No ads is \$11, so if you want a cheap(ish) game to burn some time then I recommend it, but otherwise you might want to go somewhere else if you don't want to spend the money. Not cheap for a mobile game for no ads, but as a game it's cheap.	2	26
488	I really REALLY enjoy the game but I think there are some things that would make it better. 1) allow us to use the money from previous hotels on the NEW ones we open AND use them on the EVENTS to be able to attempt to complete the events. 2) if we want give the options to use our diamonds to purchase money if #1 isn't going to happen. 3)[not really a suggestion more of a question] are the packages that are available for the events are they available for entirety or not?	3	26
489	Update: May 2021 Completed all Hotels, hope there will be more hotel levels. 2020 Review Addicting Game, love the updates. Wish their was opportunities to get instant cash fast, something like how you watch ads to double your profit for 2h. Other then that its an addicting game to play, keep up the updates. Recommend this game for sure.	5	26
490	I love this game :D. It have many hotels to manage and events in between too. I've been playing from just 3-4 days and it is ver fun. I really recommend to play this :).	5	26
491	Game is decent. I've played other tycoon games, but this is the first mobile one I've played, so I expected some "roadblocks". However, the game is WAY too slow, and watching an ad will only speed it up for ten minutes...although you can increase that watching multiple adds. And the generator should be putting out more power then it does...or some items should be using less. Either way it doesn't feel balanced to me. I can't see myself playing for much longer.	2	25
492	Cute Game to pass the time with; however, it was too easy to beat. I've had this game less than a month and already fully upgraded all the hotels. I hope they plan on coming out with more soon. One annoying thing, is as soon as you close the app it tells you the hotel closed, I figured out it was just to get back into the game - I just waited until I got the all hotels are closed message (every 2 hours). Small thing to note, I hate ads so I bought that add on.	4	25
493	Giving it a 2 bc the game is one of the better check out the app a few times a day depending on how much I feel like playing. It was enjoyable. Now that I've made some progress and got to the 2nd hotel it seems like the game is working hard to make me pay. The cash for an ad character shows up much less frequently, which I sort of get. But now the ad only plays like 20 percent of the time so you don't get the reward nearly as often. Seems like they're trying to get me to buy the no ads feature.	2	25
494	It is an ok game and somewhat fun to play, but the game is lacking some complexity and flexibility. It's pretty straightforward, and most of the times all you can do is wait for money to accumulate or watch ads or pay money. There is no real threat of bankruptcy, and wrong choices only affect the time you need to play to complete the tasks and get 5 stars for hotels. I understand that this is a very casual game, but come on, tycoon type games need more complexity.	3	25
495	Love this game, wish there were more hotels. The graphics are cute. The balance between ads was fine for enjoyable game play (and it is an idle game, so meant to run over time passively) but I enjoyed it so much I bought the no ad upgrade. In game I wish there was an upgrade all function, once you get the hang of creating successful hotels its frustrating to upgrade each item individually. Preferred this over the prison game as I like to make people happy :)	4	25
496	It was a fun game but I would really appreciate it if the hotel had some bad scenarios to add to the fun. As you play the game, it will start becoming boring to a state where you won't want to enter the app as it isn't fun anymore. All you need to do is just wait for the money and then upgrade things. It would be much more fun by adding exciting scenarios like, the hotel got broken into, the hotel closed down, the hotel went broke or the hotel had a fire. It would really be a better game.	3	25

497	It's an OK casual game, but you need to watch a lot of ads to get anything out of it, also only 5 hotels to complete so done relatively quickly. The events are also impossible without spending a lot of money, which I'm not doing, especially if my other hotels are fully completed so the bonuses wouldn't be that much benefit anyway. If there were more hotels so I could keep playing I might rate higher.	3	25
498	I love tycoon and idle games. I found this game after playing idle miners. Although i enjoy it. I have a couple issues! 1 being the money from your other hotels doesnt transfer over. After buying all the upgrades there is just money piling with nothing to spend it on. 2. Its only 1 way 2 earn diamonds 4 special items. that wouldn't be a problem if there were enough task 2 get them. It would be nice to use the money at my old hotels in the new one since i cant spend it at the old ones	2	25
499	Just finished building my first five star hotel and noticed that I can't use my profits from this hotel in my next one. I'm done upgrading this hotel so it will just stand there and collect money for nothing! I don't understand how the developers thought - it's like you have to restart the game Everytime you finish a hotel? It's too bad because I don't feel motivated at all to build another hotel that will just stand there and collect money without use. Fix the bug and the game will be super!!!	2	25
500	It's a good game. Its challenging and there's a lot to do. But I don't understand why the money you earn from your previous hotels can not be used for another hotel you started. That doesn't make any sense especially when you have nothing left to update on the previous hotels. All of the money on your old hotels just stock up and you don't even have anything to put it towards on that hotel because everything is completed yet you can't use it towards a hotel you are starting.	5	25
501	The "idle" time. It is only 120 minutes. for every 10 minutes of "idle" you need to see a small advertisement. 12 commercials for 120 minutes of idle. I can't go through level 3. for nothing I made all the changes I don't have 5 stars I spent all the diamonds in front of no purpose. it seems that I should still buy diamonds to be able to pass the level I think the game is made in such a way that without buying you can not pass on level 3.	1	25
502	I really love this tycoon game! However I do have a complaint that the guests never spend time in their rooms! You put so much stuff for them to do in the rooms yet all they do in their rooms is sleep. I get that them using all the attractions gets you money but it's still a waste to add so much into a room and it's never used	4	25
503	The game is a lot of fun, especially if you pay to get the ads removed; however, I'm now at the end of the game and there's nothing left to do. There aren't any more hotels and I'm not even sure they are going to add more. There's also not a way to reset the game. It's also unfortunate that you can't transfer money from one hotel to another. Each hotel, you have to start with nothing but everything is a lot more expensive to buy the further you get into the game so it takes awhile to earn money	4	25
504	I've only been playing this game for a short period of time.. but here is my honest take away from the game play. I have enjoyed the game for the most part, and haven't seen the issues with the ads. Probably because I decided to support codigames and spend 10 bucks to avoid watching ads. My biggest issue with the game is that there is no AI built into the guests.. i watch a guest mosey clear across the hotel to get to the restaurant that opens at 730. The guest walks away at 728	3	25
505	Fun, but glitchy. Half the time when you click on the investor and then click "Watch Video" the video screen flashes and he walks away without giving anything. Pretty annoying. Other than that it's nice to slowly build and become profitable. Unfortunately after you Max a hotel it becomes pointless unless I'm missing something. Wish there was a way to use the millions of pointless money.	3	24
506	Very enjoyable game, can sit and play constantly for hours on end... However it seems after the game has been played for a small amount of time the videos for bonuses stop working and the game starts to become very slow and difficult to grow on. Had to uninstall and reinstall just to get them to work again. Unfortunately the problem reoccurred after a day of playing and have had to do the same again	4	24
507	Feeling more like the game creator was just in it for money. The amount of ads you have to watch just to keep your income somewhat flowing is insane. The upgrades tap out easy so there isn't much of a way to earn higher income, a combined income would be better. I finished most of the second hotel upgrades and I'm finding it incredibly dull just watching ads(10.99 to stop ads), which is the majority of the game. Eventually you have to pay to finish the game anyway. Cute graphics though.	3	24
508	This game has a lot of glitches that started to get worse the farther you get into it. I would give it 5 stars if it wasn't for that it's an awesome game please fix the little bugs. Some movies don't play when you expect an award for watching it. And the third board all of the guest are not going to room it's simple I think that can be fixed. Fix the bugs on the videos. Think I am going going to delete the game it cheats you out of money from that supposed to earn for watching the videos.	2	24

509	It was really good until we got to the last one, Santa's Shelter. Very disappointing. I played this and paid for benefits just to get to Santa's Shelter. Not worth it if you are looking forward to something cute and festive. This hotel is literally the first hotel. Just with a touch of a christmas wreath and a christmas tree. Not worth. Waste of time. Also the star ratings only go up once you've upgraded everything in your hotel. I would expect it to be based off the likes of customers.	2	24
510	45 second adverts are not acceptable. I want to like this game but it's just so buggy, whether that's people flying through walls or logging in at 2am to find everyone starts wandering down to breakfast or the spa. Basically the exact same bugs as in prison tycoon. It's also really tedious that most levels need 100% completion before being able to move to the next.	2	24
511	I've been playing this game for months now, and all of a sudden I can no longer plan ads, and since I will not pay \$10.99 to have the ads removed completely, I am now STUCK. I don't appreciate whatever change was made in the last update, because now nothing works! I am terribly disappointed because I loved (note the past tense) this game. Fix it please! And to Codigames, don't comment "send a message to us" because I ALREADY DID!!	1	24
512	The game is a good way to pass the time. Its a little time consuming and a slow build but not horrible. My issue is with the purchasing. I buy the VIP packs for the events and I have been charged double at times or I have been charged but did not receive the pack. I have contacted support but I have not received any help. The events are time based so that is a problem.	1	24
513	I love this game, I found it really addicting. I'm so disappointed that there are no more hotels to play. Still waiting for new levels:(the events have gotten boring and what is the point if you beat all the levels	5	24
514	I'm only rating two due to the fact... 1. Fun game and time killer 2. Very very slow paced 3. Trickery... you have you buy gems to progress. Meaning, you can easily obtain 4 stars for your hotel via cash, but the other star is obtained via gems, just2 unlock the hotel's require stars gathered from others. For example, spend 20 gems for a tablet in one room, you have 6 rooms first hotel. So if you want to progress you have to buy gems. That's just the rooms, there is still the bar and kitchen...	2	24
515	Codi is back on track with a quality game. Bugs have been fixed and loving the new hotels. I wish there was a way to channel money between hotels. It seems pointless to have all that cash on other hotels and not be able to use it for other options. Maybe make it usable for the new event hotels? Please?	4	24
516	Just can't getenough of this game. The first idle game I can say that I'm relaxed. The money earning is fast, the upgrading of is cheap. The perfect idle game for relaxing. Highly recommended.	5	24
517	I do love this game! It's a great time passer and although you must use your money wisely, it isn't impossible to earn. The only negatives I have are that it's unclear how to change negative income. Also it drives me insane seeing the SAME ad OVER AND OVER. The ads are not extremely long, and always give you a reward in return, however it would be nice seeing ads for other apps too.	4	23
518	Okish. The game is fine, but the progression is really slow. They want you to focus on buying, or ads which there are a lot of. You really have to rely on the 2x multiplier if you want to progress, but you have to watch a 30 second ad to get 10 minutes of it. The power ups you can purchase, but for the price of 5-15\$ wouldn't you just go get a solid game instead? Tycoons are fun for a bit, but I would never see myself paying so much to play a game without ads.	2	23
519	The game is perfect the graphics, style and the gameplay are good wish all Idles game (idle supermarket..) was at the same quality as this one. I have a question what we can do whit the money we earn from the previous hotels? We can't use it once we reach 5 stars! It will be good if we can use it in the development for the others hotels or at least a 50% of the sum or something like this! Thank you to find a solution for this problem and to make games like this .	3	23
520	Good game. Not too difficult to progress, its achievable, which is great especially for an app like this. No requirement at all to purchase anything or buy gems. Only thing i would suggest is it would be good to control check in and check out times, be able to accept or decline bookings dependant on how many nights/people are staying in a room or be able to hold them in hotel until checkout - be able to control opening hours of facilities and staff wages. Good app but needs more hotels!	5	23
521	This game honestly it's great. But the issues that I have with this game is that Its so hard to move up, you basically have to keep watching ads to get money and upgrade your stuff because the money that you're getting from your hotel just is NOT enough because you have to pay your chefs, check in person, and your house cleaning people and you pay them WAY MORE than you'd actually get.	2	23

522	I really enjoy the game, brings me back in time when we were playing all sorts of tycoons. But there's one thing that doesn't work for me... When I fill the 5 stars it becomes useless. You buy a new hotel, become millionaire with the first one but can't use the money... Why? U need to fix this, make us use the money on others atleast.. Or else u can just delete because it gets repetitive and boring...	1	23
523	Love everything EXCEPT that hotels are meaningless after completion. Like everyone else who has played this game is asking: please let us transfer money from hotel to hotel or make it one pool of money that we can spend anywhere. You can adjust the prices for upgrades on the next hotels to balance it. Devs, if you even read this, THIS is how to get people to keep playing. Such a small fix with such a huge implication.	4	23
524	I love this game. But I noticed that with all the chefs hired, they still cant serve everybody or the amount of people that can be seated in the restaurant. Also, its the same with the parking. The parking is not enough for the amount of rooms I have. My last complaint is that in the beach hotel, the rooms on the right side do not match the left side. This causes my guests to go to the other rooms to use the bathroom. And they use the chair and desk without actually sitting in them.	4	23
525	Fun but definitely pay to win, cards you can buy with real money only drastically boost offline rewards time, profits, no ads, etc. Not needed to play, and highly recommended against purchasing them as these levels are finite and after not a very long time that stuff you have paid for(insanely overpriced fyi) will literally be pointless as you will have "beaten" all the levels. Yes they are creating more, but nonetheless I feel the pay2win cards are absurdly expensive and actually ruin the game	3	23
526	Really addicting, fun to play. Haven't noticed any glitches. The money you get for watching ads make them less painful to the flow of gameplay. It's really fun to watch the hotel progress as you earn more.	5	23
527	Okay, if my comprehension is bad blame that on my age. I am 13 years old. Now I don't have that much experience in idle games but I do like this game. However whenever you get into the game you'll understand why I like this game. You pay rent or your hotel will I mean will go bankrupt. And if you don't want to stay bankrupt you have to watch the video with the very important patreon. Even though that the ads are annoying, it does progressed you into the game. So my final thing I say is Hi world.	5	23
528	Fun game. The con is that the event hotel would be more fun if it earned money like the other hotels when idle. Also, what's the purpose of completed hotels earning money when you can't do anything else with them and you can't borrow money from them in order to build your other hotels. It would come in handy during the event hotel.	4	23
529	This game was really fun, still plying. I don't see any bugs compare to other codigames. But I'm not satisfied with Codi resort hotel event, its really hard to complete watching by Advertisment. If you want to win this Event you have to pay more real money. They even don't have affordable starter back here like other codigames. I would be really loved very very much if they have option to money transfer one hotel to other hotel .Over all if you want play for fun you should try this app.	4	23
530	This game is so fun and awesome I love it if you can make getting diamonds way more easier it would be better. I wish you a merry Christmas and a great new year but my only problem is that when the customers stand at some kind of table, it makes them get angry __. At the chefs place then they leave why then they leave the hotel __ __ with this headache sighn and also angry __ face __ wat kind of game did I download?!!!! Please fix this	5	23
531	I like the concept and love these types of games. It is a bit slow though and if it wasn't for the guy with the briefcase and the ability to watch ads for his service, then I feel like this game would be dreadful...skipping night helps speed it up a little, but I feel those who cannot afford to go ad free like myself would/will grow tired of all the ads and slow progression without utilizing the available ads.	3	22
532	This game is really fun, well made, and surprisingly addicting. I reccomend playing it if you like taking your time to make very profitable businesses without needing to buy in app purchases. Two notes for the developers. 1. When you click on a room and then try to click off, there can be a bug where you don't, so maybe add an "x" in the top right to close out of the room upgrade menu. 2. Having more than four guests can sometimes cause the game to not add profits for additional guest's staying.	4	22
533	Fun tycoon game but for some reason I can only watch 1 or 2 ads for 2x the money or to get "loans" then they stop. I can click over & over but nothing works. I have to close out the game completely, reopen and try again. It's the same thing over & over. I'm ready to just call it quits on this game because it's so frustrating!	3	22

534	This is a great game! Despite being a "tycoon" game, it remains challenging enough to be continuously interesting; usually I play these games for about a day, figure out the formula, get bored and delete them, but I've been playing this for weeks. You also don't need to spend a penny! Watching ads speeds things up, but even that is never required (no "watch this ad to continue" nonsense). The support team was also responsive and fixed a glitch in my game within a day. Overall, amazing!	5	22
535	Ads. Ads. Ads. It's honestly ridiculous how many show up whilst you play. No joke within the first 5 minutes of play I had 3 ads back-to-back, also the tiny little x to close popped up for 2 seconds and immediately went straight to another ad. Too many games are ruined for allowing these intrusive ads, I've had enough of it all and it's far too expensive for what you pay for. I cannot recommend, unless you like ads.	1	22
536	This was an alright game, a decent time waster, but now it is just a pain. When upgrading the various items the game lags and slows to a crawl. It takes me 15+ minutes to upgrade a single bedroom. The only time the upgrading goes somewhat smoothly is when all the guests go to bed. I actually began to dread booting up this game because of this.	2	22
537	Hi I played this a while ago and liked it. I decided to try again but for some reason the money I should be getting from a room is far less than I am. I noticed this during the first level hotel but when trying the event to get manager, the default price for the level one bed should be 30 dollars by itself.. for an hour in the room I am only getting 5.17 instead it's not remotely matching up. Wasn't sure if it is adjusted from when playing last or bug please help.	1	22
538	As someone else mentioned, it's a marathon... Not a sprint. You don't have to pay to play but I have bought the odd thing just to thank the developers. Hoping they still expanding on the game. Really enjoy it, no pressure.... Can pick it up whenever you in the mood. Big thank you to Devs. I would suggest buying the no ads option... Doesn't cost an arm and a leg.	5	22
539	Good game. The best I played so far. Unfortunately it only has 2 hotels. I'm sure you'll be adding more later. I can wait. I just started the second one. The bigger issue is, the first hotel is maxed out and making lots of money that I can't do anything with. You need to add more things to the hotels to spend the money on. And a really good idea would be that we can use that money in other hotels we purchase.	4	22
540	This game is filled with misleading upgrades, bad and incomplete math and it's all to make the user spend money or watch ads for bonuses. Bonus events are impossible to complete without spending money. Do not play this game.	1	22
541	Its a pretty good dame to pass the time by i just wish as you upgrade the bars, restaurants and other parts of the hotel that the customers can use all the seats available rather than 4 people at a time with 12 seats in the restaurant and bar. Hopefully that's an upcoming update. Most times my customers get angry waiting the 20 seconds	2	22
542	Love this game really addictive and enjoy being able to compleat levels, I dislike that I'm on the 6th Hotel and the missions have stopped and I've not earned any gems? Obviously the levels get harder each time and earning money is hard let alone without being able to spend gold, I have purchased a few packs for money but would still like to get my rewards from the missions? Why would they have stopped on this level thank you	2	22
543	Love the game! So much fun! NEEDS MORE HOTELS ADDED. I finished every Hotel. So, can't wait to get more to do. The game needs Other WAYS to Get MANAGERS than just the Event Hotel, due to it being impossible the get one in the events. Thanks and love your game!	5	22
544	It's Good. Just Good. Starting this game is slow, and very gradual when upgrading. You really don't need to spend money which is nice. However, I believe there's a glitch because when you leave the game come back to it an hour or later, you're optioned with a 2x bonus. When I click it, it doesn't give me the 2x even though it's been selected. I wish you just upgrade the room itself rather each individual item.	3	21
545	It was ok. It's pretty fun and realistic. The only problem is that I wish I could use profits from previous hotels on the new hotels. Another problem is on the second hotel, when I leave the app, all the customers in double beds seem to disappear, I've done this multiple times and they always disappear after a few seconds when closing the app. The game is relatively hard to progress. You have to watch A TON TON TON of ads to get enough money, otherwise, very nice game	3	21

546	Very well programmed, planned, and executed. It's an impressive game. I also like that even though they ask for money it's not necessary to actually spend any to rank up and complete missions. Just takes a bit longer. I knocked a star off because the video ads are all 30 seconds or more and that's a lot for fake digital currency (you can watch an ad every minute or two so they add up). Also there's no real autonomy. I saved up enough to buy another room but the game forced me to add a bar.	4	21
547	This game is okay. Very very slow start unless you want to keep watching ads every 30 seconds for money, quick housekeeping, more customers and skip nighttime. What makes me most mad is after I put in so many hours and do waste my time watching ads to get money, I finally get a 5 star hotel with maxed out upgrades and I move onto my second hotel, 2 days later my first hotel goes back to the beginning. And now to unlock the 3rd hotel I have to 5 star both hotels. What a waste of my time.	1	21
548	I use to like this game but now it's so bugged that it's ridiculous. The ads don't give you double profit even though I watched them. most of the time you don't even get the double profit button it just loads forever and never pops up. I have to constantly close or uninstall to get the game to work properly. Update* now it's not giving me the profits I make while I'm offline. It makes me click the  button for normal profit. Uninstalled until fixed.	2	21
549	If the only way to generate revenue is through playing ads, the game itself becomes irrelevant. Why should I continue playing and coming back to the game if the only way to make it work is by ads! As a player, I understand using ads to get ahead once in a while, but there needs to be an in game stimuli for me to continue. Please increase the pace at which revenues increase for this game to be more rewarding. I spent 2 hours just building the basic infra yet spent more than 80% just playing ads.	1	21
550	This game is ok. The game play isn't very exciting. Another issue is that the employees quit if they don't get paid one time. ONLY ONE. Then they quit so then you have to save up to buy that staff back and waste all of your money that you just earned and it is very annoying and makes the game longer then it has to be please remove this because if that wasn't a thing the game would be playable and not just you spending hours to buy the next room or upgrade.	3	21
551	The game is great. But I think there should be a little bit more details especially the NPCS. As well as when opening a new hotel, the earnings from the previous hotels must be used so that it would have a purpose in having them. The events are basically micro transactions though.	4	21
552	Good game needs more hotels, I completed both hotels and upgraded everything to the fullest within a day of play great game and loads to do with very simple controls takes a while to get going but once your going you'll fly through it like I did, would give it 5 stars but sadly only 2 hotels atm until more hotels are added i cant give it a 5 star but great game cant wait till more hotels are added	4	21
553	Really do like the game but have noticed bugs. Today the game has crashed twice. Unsure why	3	21
554	Growth strategy? There aren't enough hours in the day to watch enough ads to make a dent in the requirements to succeed. NO THANKS. I have a life. Game achievement hinges on adverts. After the first hotel is up and running, the adverts are your only hope of success. The limited time challenge events are impossible. The game concept is great but there is little game to be played. There is about 5% of play to 95% adverts. Could be a great game but it is simply a marketing tool more than a game.	1	20
555	I have really enjoyed playing this game. It's a bit of a shame that there are only 4 hotels currently as I have completed them all now, but in fairness the game did last me a good long while. I found very few problems with it aside from occasionally ads just wouldn't play if you tapped the button before the loading circle went away, losing the opportunity and the bonus. Otherwise, a pretty solid mobile game.	4	20
556	Devs made prices extremely high to upgrade and buy new things like bar and upgrade generator to lvl 2. This is a crippled turtle with one leg in terms of advancing. You make very little money, even offline. Basically forcing you to spend real money. Game massively tailored for PTW. They need to redo the entire money making and upgrading for this game to even be playable. Uninstalled	1	20
557	I want to love this game. But any game that makes you watch an ad for TEN MINUTES of double profits is ridiculous. Oh, don't like ads? It's cool just pay ELEVEN dollars. The game is only four levels, so you're paying that for maybe a weeks worth of gameplay. It's insane how greedy these developers are. The market is saturated with tons of games like this. Pick a different one	1	20

558	I would have given 4 stars (one star off because it seems to be a long time between new hotels and can become boring). I really like that you don't need to watch all the ads, one off purchase for that, and that any purchases are all one offs and constant subscriptions but since the last update I have been unable to purchase VIP packs for the latest event hotel so I will be unable to get the 3 star manager like I usually do. Please fix.	1	20
559	Great game, haven't completely as yet. The only problem is the timing for customers/guests is off, the beach bar opens at 12am but the customers come and look at it at 11 and the bar attending is on the way and they leave back to their room and once it hits 12 the go to the restaurant. Same with the customer leave time some nights the hotel is empty because people check out people come to check in but no staff. Also i believe you should add customers to use others facilities like ski, spa ticket	3	20
560	I got really into it and played pretty much non stop the whole day. But...then I got all the upgrades for the first hotel and figured out that your 'profits' won't transfer to other hotels. I guess now I'm done with the game, because what's the point of playing if you get all the upgrades but then have nothing left to spend the profits on? It would be a better game if the profits were collective in my opinion.	3	20
561	It's a good game. The things that let it down are: 1. The restaurant can never have enough staff to service the number of tables and customers 2. Customers will go to facilities that are closed. No one would so that. 3. Glitches. Staff don't work for the full time they are paid for. Customers get stuck and take up spaces in facilities. Housekeepers will not clean all rooms even through there is enough staff and time.	4	20
562	I hope there is a global leaderboard for the most wealthiest player. Also put some challenging AI that could make this game alot interesting like the employee have emotions like a stress that could affect their performance due to intense workplace. Like busy day __	5	20
563	I love this game, isn't money grabbing at all. I dont have to wait hours for upgrades! I love it so much I would actually pay for it. No problem with the ads as they're options and give you rewards. I was super disappointed with the graphics on the Santa hotel, as all the beds and rooms look the same as the hotel before and it doesn't fit in with the theme, plus the "climate control" was air conditioning... in a snowy area? It just didn't make sense, I hope the next hotel at least makes sense	4	19
564	Extremely aggressive monetization and very buggy. If you want more than 2 hours idle time you have to pay over \$10. Fine, I thought, I'll see if I like it first. But sometime when you come back you don't get any idle results at all, as if no time has passed. It's often enough that I've taken to force closing it every time I leave the app. Also, I will frequently watch ads and not get the rewards for them.	1	19
565	The biggest drawback to this game is the speed at which you earn money - it's abysmal. I played almost an hour and time went by painfully slow with very little money coming in. The only way to progress in a reasonable time frame is to watch videos constantly for more cash and to instantly start the next day. It's painful having to watch so many videos. Once you get the "no ads" package the game becomes enjoyable. If you want to enjoy the game, you'll need to spend the \$10 USD for that pack.	3	19
566	Ads hang and crash the game all the time, and this is the only way to make money (you'll spend more time watching ads than playing the game BTW). Makes for a terrible experience. When the game crashes, you have to restart progress and that is also very frustrating. For example, if all your hotel rooms are booked when the game crashes, when you start the game again, a bunch of rooms are empty, and you lose money because your operating expenses are the same. Game had potential. Ruined by buggy ads	1	19
567	I could not be more happy with this game! It is super addicting, a wonderful time passer! You also do not have to spend real money in order to progress, there are optional upgrades you can buy with real money (which are totally worth it) but you can play without these upgrades. 5 stars without a doubt, best hotel game out there.	5	19
568	There is some major glitches. Rm 102 is always dirty. The suite has 2 different levels of end tables and the prices fluctuate with each log in. At one point i was making 102k hour then I logged out and back in and I was making 56k hour. There are several other things wrong as well. Please fix. Thank you. Love this game. So glad that a new level came out. Can't wait until it's fixed completely!!	3	19
569	I got past the tutorial and it is way more dialed down with the unnecessary conversations that stop the flow of the game. I absolutely love this game! It's a great Tycoon game and I spent money to get rid of the ads and get 2x profits all the time. I never buy anything in mobile games, but this one is an exception. 5/5 Fantastic Game	5	19

570	I would rate 5 stars but their is a huge problem. So basically, you complete a hotel 100% and you go to the next hotel, but then you find out that you can't carry ANY money from your old hotel to your new hotel. So you're left ALMOST BROKE while your other hotel just sitting their raking in the dough. And to top it off, the hotels stuff become more and more expensive as you play. PLEASE fix this issue because I'm not watching a million ads just for a few upgrades and this issue made me ragequit	2	19
571	The game is awesome and I love to have it as a pastime. Although I would say that a good way to have endgame content would be to add a longer event that runs for a month or so. After finishing the final hotel it feels meaningless to play for an event that only runs for a few days.	5	19
572	The concept is good, but the game feels unfinished. There's no missions for the second hotel, you can't transfer income from the first to the second so there's no point to the first hotel once you've passed it, and sometimes the game mechanics feel a bit unbalanced.	2	19
573	This is not intended to be a free game. You essentially need to watch an ad to accomplish most tasks. In 30 minutes of playing the game you will spend 15 watching ads. And the game is very demanding and if you spend time away from it, you can essentially lose money if things are not running smoothly. Cool concept but not for me.	2	19
574	This game is pretty good. I personally like managing games and this one is the one that i will remember. I like that you can have more hotels, that each hotel has it's own special upgrades and that once you watch a few ads to get some money for upgrades you will keep wining more money! Great game.	5	19
575	I decided to give this game a try because I loved Theme Park Tycoon but due to some reasons I am giving it 3 star rating. The ads displayed often do no give rewards. They are being watched for no use and it's even more irritating when the rewrd's are not provided. This needs to be fixed so the reward can be provided as promised before watching the ad.	3	19
576	I would have given this game an instant five stars if it weren't for the steep price tags for some of these in-game offers. The gameplay and music is enjoyable; repetitive, but enjoyable nonetheless. Though, I do wish they add new permanent hotels to work on; the event hotels are just way too short for the constant payment to get them done.	4	19
577	Its a great game but i've completed all the hotels...please add more Also i think a time speed up function while online could be fun... Also the purchase function needs fixing...on a couple of occations i have purchased things and its charged me but not added the purchased items to the game and its not always worth the 3-5 day process to get it refunded	4	19
578	This game is good. I like the way that you can still travel to old islands dislike the other games, BUT when you get to the 2nd hotel, it gets extreme. Please make the game easier. Ty!	5	19
579	It's fun I think, It's feel like you really manage a hotel with the money you got and such. But I think the event is kinda unfair.. Because no matter how hard you try, you won't get a star in the hotel, you really have to buy the VIP package to get a star in the event and it's suck. Well, if you're looking for a game to kill your time, maybe this one is good for you tho. Hope the review helps.	4	19
580	I love the game but the last update took a lot of things I have already bought in the game (rooms, suites, casino, pool, spa, nightclub, archery) I'm in the Little Camelot Hotel and majority everything is back at square one.	4	19
581	So far love this game. But so far there is only 5 hotels. So when is there going to be a update to add new hotels? Been waiting a year. And the weekly hotel that you do where you have to pay to even finish it don't count. And I have money invested in this game. Been nothing.	5	19
582	My original review was 5 stars. It was enjoying this game until my purchase has been deleted. I payed with real money and played and then suddenly, my purchase didn't exist any more. Plus my progress was deleted and I was using only one device for this game. I am gone and will never ever install or play any codigames.	1	19
583	Finally! An idle mobile tycoon game that's more than mass clicking! Greatly enjoying it so far! I hope there are endless levels!	5	19
584	A lot of fun, I enjoy games that build up. Though it would be a lot more convenient to be able to have all the money from the hotels in one "account" to use since it just goes to waste once everything is leveled. Plus it would add a fun management angle with needing to keep a level of money always to pay staff across the different hotels. But I am really enjoying it, I hope more hotels are added!	4	18

585	Please add more hotels soon! I bought the "remove ads" feature, which has made the gameplay go a lot faster and it got rid of having to watch all those annoying ads. It made it easier to build up the hotels and within a week, I've completed all 3 hotels. I would have thought it was a waste if I didnt see that this game came out this month. Please add more hotels soon! :)	4	18
586	If you read the reviews, for the most part they are spot on. Graphics are great. It's a time eater. There are a lot of ads but I find that with most games. If you pay for the ad removal, the game progresses smoothly. I do worry about finishing the 5th hotel as it seems people catch up to developers with no where to go above that. My concern with these slow developed games is it will stop working upon update or they change the pay features and make it more difficult to achieve progression.	5	18
587	Very good when you want to kill time. Definitely like the art and design. Only issue I have is I purchased the benefits without watching ads. I start the game after not playing for awhile, the option to double your profit is there but when I tap it and hit claim I only get the normal amount of money shown. Worse off, if you don't tap the double profit and just claim the money, you don't get anything. Unacceptable if Im paying for the upgrade and not getting it. Please help, 5 stars otherwise.	3	18
588	Game is a nice time killer but gets pointless. After you 5 star a hotel it pretty much dies cause you can't use the money it generates. \$10 is kinda expensive to skip ads with the fact I just mentioned. Unless they add more hotels or give you more features the game is pointless after you max all of then out. I'm on the second hotel now and everything is hella expensive. Guess that's to stop you from progressing too fast so they can keep getting the ad revenue. And now the ads wont work.	3	18
589	I don't know if its only me, but I can't seem to get past the initial quest. I don't have engouh money, and I have only 3 staff, and upgraded what the quest told me to upgrade. Been everytime I go into the game, I only get negative numbers. So I dunno, I really, really love this types of games, and i think this has alot of potential, but so far for me, it's just so slow, (hate nighttime), need to use money or watch ads all the time.	1	18
590	This is a great game and I could spend ages playing this. However, lots of minor bugs, some of which were fixed in the update this morning. However the update has now broken the AI as hotel guests now try and go to ski or the spa late at night, get angry as it is closed and then leave. So hotel is only at 50% full every single night (with a 5 star fully upgraded hotel). I would love more hotels as well as there are only 2 currently. Once you complete the second one there is nothing else to do.	4	18
591	This game is definitely my favourite of CODI games as the graphics are great and the economy system actually is realistic. But the guests pathfinding is horrible. Why do I have guests wandering around the pool at 10 pm instead of at the nightclub? It's causing me to lose money for no reason. The guests shouldn't be path finding to a closed facility.	4	18
592	Where most idle games give you lots of stuff and progress fast at first then come to a crawl, this is one of the slowest idle games I've played. It was kinda cool to build up my hotel slowly over time rather than all at once, but as soon as I moved to the second hotel to start from 0, I had no desire to do it again.. it's just too slow to progress	3	18
593	Love this game so much, but there are plenty of little things that could be improved. One particular thing that has bothered me is the hours that services are open. It make more sense to me to be able to leave them open all day. Another idea is the ability to use income from completed hotels to improve new ones. A gift or transfer feature would work well	4	18
594	I gave 3 starts just because the ads problem. Why is the ad videos only working at the first time you play this game? A few hours later I play this game, and the ad videos just keep spinning and can't be played, sometimes the taxi one just won't work by watching one video, I had to watch it twice to make it works.	3	18
595	F me is this game is balanced around watching ads. The idea of the game is fun and good.... but man, the moment where you earn 100x more (not even exagurated) by watching ads rather then playing the game is just downright sad. I don't mind paying money for a good experience of a game. But if I were to pay the whopping 12 bucks to remove ads, I would just make it worse as I won't have a reason to skip the ad money anymore. I literally earn the money of 30 minutes with one ad.	1	18
596	Love it Amazing game. The only suggestion i have is to allow the money earned at one hotel to be available to the other hotels. That is the only reason i give 4 stars. Addicting game and great game play. But one of my hotels racks up tons of money that is pretty much useless, i would like to use some of that money for my other hotels.	4	18

597	I like the game, some of the hotels are really simple to get through and the events are fun. Keep those up! I do wish I could control the service hours of all services. Too many times I watch money leave because they are 30 min late or early. Please give us the ability to control the hours or adjust the hours for longer services. No bar should close at 12am!!	4	18
598	Im having the same issue. I cant even skip night time on the game anymore because the button to show the ad wont load. Im not playing this game anymore until its fixed because I want the x2 profits and skip night time. Update: took a star away because the same problem with the ads is happening again. Will uninstall if this continues. Lost out on double profit overnight because ads wont load again smh	2	18
599	Update: deleting the game after not getting my earnings when entering the game for the 3rd time. Waist of my time... It could be fun. I passed level one and realized that you don't take the money you worked hard making w you and the money you collect in level 1 does not continue to go in your bank for other levels. I play other tycoons that take the money with them from level to level, much more fun to play. I will play this second level to give it a fair shot, but kinda bored.	1	18
600	Great game no purchases necessary unless you want it add free (small one time purchase which makes it more easy to play quickly). Additional purchases can make game play faster but I have enjoyed playing gradually. Only complaint is that you cannot update a whole room at once- which for those of us who like to play methodically would make finishing a level easier. It is a but tedious to update each sink and each bed up multiple levels. Please include an update all for each room in next upgrade!	5	18
601	Gameplay isn't very fun thanks to the lagging and one of my housekeepers always getting stuck in a hotel room. The persistent internet connection requirement sucks. I do, however, appreciate that ads are available to make money, unlike some other money grubbing apps that make it impossible for one to progress without paying real money.	3	18
602	Good concept but it would be nice if the money from the other hotels carried on to the next one that you unlock. Otherwise you can collect all of this money and when you cannot upgrade anything anymore..it feels like a waste. Please consider doing this, and also there should be an option to buy General Managers with the gold diamonds that are earned, investing real money for a GM for each hotel is NOT ideal.	3	18
603	I kinda like this simulation game. Downside is that profits are way too low. And you need an investor everytime, in which requires for you to watch ads that are 30 seconds long. I want a game where I could enjoy playing and not getting pissed watching nonsense ads of other games which I'm not going to download anyway.	2	18
604	I love this game. I can seriously play it for hours if I'm left alone. However, I'm only rating it two stars because the things are getting too expensive and the ads to get extra cash isn't working. Fix this glitch then and only then will I change my rating.	2	18
605	I can't in good conscience recommend this game and there is one big glaring reason why. One of the main components of an idle game is the ability to gain resources while you aren't playing. This game allows you to do so, but only after buying the ability with real money. That's right, what every other idle game gives you by default, this game makes you pay for. If you want a proper and fun idle game experience, look elsewhere	1	18
606	This game is really fun!!! I love pretty much all your games. On thing about this that I don't like is, I just started today, I don't get a lot of money but everything is really expensive so I have to wait a long time before I can buy anything. Also I love the fact that I can watch ads to get money! If that wasn't there then it would be really hard to buy stuff. Hopefully you can put more updates! It is amazing and a really good time killer! Tysm for making this game!!!! __	5	18
607	I have loved this game but today the game doesn't want to load. I have uninstall (which probably means I have lost all my data and I was on the last hotel) then re-installed it. Still, it loads but stays on the loading screen. The developer xame back to me and fix the problem. I was very impressed. I am so happy to be able to carry on with this game. I hope they will soon get another similar game	5	18
608	It's a nice idle game. Wish there was a vacant sign guests could stop coming when there are no rooms left.. but really love this game. When I wrote this review I was in the second hotel and I was really enjoying it. The 3rd hotel is awesome. Then I got to the last hotel and now I'm upset. I worked really hard to get there and it's the first hotel with more rooms. Nothing extra like the beach hotel where you have scuba diving and a hotel pool. Still the first hotel just barely themed.	3	18
609	Edit: They already fixed the login Google Play issue. Thank you so much! Really like this game since the trailer seem really promising, and the graphics is really good. Keep the game up, by maybe building more hotels with different variant.	5	18

610	I love the game its great how you only get ads if you choose to have i mean of course your gonna have ads but most of them give rewards after. I have downloaded this game in the past and you dont get progress fast and nor do you get it slow its more of how you play the game. Honestly i recommend this game just because of how fun it is and how much stuff you get to do. Good job Codigames and keep doing what your doing.	5	18
611	Pay to play (at least \$100 game) To get to the next level you have to buy EVERY item on that hotel floor. This includes the special gem items. Theres ways to earn gems....just never enough to progress to the next level. So you have to buy at \$10-\$20 a pop to have enough gems to progress. It says free but the truth is this game costs over \$100 to fully play by level 4 (and that's just the normal levels)... Youre better off buying a damn Xbox or Playstation. Also the developers don't respond.	3	18
612	Liked it but few problems, in the beginning you are responsible for a hotel when you get 5* for it then it starts making enough money which you cannot rotate in other branches which gets unlocked and due to that you are stuck at that level unless you invest your real money. Fix this as the owner will bear the responsibility of all hotels so using the unused money lying there else it's wasted	5	18
613	It's a good game, but it costs a lot to remove the ads & have other features. To remove ads, you need to pay \$10.99. To double your VIP rewards (not worth it), it's \$5.99 while another feature is \$10.99. I was tempted to remove the ads until I only saw four hotels. I think it did a good job of creating new features (ski area, bar, restaurant, scuba, etc.), but it has potential to be more. It's definitely a battery drainer, & people get stuck in the spa causing me to restart and lose guests.	3	17
614	I really like the game but...Extras (ie. hiring a manager) are seriously over-priced. After paying said extortionate price for an extra, I would not expect the game to then end after completing 4 levels. I was considering raising this issue with support or requesting a refund, but then after around a month of not being able to play because I had finished the game, another level was added. Which I then finished in a couple of days. Just add more levels at a quicker rate so we can continue playing	2	17
615	Very good game. Spend many hours with this game and have a lot of good times. The game progressive is good, doesn't take extremely long to achieve something. Can't resist to watch ads to get more money. Wish I can change opening hours for restaurant/bar/etc; because sometimes it's ridiculous, lol. Recommend.	5	17
616	This was fun for a short time, but now ads won't load. It offers options like watch an ad for 2x the away profit or to increase earnings by 2 for ten minutes, but there are no ads available. The investors no longer show up either, presumably due to no ads. This makes it much more boring and I likely won't play much now unless it gets fixed.	2	17
617	I am really disappointed as I'm one to not pay for things in games so I rely on the adds and they are not working. There is no way to complete the bonus event without the adds on constantly for 2x profits. Its 50/50 if I log in and it allows me to watch the adds. If your willing to spend money then this game is for you. If you just want a challenge and not spend money this game sucks right now.	2	17
618	Remove Idle. Something about this game hooked me. Satisfying progression and curiosity. Ads or not. I did levels watching ads Spent 10 bucks. I hope the developers continue to expand this game. More levels. Using that creativity. The Turkish belly dance! Great Sim game!! But it needs more levels as I've finished the game.	5	17
619	Really like this game! The artwork is the main draw for me, very cute. love the little customers walking around and the items around the hotel. I happily spend the one off \$17 AUD fee to remove the ads and have access to all the feature. Love it when games offer that option rather than continue to gouge their customers for \$1000's in microtransact. To all these people complaining about the cost, er...have you never bought a game from steam ? P.S love the Mad Men ref. Keep up the good work guys!	5	17
620	I love the game obsessed lots of play time but still entertaining, I've spent 20 bucks on the game but the last time I got something, it was the pack for the event where some customers spend 50 percent more and I get a bonus profit suite with promised 4000 cash a day. I didn't get it and I got charged for it. I want a refund or something of better value in game since I kinda got screwed. Otherwise love the game definitely worth the download maybe not in app purchases	4	17
621	i was really enjoying this game until i lost a star on the second hotel whilst working on the third hotel for no reason that i could figure out despite over an hour of trying and therefore was unable to advance. plus too many ads and it's definitely a play to win sort of game. as a result of all of this, i was forced to uninstall as i could get no further in the game. this really bums me out as i was very much enjoying this game up to this point. seems i'm not the only one with these problems.	1	17

622	This is the best idle game you have made so far. I like how it is not just a one-sided game wherein you always move forward. This game will make your progress harder if not taken care of. This tests your strategy skills on which to upgrade first, and I'm a fan of such gameplays. But I won't be giving 5 stars because I cannot contact the app developer for I have something to ask.	4	17
623	This game is ok could be much better. You should allow people not getting a room to use the restaurant or bar as a way to gain more revenue. Once you finish a hotel there nothing more until an event which are hard to get anywhere with in 3 days with only 50k to start. Make it a bit more interesting and I'm not buying the same vip package for every event adjust that model. Can you expand the events or hotels? We should be able to adjust costs or hours of operations.	2	17
624	It's an amazing game but the new Codi Resort is not loading for me and it gets stuck in an endless loading cycle. I have tried restarting the game but it never works. _____ Edit: You were right. My phone is a 2017 model. In any case, other than that, it's a great 5 star game.	5	17
625	Zzzzzzzzz. All 4 hotels at 5 stars. Nothing to do. Boring. Awaiting the developers to actually release content for 1 month now. Updated review since game update: Released new Hotel in Feb. Completed the hotel within 5 days... more boring waiting zzzzzzzzz	1	17
626	I love the business owning concept as very few games are designed to make it feel like real life, but when it comes to the events, it's clearly just an extra way to get people to spend more money on something you won't be able to keep for the next event. That said, if you don't buy the presidential suite pack for the event, you'll be very hard pressed to get 2 of the 3 stars, and it ruins the appeal of the game. Putting very hard effort into something with little reward will make people quit.	3	16
627	Great game over all. Only issue I have is that they seem to be way too heavy on advertising. Most games usually offer 2 hours of 2x income for watching an advertisement. This game only gives you 10 minutes. I would happily pay to have double income if the price was reasonable. They ask way too much. I can see the exorbitant amount of adverts getting old after a week and I'll eventually stop playing.	3	16
628	Was enjoying this game. However ads stopped working so I uninstalled and reinstalled (as I'd done a couple of times before) and it bombed me back to the start! Game play is very slow without watching ads so if the ads keep hanging it's not worth playing... EDIT found out why I lost progress. I was logged into a different Gmail account so even though I was still logged into the correct Google play account it lost progress! Still a pain that ads stop working and I have to reinstall frequently	4	16
629	Game idea is pretty good...I like it. But you can't always be online and you lose money when your hotel is closed. No real grinding opportunities here. you have to pay for hiring a manager. Also there should be some good options for maxed out player to use their wealth on something or contesting with other players in some way. BOTTOM line it shouldn't have to be pay to win	3	16
630	The game is cool, i don't really mind watching some short ads to gain money and all BUT one thing I hate is the fact that you can't transfer money from 1 hotel to the other. I mean, what is even the point of earning a great amount of money if I won't be able to use it after the hotel is upgraded to 5 stars? It's frustrating to have to start all over again in each new hotel and it seems pointless.	2	16
631	Having serious issues with videos and rewards. Sometimes clicking a video doesn't do anything at all. Sometimes the video closes prematurely and no reward is given. It's making it frustrating to do the event hotel when I can't get the 2x profit bonus. Or the VIP guests either. Basically any video rewards aren't working for me.	1	16
632	I've really been enjoying this game, but it is a shameless money guzzler. I know that's par for the course on these kind of games, but they charge money for an upgrade pack for EVERY EVENT THEY HAVE! I spent \$10.99 on an upgrade for an event, thinking it would be there when the next event started, but now it wants me to buy another one for this event. Extremely disappointing. I'm not sure if I'll be continuing to play this game anymore.	3	16
633	This game can be fun but it does try to push you to spending real money and it is VERY expensive. Its clear the challenge to get a manager is just a gimmick to get you to spend real money because the goal and cost of everything is extortionate but don't worry they have convenient booster packs you can buy to help progress. Gameplay is mainly watching ads. Your money doesn't transfer between hotels and you can only get offline profits for one hour. All about money.	2	16

634	It would be very good if you guys added some more minigames or increase our control of the hotels. And sometimes something get hidden by other things, so it would be awesome if you made this 360angle view, i mean it's boring to just zoom in and zoom out. Hoping you guys will show your magic by Improving this game as soon as possible or before i get bored. And one more maybe you guys should make our pocket of all hotels one because hotels we fully upgraded become useless after that. Thank You _	3	16
635	Great game. But once you have completed a hotel and gone to the next, the fact you can't use the old hotels money is pointless. There's nothing left for me to upgrade in the first hotel yet moneybis racking up. Other hotel is idle. Gets boring after a whole because you go so far just to start at the beginning again. Change this please.	2	16
636	It's a long game if you want to finish it without buying items or watching ads. It took me a year and a half to finish it. In the last hotels, it gets laggy while moving around the hotel. But when I'm upgrading room's stuff, it freezes for a second or two.	2	16
637	This game can be fun. There are plenty of issues. For one the VIP cash videos dont always work. The cash flow could be improved some. It feels like a very big grind to get anything improved. Especially when you get a new hotel. You will lose a few staff pretty quickly because you arent generating enough money. Hopefully you guys fix the issues soon or at least keep this game updated frequently.	4	16
638	The game itself is pretty entertaining and engaging. Lots to do and explore, but also a lot of decisions that will affect the bottom line. The only 3 issues that I have is: 1 Limited number of people you can hire for specific jobs. Which in turn you have to pay attention to P/U the slack. 2 Kitchen staff take break right during peak hrs. And maids follow straight lines that sometimes waste alot of valuable time. 3 Now that I reached my final Hotel there's nothing to do.	4	16
639	I love the game but once I reached the third hotel, any time I click on the investor to watch the ads for more money, either nothing happens when i click watch ad or I watch a few seconds of the ad and nothing still happens. Please fix.	3	16
640	I like the game very interactive but the challenges i have completed but i haven't recieved the rewards therefore I cannot progress in the game. I'm getting really annoyed and the game is no longer fun for me. Please update and fix tbis and i will re install and change my rating.	1	16
641	leuk spel	5	16
642	I love this game so far! My only problem is that sometimes the Dancing King and/or taxi offering glitch. I click on them to watch the ad but it just closes out and doesn't give me the ad or the money. Also I have a concern about completed 5 star hotels. I'm asking for a way to incorporate the previous hotel's savings into the current one. This is because right now I have The Codinential completed, and no way to spend the money. The money just keeps piling up and I have nowhere to spend it. Thank	4	15
643	A truly enjoyable game, but if played for more than 15-30min the ads stop playing and you don't get any of the perks (instant sunrise, investor, travel agency). I've tried closing the app and reopening as well as restarting my phone, but that either only fixes the problem for a few minutes or doesn't fix it at all. Once a hotel is somewhat established these perks aren't as important, but in the beginning the speed at which you make money is negligible and it quickly gets boring.	3	15
644	I love this game. It's simple and fun to use. It has its normal challenges for these types of games but my #1 complaint is once you complete one hotel and move on to the next, you can't use ANY of the money you make from your previous hotels to use on the next one. So it takes about a week of consistently playing and constantly watching ads to make any progress at the beginning of building your hotel. Can the developers tell me why?	4	15
645	I was enjoying this game for a little bit until the ads. You HAVE to click on the ads to even get anywhere in this game and for the ads that are supposed to give you a "reward" they never do! I sat looking at a ad for close to 2 minutes and nothing I didn't get a reward and then the game crashed.. super disappointed	1	15
646	The queues are too short on larger hotels and the pathings are bad, and the ads are a lot, but once you get past all that, the games decent and the art is nice ///// Later edit: the game is really boring after you get to the 3-5 star range, especially for the later levels. Hell, all I do at that point in the game is boot up the app, watch the ad to double my offline income, and then close the app. Repeat that process every two hours until you get enough money for those last expensive items.	1	15
647	Game is addictive but many times even after I click on Watch video which comes while the dancing king appears, the video still don't play at all. Even to fast-forward the night , the video playing fails couple of times. I have to close the game again and again to get the money from dancing king. It's a bug. Please fix it.	3	15

648	I've played a lot of your games and all of them have ad issues. This one is particularly bad. You can watch 1 ad and then you'll have to close the game completely if you'd like to watch another. When you're trying to get the 2x bonus and have to restart the game for every ad you also lose time. Sometimes when there are like 5 minutes left of the bonus the game will cancel those 5 minutes when you restart the game. The gameplay itself is a lot of fun but this ad issue makes playing it tiring	3	15
649	The game and app is fun. Just a lot of bugs. Im unable to play an ad after I've played it once. It requires me to restart the game and am unable to just continue on while playing and watch and ad in between while my hotel thrives. Eveytime u close the game to rest the ad, the game loses its progress. Its quite annoying and the bug needs urgent fixing.	2	15
650	Really enjoyed this game, the ads placement is really well done, you can play the whole game and never watch ad but progress will be slow. Had to drop a star, been over two months since a new hotel and theres no reply value on the others. You collect cash you cant spend and do event hotels for bonuses that you cant use as all hotels completed with no option to restart them. To sum up. 5* game when you first start but once completed theres nothing left to do so 3 *	3	15
651	So the game is great and I have understood it has a lot of playability factor. But suddenly the advertisements stopped after the first 2 hours. So I can't understand if this is a glitch or a cap since it is very difficult to move forward without the advertisements. Could you please address!!!	4	15
652	To be honest, the ads made the game look boring. The only reason why I downloaded it was because I was bored with my other games, and the ads for this game popped up dozens of times. But it IS a fun game. I didn't think I would enjoy it as much as I do (or at all). It keeps my interest and keeps me coming back the next day. I don't really have much to complain about. Once you find a good strategy, the game is real enjoyable! But sometimes when you watch an ad, you don't get the reward.	4	15
653	I love how this game is based off the money you have, theres no labeled level you need to be in to be able to do a certain thing. One thing I wished they could change is the money transfer. I currently am maxed out of upgrades with my first hotel and now I'm making so much money but I cannot spend it, while my second hotel is in so much debt. It would be really neat if my money from my 1st hotel can also be of help to all of my hotels.	4	15
654	Most expensive in game microtransactions I've ever seen in a game. Ever! The money earned in game to money earned watching ads ratio favours the ads. If you want a game where you watch the same adverts of the same equally greedy microtransactions heavy games, this is the game for you. Don't let the charm of this game fool you. It's quite shallow once you get past the first hotel.	2	15
655	This game is relaxing and a lot of fun! It's exciting to manage & upgrade different hotels! I wish there was a way to share proceeds from completed hotels with other hotels you are currently upgrading. Otherwise, what's the point of completed hotels continuing to earning millions when theres nothing else you can do with the proceeds ____the ONLY reason it didnt get 5 stars.___ *Today game is throwing error 4 code when opened and cannot be played*	4	15
656	App keeps crashing. Won't load ads and freezes. I've been losing money and customers randomly. As of May 12, I have the same issue. I notice it mostly happens during the day and at night around 8pm it'll work good for a couple hours then crash again.	1	15
657	The game needs more hotels I have beat all the hotel levels and all that exists are the events that you have to pay for to get the full experience of the event, where you win character's that could potentially help you in the hotels that have already been beaten or finished. (Update) their are still no new hotels even after the recent update.. this has caused me to lower my rating the game is fun and stimulating but it comes to an end..what a shame.	2	15
658	I'm amending my opinion again now that I've reached the end as far as I can go. It will be so good if the owners will update the game with the power in the Arabian Resort can be upgraded so that I can finish upgrading the "ruins". Also, add the next resort to move onto please. When are you going to upgrade so the Arabian Nights Resort can be finished and we can go to the next resort? ____ Obviously the game owners aren't interested in going any further, so I'll just uninstall it. It's a pity.	4	15
659	The game should be renamed "watching ads tycoon" because the time spent in the game, literally 90% is for watching ads and the rest for actually playing the game. (Except if you pay money to remove the ads) Unless you watch ads you won't be able to do anything in the game. No skill or brain needed, as long as you watch ads you won't go bankrupt lol	4	15

660	Its a machine to watch ads not a game. U can only progress and earn money by watching ads. It would be better if u have kept some timed target, quizzes anything but simply we have to watch ads, earn money and build the different places of a hotel.. not at all a gaming experience but an ad watching experience... uninstalling it right away	1	15
661	Fun game, wish there were more hotels though. I'm almost done with the last hotel and bummed there's no more hotels to do. Edit: Changed rating to 2 stars for recent update. New events game type is glitchy, new guests can't come in, rooms are glitched and can't all be cleaned, etc. Disappointed.	2	15
662	Fun, Until..... After completing all the tasks, and they only gave me 14 out of 15 stars, so now I can't start the final hotel. I purchased everything and still nothing. Now the game is starting to get glitchy. Housekeeping is pushing their carts on the city sidewalk, laying facedown in their break room, chefs are coming to work in the middle of the night after all the guest are asleep. Front desk clerks keep their backs turned away from customers. Just weirdness.	3	15
663	Decent time killer. Finished all hotels and nothing left to do. Maybe a reset option with new challenges? Unsure if there's a notification for the small codiresort events	3	15
664	I personally find it a good game and all but please fix it where the customers wait in line for a table but there is literally 2 tables open.	5	15
665	A fun time killer. Ads are completely optional, you dont have to watch any if you dont want too, and you still progress at a good pace without them. The main thing that I find kinda offputting, is once you upgrade everything in a hotel, all it does is just make money for you. Theres nothing more to do. You cant even send profits from one hotel to another. Great game overall.	5	14
666	I love this game. I like the themes around each hotel. The developers have given a lot of thought to detail which I like in a game. I would love to see an "upgrade all" button especially when I know I have enough funds to upgrade the entire room. Also my game just started shutting off after the update so that's a little frustrating.	5	14
667	Love the game. Very addictive and fun. The only thing, in my opinioun, that could be added to make the game more fun would be a money transfer system for different hotels. Not only would it make the other hotels slightly easier, it would also remove the annoyance of so much useless cash piling up as well. Other than that, best idle game I've ever played!!!!!!	5	14
668	The game itself doesn't need any input from you other than upgrading things as much as you can, which quickly takes a lot longer unless your spend money or watch a lot of ads. All in all there's only 4 hotels, so in the space of a few weeks you can finish the games by popping on to double your bonus every two hours, upgrading, and repeating that. If you wanted to actually watch the game, you can, but there's little to nothing in the way of interaction.	2	14
669	It is a fun game, but content is limited. Also, I don't understand why we can't utilise the money made from completed hotels to fund the new ones. I would rather things be a bit more expensive in the following hotels rather than just have the money collecting and being useless. It also seems that you can't get 5 stars without using in game currency. Again, it would be a good opportunity to give the options of a higher price OR gems. Good game, but definitely room for improvement.	3	14
670	Loved the game. However, after i got onto the 2nd map, I'm not getting my rewards after watching videos and my customers would disappear after closing the app and returning. I.e. having 10/10 occupancy before closing the app. Once it's off and back online in less than 10secs, it's down to 4/10, with all the double room's occupants missing. It's frustrating and i cant progress much.	3	14
671	Unplayable!!! Really enjoyed this game for awhile as you have to take time can't just fly through it but it has become unplayable as you have to use adds to progress in the game you can play for a little bit then adds won't load at this point I just delete the game because it's not worth it to me to keep letting them know anyways hopefully yall have better luck	2	14
672	Love this game! I've already completed all the levels. It's beautifully designed and although earning income is a little slow at first it all feels very rewarding! UPDATE: After yesterdays update the quests work perfectly! I absolutely can't wait for more hotels to be added :) easily one of my favourite idle games that you guys have made! Thank you!	5	14

673	This is a developer that listens to it's players. Codigames different idle games have always been fun but I've backed away from some of them because you spend an excessive amount of time watching videos to progress rather than enjoying the game. Now incorporating a feature where you can eliminate most videos for a price was an EXCELLENT idea. Players now have the option. \$10.99 seems a bit much but developing games does cost money. Good job on this game!!	5	14
674	Overall a good 4 star game. Great quality and it has a rare feature; negative income. Most idle/clicker/tycoon games dont incorporate expenses into the mix. Also, Yahoo article ads are quality in the fact they never glitch out, unlike other types of ads other games have.	4	14
675	I love this game! Its slow to start at first with a limited income but you get extra money from the dancing money man and from the parking lot/rooms. I havent played the event very much because its expensive and relies on you constantly playing it and the event seems p2w. I have bought the x2 modifier and it does help! You have to be a little thoughtful on what you spend your money on. I gave it 4 stars because of the event and the hounding of the paid managers. But this game is really fun!	4	14
676	It's a decent game, but nothing really out there for an idle tycoon. Definitely a cash grabber but, them's the breaks. Don't really have any complaints except for the fact that theres no way to tell why customers get angry. You just see a pulsing anger mark above them and you have to guess. Was it the resturant? The bar? Their hotel room? The cleaning service too slow? Theres no way to tell. If there was like, a customer reviews tab on the stats page that would make that easier. Just a suggestion.	4	14
677	Cool way to past time and really fun, if you like upgrading things for people. I played the prison version of this game and it was fun for a while but eventually all my progress got erased some how so I stopped playing. Hopefully this one is better.	4	14
678	DO NOT BUY THE VIP PACK!!! Warning to those even close to thinking about buying the VIP pack during the event hotels for the special managers! I bought the pack, my account was sucessfully charged but the goodies that I paid for never came before the event ended. Said something that the server was down. Upon requesting a refund I was assured that I would see it "in a few days" by customer support. That was 27 days ago. My last 3 emails have been ignored. Poor business practice to me.	1	14
679	I really enjoy this game but I do have a few issues it cost so much to upgrade each room, the guests need to walk faster they take so long to get to the restaurant that by the time they get there it's closed the rooms are too far away from anything especially in Blue Crystal Hotel and also there are a few glitches in this hotel the showers that are in the set of rooms on the right are facing the wrong way so guests are coming out there room and going into the next and going through the wall	3	14
680	The game is super relaxing and fun but here's the thing. Sometimes the app glitches and gets eternally stuck on the connecting screen. I have resolved my refund issue by getting it directly from Google. I hope this eternal connecting glitch will be fixed eventually. I don't see why any connection is needed to clock in those free gems...	4	14
681	For some reason there's always a glitched out ai/costumer that just stands in the lobby the whole time? Update: after playing for almost a month and half, invested \$20 into the game I started seeing a few things that DON'T MAKE Sense. For example if you exit out of the game a soon as you get back, your money, and time of day is accurate but all of the sudden you have half of the customers you had before you logged out? Also the customers glitch out all the time.	1	14
682	I will give this game 5 star but this is the reason: we can't transfer money from one hotel to other so, if your hotel is in max level the money are stored as waste. But transfer money to one hotel to other is possible in real life but why it's not possible in this game. Pls make a option that we can transfer money.and there is no landscape mode. And important thing is pls respond to my comments!!	4	14
683	Kinda shocked you want me to pay 11 dollars everytime the event runs. Bought it once thinking it would be a one time purchase and would roll over to future events. Nope! Really disappointed that it wasnt made clear that it only worked for one event.	2	14
684	This review is for customer service/saving game data. I reinstalled this game a few days ago and all my game data was lost, so I contacted customer service, gave them all the requested info to hopefully find my account. Unfortunately they were unable to retrieve my it and gave me \$40 worth of refunds on a portion. Told the rep I have since changed cards and she told me it would be sent to the bank. Today I get email stating my refund couldn't be process from giggle pay due to payment method.	5	14
685	Everytime I accomplish a task I just keep getting error reports and not get rewarded. I can't even play the game cause everytime I tap the screen I get this popping up. Highly annoying!	2	14

686	Hi I been playing this game fore 5 Year now and I upgraded and unlock everything now and I was wondering if you guys can add another hotel?	5	14
687	This games clearly cool! I love this game so much and with not to much adds because if you need some money you can use adds soooo cool app i recommend you to download bye i have to play the game_____	5	14
688	This game is too much nice but my reason to four star is that my all things which were in my old move has been gone and my connectivity was also .	4	14
689	I really enjoy this game. It's adorable and entertaining. However, there are a couple complaints I have been experiencing recently. There are some glitches that make the experience annoying. I click on the dancing man to get some money and it'll glitch out where the ad won't load so then the dancing man leaves, I get no money and have to wait for him to come back. There is another glitch where I exit the game quickly, come back and 4 of the rooms are empty when I had them full before.	3	13
690	Was really enjoying the game until I completed all the missions on the 4th hotel, decided to check for updates and it won't work. Just keeps spinning after 30 minutes I gave up. So I dropped by star rating and will not be playing anymore, the update worked after uninstall but it was not worth the bother. So i can swipe between rooms big whoop. Could have included a few missions in that upgrade too. Oh well. Was fun while it lasted. Have fun folks	2	13
691	I played a lot of the codigames idle-tycoon games and this one is my favorite. It's more realistic than the other games and I find it more fun that the others. I especially like that you don't have to wait for the upgrades. I also really like that different hotels have different setting. I read another review that suggested that we use money from the last hotel because the money just keeps coming with nothing to buy. I really like that idea and I would really appreciate the game more if it did.	5	13
692	I have been playing this game for almost a month and have really enjoyed it. There's only one problem I've run into, hence the reasons for 4 stars. I'm currently at the Stanley Resort, and every time I leave the game, even for a minute or two, all the guests in my double rooms just disappear. I'll have the rooms filled up, leave the app to check on something real quick, come back, and all the rooms are suddenly empty. If this was fixed I'd give it 5 stars.	4	13
693	I enjoy this game a lot. It is fun. I think the new pricing on the events is ridiculous. I shouldn't have to spend like 35 dollars to get all the boosts. These events last 4 days. I dont see how you can justify charging these amounts. I would gladly pay 16 for all of the boosts but the way you price them now is taking advantage of your customers. I just want a new hotel. Thank you	3	13
694	This game, along with the Prison Tycoon game, rels heavily on the pay to play or watching obnoxiously long ads to get money to progress. Getting money is slow going and upgrades to get more gets costly very quickly. It's a good idea of a game, poorly executed relying on ads so much. I get it's a free game and needs ads but this is a bit over kill...	2	13
695	I have decided to change my review but it remains 1*. Why is this? Basically they added an extra area, which I finished, but okay, not all bad. However, they added events. Now this isn't bad, more content is never a bad thing. Its just broken as after almost 6 days I wasn't even half way to 1* and that's with a purchase. I guess their hunt for whales is an ongoing venture.	1	13
696	DON'T PLAY THIS GAME OR SPEND YOUR MONEY. I did give this game 5 stars, and even paid a couple bucks for a couple of perks, and diamonds, and subsequently lost all progress I made in the beginning of the game. Now having to start over without any of the progress I made for a 4 star hotel. All diamond purchases are gone too. I want my money back. Terrible programming and thievery.	1	13
697	At first I've enjoyed it a lot.. But there are some cases that when you reached the highest level of upgrading your room facilities it turns up that you have nothing to upgrade, you'll need to get a stars before you invest in other hotels available.. Instead of using stars why would you convert it to money that we had in our hotels income? Seriously what would be the use of our sales in other hotels and we have nothing to upgrade anyway.. The ads though quite annoying.. Thank you..	3	13
698	So ever since march 30th, the game has been messing up for me. First it started with the investor not showing up anymore, then the ads would just keep loading. So now the game is slow and not that enjoyable. Please fix,i love this game and i esnt to play it while enjoying it.	1	13

699	Watching ads just to earn money to build a hotel that doesn't make any money in the beginning..... I would hardly call this fun or a game. You can not expand to install more bedrooms.... The chef cost 200 daily but you don't earn enough to keep the restaurant open daily. So I'm guessing the developer wants you to spend money to get the game started?????	1	13
700	Great game, I used to play the Idle Prison Tycoon game and i found this one to be much more enjoyable overall. My only point would be that the restuarant open times seem way too short for my guests to actually all go and eat before the place shuts down. It's not a big deal because they usually go to other attractions anyway.	5	13
701	Really enjoy this one out if all the tycoon games, I'm a busy mum so I can let the ads play to build x2, however last few weeks they haven't been loading and the only way to do it is to come out of the game after every video and load it again which is way too much hassle.	4	13
702	This is by far the best tycoon game I've ever played. Alot of games are empty and have no meaning or use. This game is much better and I love playing it. If you like a challenge this game is also for you. And it really shows how to manage money and good business strategies. Great for kids	5	13
703	6 large icons related to paying real money stuck on one side of the screen... kinda says it all. Also, I recently watched ads so I had 1hr 30mins of the x2 bonus. Came back 30mins later and it was all gone.	2	13
704	This is such an interesting game.But their is only one problem that the money earned by one hotel can not be used in another hotel . But it's really beautiful and very good game. I can't bored while playing . All the things in this game are very beautiful .I request to the owner of this game that make one more game like this . I really love to play this game . I want to give this game hundred stars if I can.I don't now what to say about this game . I thanks to the owner for making this gam__.	5	13
705	Nice game but some things don't make sense. All the guests are up same time and rush to eat. You have 16 tables all the chefs so can't go faster but customers are queuing, not take empty tables. This should be reworked to customers sitting and time spent at table depending on how many chefs. If too long then have them unhappy and leave. Staff is cleaning the rooms while customer is having a shower... It takes the same time to tell a customer that the hotel is full than to check him in...	4	13
706	Very easy and enjoyable game. I like that it is very easy to play and you go at your own pace. Also enjoy how it is being updated, another thing is that if you do everything just right you can beat every level really fast. So far I have 30/20 gold stars and I'm just waiting for the next level. Only thing I wish there was a to make it so that instead of clicking everytime you could hold the button to multi buy something. Other them that good job game creator!!	5	12
707	I LOVE this game. It's not a game that you can blow trough quickly unless you spend money. The only issue is that the ads doesn't load about 60%-75% of the time. And even then the failed ad load only works for night into day. I think that if the ad fails on your part that we should keep the reward. Overall a great game	3	12
708	Fun! I am a hour in and having a blast. My only criticism is maybe lower the price on the ad removal service. I hate ads as much the next person but not for \$11 of my hard earned dollars on top of needing to purchase managers to run the place while you are offline. I know it takes a lot to create this game but as a consumer I wouldn't pay that for 1 service.	5	12
709	I only gave it three stars because after the update or whenever the update was because my phone automatically updates. the game quit giving me coins when I watch a video so I don't know if it's a glitch and it also takes a very long time to load when I open up the app. But I'm not sure what the problem is I just hate I can't get the money that I earned for watching videos but the game is awesome I love this game no problems besides that. Would like to compensated if possible for missing coins.	3	12
710	This idle game is perfect me! The upgrade for instant claims and skipping all ads bought by husband for me is really awesome. Great job for the app maker. Also want to ask if you could add some tips on how to minimoze losses.. I've got some bsr with word losses on it but couldn't find out why. Lol. Looking forward to more interactive upgrades from this app. Thanks a bunch	5	12
711	It is indeed a nice game. Thought the fact that you have to start from scratch to build each hotel and there is no option to transfer the money that you are still making in the previous hotels, is really frustrating and definitely makes people eventually delete the game from their devices. You only have the option to watch again and again ads to gain some cash to invest in each hotel separately. What is the use of the money that the previous finished hotels are still making? No clue.	2	12

712	Very nice game, I enjoy it a lot. The only reason I gave it 4 stars is because of two details. First off the marketing expert (\$5.49), general manager (\$10.99), and no more adds(\$10.99) are separate to purchase. Can't there be a separate deal in which all three are put in a deal pack for only \$20? Also, sometimes it feels like the game is very slow. Adding an option in the settings that makes the game double the speed or maybe even triple would be nice.	4	12
713	Very good game, only issue is once I completed my first hotel to 5 stars I was still earning money but I could no longer spend it, may be useful if you just have the one bank account for the entire game? Seeing as though the prices rise as you open more hotels anyway, would feel more realistic with that! Other than that, the only mobile game I've continued to play with out becoming bored!	5	12
714	Outstanding. I mean, if you buy no more ads and the 2x unlimited its pretty much a time killer. I love it. Yeah you may spend money to get somewheres but they use it to bring us more of these games. I played quite a few of their games and still enjoy it. Would like a way to make money quicker as its taken 3 days to pass the 1st hotel but other than that i love it	4	12
715	It's a good game with lots to do. But you got greedy trying to charge a stupid amount of money to have double profits and the ads and stuff. On top of that for watching a 30 second ad you only get ten minutes double up time. You've done good with other games and your going to get greedy now and ruin it? Should be 30 mins for an ad as before with others and stop trying to extort players. \$15 is greedy	2	12
716	Would be 5 stars but with it being so slow in the beginning and me having a feeling there isn't much to do after you 5 star everything, only 4 stars. Great time killer. Good idle game. Just need more to do to keep up looking forward to what's next that we don't have to wait for unless its a progression level.	4	12
717	This is one of my favorite games to play! It's quite relaxing on stressful days, and for me at least, buying the no ad option was worth it. I do have a question about the events though, if you buy the VIP pack for the event, does it carry into the other events? Since I have fully upgraded everything I have, the events are all that's left. If the VIP doesn't carry, I would have to buy it every time I did a new event, and that's just not worth it.	5	12
718	Beat the game in about two-three weeks. Loved it, was thoroughly invested. Adored the different hotel themes and seeing how they grew as i upgraded things. But now I've paid \$20 for a game I can't do anything with except sit and earn more money with nothing to spend it on??? Is there more content coming??	3	12
719	The game would have been lot better if we can use the profits made by our previous upgraded hotels on our current hotels.. I mean every time the new hotel is opened we have to start from scratch with no money.. All that hard work and time spend on the previous hotel is for nothing. That's really bad.	1	12
720	I would give more stars because it is a good game but you spent more time watching ads to advance than actual gameplay. You can get rid of ads buy paying a small fortune GREEDY GAME MAKER. USE ALL THIS MONEY FROM ADS TO MAKE A BETTER GAME. There are way better games that don't even make you watch any ads check out !!!!! UTOPIA ORIGINS !!!!!	1	12
721	Was doing hotel event I had everything built including arcade disco, I had one star and 15, 807, woke today no arcade built and not my star and only 7, odd in total earnings, not the first time it's done this, fix the game as I'm on the last hotel and like the game, but for the events not keeping the money or the parts built,,,,,my last comment was removed,,, I've completed all hotels now there is nothing to do, more hotels please	1	12
722	Overall this is quite good and exciting game, but i think there is small weakness point in profit. I don't know if this game have this feature or not, but if this game have transfer profits among the hotels, it would be better. Thank you.	5	12
723	I have been waiting so long for the ads to load and it automatically shuts off and wont give me the money of the ads. Why did I spend 10 minutes looking at a screen that says loading and not get anything from it? Give me back my coins	1	12
724	Overall I really love this game! it takes stradigy and spending your money wisly. Its one of those harder idle games but a really run one. For now i will give it 4-stars becuase there are a few things they could fix. Sometimes when i watch a video it dosn't give me the rewards. And another is, it lags for ME way too much and i dont really enjoy the game when it does but overall I really enjoy the game!	4	11

725	This game is fun but you guys give us options to watch ads in exchange for the game's currency but it's a crapshoot if you get that money. Or sometimes when you click on the ad, it won't even play and almost immediately boots you out without getting paid the money. This is the only reason why I can't give it 5 stars, which is a shame because it's a fun....Update as of 3/1/20 - the situation, please fix, it's ruining the experience	3	11
726	It's a great game I have only experienced a bug once it was after an add which there are ads but it froze for about 30 minutes but other than that AMAZING GAME!!	5	11
727	This is a great game! It's a great way to pass the time. However, I would give four stars if you could make it less about relying on watching ads to progress. Another VERY IMPORTANT thing to change for five stars would be to make it so that you could use the money from your previous hotels to upgrade your new ones. Would make more sense this way.	3	11
728	Its a great game as you need to think about how to manage finances and etc. However to remove adds from the game or buy a manger costs way too much money and is unreasonable, and i dont like the fact that you cannot transfer the money from one hotel to another, therefore im giving it 3 stars. It would be better if you solved these problems and also made a global competition in the game for like bitcoin or something. Make the game more interesting for a stronger purpose.	3	11
729	Started playing this game a couple days ago and I am Obsessed. Its really fun and addictive. I just wish that the money from the previous hotel could be used in the others (since I own them and all), so tht it wouldnt be so difficult and expensive to upgrade and stuff, but it makes it more challenging tht way, so not really complaining. Also, I havent been getting investors lately and Im not sure why...	5	11
730	The first two hotels were fun to play. The third one is quite annoying to play. The guests only stay for one day therefore the restaurant is completely empty on the second shift because the guests are leaving. New guests if they check in after 6 PM they wont be able to enter the restaurant or beach bar because they spent too much time walking. Also the guests don't know the working hour of the facilities. Nice game but needs improvement.	4	11
731	It's a good game and it had potential, but once you reach the higher level to update each segment you want there's not much to do, your hotel makes money but then again there's nothing else to spend your money on. Maybe add more levels of update or let the money be transfered to other hotels?! I'll play while there's hotels to work on but once I reach every level on each hotel then I think I'm not going to continue playing it.	3	11
732	The game is fun if you play a few minutes every other hours. For a few coins, you can skip add, add a few boost. But as you can't transfer your gains from one hotel to another, it's pretty much meaningless. Worst, they implanted some "Limited Time Event" where your previous purchase aren't available anymore and request you to pay more money for options you previously had in the "main game". Tldr; fun but kind of a money grinder.	2	11
733	Good game but annoying. As you upgrade rooms or services the star rating increases. However despite upgrading everything to the maximum I can only get 4 stars at each hotel. To get to the 3rd hotel you need 10 stars (5 from each previous hotel). Gems are awarded for completion of tasks (such as upgrading a bed to a certain level) but you can not earn enough gems to get all upgrades available. The only option is to pay for gems with real money. Seems to be a fault with the game.	2	11
734	Enjoyable and relaxing but one hotel is so spread out, guests don't get to do much, spend too much time walking to and fro, everything is open at the wrong times, and check in/out zips by in 4 hours!!! The restaurant has tons of seating but only serves 12, pool is huge but not really in use, spa is miles away and vacant most of the day. Loads of improvements could be made to this level.	4	11
735	It's not that it isn't fun, it's just that there are issues. I have upgraded everything in the 3rd hotel and have a full staff but I still can't get the 5th star so I am stuck. It sucks that you can't use the wealth you made on earlier hotels when you move to a new one. Some upgrades are REALLY pricey. I hate how there are so many tables in the restaurants but you can't use them all, but if you don't buy and upgrade them you can't get the needed 5 stars.	2	11
736	Too Easy and Too Basic. There's absolutely no intelligence needed for this game. It's mind numbingly boring. All you can do in the game is buy items for the hotel to increase revenue and hire/fire staff. There's nothing else to it. There's no decisions to make, so scenarios or events that happen. It's just 'customers come, stay, then leave'. And the graphics are appalling!!	1	11

737	I love this game. I even spent some money so I could get triple the money when I log on each day. I've been playing for about a month or so. The reason I'm only giving it 4/5 is I've completed all the levels and go on further. They have been adding some short-term challenges, which is okay except I completed the first one. Then when they did the next one, it was exactly the same as the first except the only way you could get a presidential suite was to pay money. And I wasn't about to do that.	4	11
738	I've decided to change my rating. It is a really good game the only complaint I have is the pricing for premium content is too high for my liking and without it it's impossible to complete any of the timed events that happen randomly. But the main part of the game is is good you just need time to complete things. Which I don't mind.	5	11
739	I would give a 5 star if there was a way to transfer money from one hotel to the other. Or money that you make from hotels was usable at all of them like the gems. It would make it a lot more enjoyable. I give up after a few days because I get stuck due to not enough money. A lot of the add ins to the other hotels are expensive. I also find when I go to double my profits after being away for a couple of hours it's not giving me the extra cash. Which is frustrating.	3	11
740	I did finish all levels and like all Codigames recommend playing with the No Ads. But must admit, this is my least favorite. Way too many rooms in the hotels and thus way too many repetitive clicks. Once u have built a few rooms all the rest become mundane. If more levels added I hope there are more unique items rather than tons of rooms	4	11
741	I had play this game for quite some time now as I am at Arabian Nights Resort. I noticed my videos 2x rewards dont work although i finish watched them. Also when i left the hotel with 2x profits, I found out that i am losing by negative numbers of money. That doesnt make sense at all. It's a slow game each time u begin opening new resorts. But i cant stand with these bugs. Please put some real fix improvement.	2	11
742	There is a very annoying bug in the game whenever I leave the game with all of the rooms occupied and then I come back again 7 rooms are empty. I tested it to see if it was just because I left the game for a long time but it isn't because I left it for one second and 3 rooms were empty so now I have to try and fill them up. If you can please fix this because it is such a great game.	3	11
743	Ever since the latest update my game hasn't worked like it used to. It used to take me back to the current hotel I was working on and it doesnt anymore. It takes to just whichever one it wants which is very ANNOYING considering that I watch the ads for double profit and it doesnt tell you which hotel it's on until you've watched the ad. It is beyond aggravating to watch an ad for a hotel that you're no longer working on. I just wanna open my app and go straight to my hotel I ended on but no.	5	11
744	I'm adore all these cute games that Codigames has been throwing out but I'd like to see more variety of decorations and such between levels. The two giant heads and stack of cash in the bottom left corner do not encourage me to buy anything, they just clutter up the screen and are annoying. It would be more appropriate to have them in the store to buy gems.	3	11
745	Finally a more realistic idle clicker game!! Where 10 minutes after playing I'm not already a trillionaire. Love how you can lose cash. So far everything about it is great. I've been getting my rewards from videos, no glitches. I will report back as time goes. So far great Job C!	5	11
746	There are only 5 levels of hotels. The paid upgrades are useless without additional levels. Fun game but there is nothing to do once you complete the 5th hotel (Arabian Nights Resort). If there were additional levels or ways you could start a new hotel, apartment complex, condominium, etc. then I would give it 5 stars. 1 star is because the game is dead after completing 5th hotel. There needs to be additional ways to grow as a Hotel Tycoon.	1	11
747	It's an enjoyable game it's just that after completing the first hotel with 5 stars & complete all the tasks; there's no reason to go back to that hotel. There's nothing to do. Even the money you make doesn't transfer to the next hotel____. Other than that I'd give it 5 stars. Edit: Yeah this game sets you up to spend money in order to advance. Not really "free". You'll also notice that you'll complete all the tasks and STILL not receive your 5 stars fair & square. DELETE	1	11
748	This is not one of those games harass you with constant ads. However you still have to watch ads over and over and over and over. Because the game's in-game economy system depends on the ads. Yes, there is a payment system that removes all ads. However even if you pay the money, it feels like cheating. I wish these mobile games stop depending on the ads and give us proper games. But I am sure developers are happy with this ads based system and will give me a copy/paste reply.	2	11

749	This is a tentative 5 star review. First, this app is amazing. A great time killer for anyone that enjoys these idle games. You wont fly through the stages too fast and getting 5 stars feels like a reward. My only concern is the amount of stages. At 4 hotels to build, I feel like I'm about to max out without even being a month in. Updated: Yeah, 4 stages isn't enough. Edit 3/12/20: nah, this game is legit for what it is. Easily my favorite idle game.	5	11
750	Hi i really enjoyed this game. Its fun but would be nice if you add a power up that makes your income x2 then it becomes x4 if you watch enough ads and add more level please. I know it would be too much to add but its okay if you disagree.	5	11
751	EDIT: Built all of the hotels, maxed them out. No more new hotels to open. Would have given more stars if completed hotels profits could be rolled forward to other hotels. Fun game, but I completed all levels in a week and now there's nothing left to play.	1	11
752	This game keeps me occupied, and is lots of fun! I just wish the ads were a bit more appropriate __! Other than that this game is super__! This is the best tycoon I have ever played and lasts the longest! Thank you!	5	11
753	This game is very awsome its great for children but one thing that bothering me is that i cant earn offline money and when i click to wath add to earn money it just dissaperd off plss fix this problem	5	11
754	Too many ads to watch in order to progress in the game, but one purchase can get rid of that if you're willing to pay for it. I did, figuring to both help out the devs for the game and speed up my gameplay. It was a small price for me and totally worth it. I purchased the no ads+instant rewards and the double earn perk at the same time when they had a sale.	4	10
755	The game isn't bad and I have the no more ads. My biggest problem is if I minimize the game instead of going in to actually close it, I collect no money. It's a waste of time. Also it feels pointless that when you finish a hotel it continues to collect money that you can do nothing with. Either add more to completed hotels or allow me to use my part of that income on other activities or hotels.	3	10
756	Update: so... Weirdest complaint about a game ever but... They won't take my money __ I purchased the ad free thing, Great purchase, but it took forever for it to finally work. I contacted support and they didn't get back to me but I was able to purchase. I'm not going to email them everytime I want to spend \$5-\$10. I have decreased my playtime because of this, it's pretty annoying! I've tried purchasing Google play points, a Google Play gift card and just using my debit card but to no avail __	2	10
757	This game is alot of fun! However there are some extras that you can purchase that are priced outrageously. I get it they are pretty significant characters that are very beneficial but they are \$10.99 a piece. That's outrageous! I'd spend at max \$10 for both and even then that's rediclous for a few virtual characters! All around the pricing in this game is ridiculously expensive. As far as game play, it's pretty slow to advance, but still much fun.	3	10
758	Fun game, but has some annoying mechanics. I hate that after 2 hours of being out of the hotel your hotels close. It's too short a time frame. Also I wish you could transfer money from one hotel to the other. My first hotel is fully upgraded and makes a crazy amount of cash that I have nothing to do with while my 2nd is struggling to get started. Even if you can only transfer funds once when you first open a new hotel that would be great.	3	10
759	The three stars are only temporary! Until a fix is issued. I'm on the ski resort hotel and my customers keep getting stuck between the front desk and dining room! I'll close the app completely to reset this bug and it'll take 25 minutes off my double money time. That's a little harsh considering I'm trying to correct an issue. Overall it's a fantastic game and I've been glued to it since Friday. I love the subtle movie and video game characters you guys have added in. (Add some more will you?!	3	10
760	The ad free option is definently the way to go to throughly enjoy this experience. I'm going on 20 gameplay hours and play a few times a day. I enjoy seeing my hotels grow and moving on to new locations once I "5 Star" a previous location. I'm hoping the developers add new locations because at this point I've already beat the game and I want more. Happy managing!	4	10
761	Love the game. Pretty easy flowing and fun. The only thing I'd like to change is the money bit after you move on to another hotel. Once you've completely updated a hotel and have everything purchased you're just pointlessly collecting money for that hotel. Unless I'm missing something? I think it'd be cool if the money is all one whole amount you pull from for all your hotels.	5	10

762	This hotel game is veryh good and fun, there are no glitches or lags, and it is entertaining. The only bad thing is, that i wish that there could be more upgrades for things like the bar and restraunt in the city hotel, where you start.	4	10
763	It's OK to pass time. I have been playing this game for a few years. It keeps me busy during down time. My only issue is there are no new hotels being added. It's been about 2 years since I had a new hotel. I have fully completed the 7 available hotels. Yea we get short limited hotels here and there but I would like to see more consistency with the development of new hotels.	3	10
764	DO NOT SPEND YOUR MONEY ON HOTEL 3! Really wanted to rate this game high. I loved the gameplay and the graphics. It's simple but easy to enjoy and get lost in. However it feels like a grab at our wallets. You have to watch ads every few minutes to get anywhere with advancing. I was willing to bare all the ads but not the 7.99 (660 dimonds) I had to pay to get enough diamonds to advance in the game (third hotel) to find out I have one level left to play. Very disappointed.	2	10
765	As much as its a fun game, the ads keep coming up as a black screen, then kicking me out without my reward. It happens way too often and is starting to affect how much im enjoying my experiece. Other than that, the game is fun, great to kill time, and is definitely something i would recommend.	4	10
766	I really enjoy the game as a idle timewaster however I don't like how once you've finished with a hotel you can't do anything with the money it keeps collecting since each hotel has it's own money anyway. It would be good if once a hotel was complete there was something you could do with the extra money such as buying perks (like x2 money for an hour ect) you could use in the other hotels. I also hate the new events as they're impossible without paying so not even worth attempting!!!	2	10
767	Updates that don't fix? People have been constantly telling the developer of the gameplay issues, including bonuses not received, double profits not working and general gameplay bugs. It's the same thing everyday, no structure to it and very tiresome. Good for the first hour and then nothing to do. Even the event hotels are just the same as a normal hotel.	1	10
768	I love the game but it only lets me watch one video per session which is definitely frustrating, it gives me the option to watch a video for a perk but once I click to watch the video it just closes but the optional perk is still there; it will let me reject the video though. If this gets fixed I will change it to 5 stars; but i feel like I'm not able to fully enjoy the benefits the game has to offer.	3	10
769	This game eats battery life like crazy. Plus it is fairly boring. There isn't much to do, and watching the hotel is pretty well pointless. Doesn't feel idle, doesn't feel interactive. Edit: Gave it another try. Uninstalling again because the previous review is still all true. Ads don't pay out. Took away another star because the events are also impossible.	2	10
770	Great game, but ads are long and the cost of going ad-free is expensive - î£12.99!? Whilst other games are as low as î£3.49 albeit permanent, it's still steep! Also, sometimes the investors disappear immediately after entering the hotel and on occasion watching an ad doesn't credit your hotels finances with money.	3	10
771	It is frustrating to see that most of the negative reviews are concerning the same problem I am having with the ads.The worst part is the automatic reply every comment gets and this is STILL NOT CORRECTED. I was really enjoying the gameplay up until the ads stopped loading which left me unable to receive the rewards I was really wanting to get. The 2x income is a great incentive but I can't get it! Hopefully this is something that can be fixed	1	10
772	I don't like the dancing guy or free money. Rather not have him come back so fast. Also I would like if it did not force me to buy certain things like the bar first when I rather manage the hotel myself! Lastly you have to watch ads until you earn your first star as you can't make enough to support the building through normal means. Feels like cheating when I get free money takes fun away. Other wise great game.	3	10
773	Very good customer service. Which is essential if you have bought extras in a game. A few tech issues in game which each time customer service team fixed. All emails were answered quickly. Love the game and over all service. Finished all hotels. Loved the game, but once all hotels are done there is only the event hotel to complete, which is the same. Can't more hotels be added via updates? I would like to keep playing.	3	10
774	Seems to be an overall good game, but there is a bug for whenever you join back I to the game. Instead of getting dou le the amount of money when you join back into the game for watching an ad, you get the base amount. I've seen this go for money around a few hundred to hundreds of thousands. It shows the money doubling, but doesnt actually add double to your "bank account"	4	10

775	Another of the "Wait for 2x 'Watch Ad' button to appear, but when it clicked on, ad fails to show and you've wasted as much time as watching any ad, without getting any benefit" games. Listen, it is not our fault your ad link fails. We tried; at least reward us for the effort rather than wasting our time.	1	10
776	Yeah, so...I love this game. I think it's simple and beautiful (except for decoration). I know you have to make money so I think is fair watching ads. Being a UX Dev I kinda wanna make some suggestions tho. One is making more missions would be nice. Some users tend to follow missions on what they expect to upgrade next in this type of game and getting compensation on it is satisfying. Example: Instead of 40 gems to upgrade a room for lvl 8 make 8 missions of 1 lvl worth 5 gems.	5	10
777	It is addicting. Graphics are nice and animations are sweet, cute and funny when characters get frustrated. The only thing I can do to support the developers is this review from my usage of the app they have designed and created. Thank you for the app. Also I have noted some eastereggs too. There can be found famous celebrities as characters. I did pick up Keanu Reeves, but i had to zoom in to see him more clear. Sincerely great work from you developers. Keep making it more awesome __	5	10
778	Is fun apart from the fact you cant play unless you spend real money. Only way to progress in the game is to spend j€10 to get rid of ads. Another j€10 to continuously make revenue whilst not playing which is ridiculous. So you either spend a ridiculous amount of money to play this or you play hours on end each day and watching an ad every 30 seconds. Rather spend my money on a proper game.	1	10
779	Hi I was new to this game and after a couple of days I really liked the concept of this game because it is where you have to manage a hotel but at the same time the advertisement is long and at the starting you always have to watch ads to get some money__otherwise there is no way otherwise getting slow money after some minutes but I recommend you guys reduce the number of ads and make money a little bit more easy to get and I know ads are your source of income but now you have way too players__	4	10
780	Finally beat this stupid game. I have to admit that it kept me busy for the first week. But the several weeks after was nothing but repetitive play and looooooooooonng waits. Dont waste your time buying in game "perks" they dont help how you'd expect. I spent \$10 for something the game said unlocks everything but it didnt. Spent an additional \$5 and felt like I just burned my money up. Didnt bother spending another 10 for a manager. The game is about waiting.	2	10
781	I am addicted to this game. I have paid to use the upgrades so.i dont have to watchs ads which is awesome. A few suggestions to make it better, can we have neighbours/friends that we can send gifts to or visit their hotels. Also please give us something to do with the money that is sitting in the other hotels. Its a shame that there is nothing more that can be done to them..also are my hotel clerks making out. One was on top of the other yesterday behind the desk !!ol	4	10
782	Well I thought this was going to be a fun game. Now with the first hotel you keep making money and you can't build anymore and you can't take that money and transfer it into the next hotel. Wondering how you get enough stars to open the third resort, I've been waiting for about a week and I refuse to spend real cash.....Too boring, uninstalling	1	10
783	Wonderful game. Loved it. thought I was gonna rate it 5 star considering the fact that it's a fantastic game. But in the "EVENT HOTEL", chefs(hired 2) don't work when they're supposed to and the housekeeping staff(hired 3) cleans only 1 room out of 3. I have to clean the remaining 2 by watching videos. I'll give 5 star after this is fixed.	1	10
784	***EDIT(1) The update has still the same problem with ads loading or should i say not loading. You have to uninstall the game and then re install it to play realtime 2 hrs before uninstall and reinstall. I will wait for one more update then im removing this app.FIX THE GAME PLEASE! why mention bug fixes with the new update UNLESS YOU MEANT TO SAY YOU ADDED MORE BUGS...SERIOUSLY FIX IT. THANKS. ONCE FIXED ILL GIVE YOU BETTER RATING.	1	10
785	Love the game until I finished the 4th hotel. But what else is there to do, also why can't we use funding from other hotels. Got all 4 hotels to 5 stars. Enjoyed it untill then, but from there the game is dead. It's just a few weeks of play. I would add more stars if Devs can figure out a way to keep it alive even after completing 4 hotels.	2	10
786	Great game, but now I've completed all the hotels. The game no longer intrests me. Which is a shame, cause this was my 1st Tycoon Idle game I actually liked. Those constent clicker games, bore me. Please update and gives us a new hotel each update. Or I may have to uninstall the game :(P.S You can't transfer the money you've earned. To the new hotel, you are working on. Which sucks	3	10

787	Great game for what it is. They dont choke you with ads. Thing that bothers me is why have staff that can only help 2 people. Example 5 chefs help 10 people yet you have 20 seats which they cant sit at if 10 are already there. only a few can wait in line yet you have 40 guests. The math doesn't add up. Also in one hotel many guest have too far to walk to get to the restaurant that it could close before they arrive. Why does a restaurant close at supper time? Regardless I still play daily	4	10
788	This game deserves minus rating. Its full of bugs and only good for watching ads. Event hotels keep getting deleted and after complain they do nothing to fix it. Restaurant/Hotel room becomes vacant even after full update when u leave the game. Profile booster goes to zero if u r inactive for 30mins even when its full and supposed to stay active for 2hour. All the room/restaurant customer goes to zero if u do not continuously play. After completing a hotel the generated money is all useless.	1	10
789	I do like the game but it's currently having connecting issues when ever I try to use gems or getting rewards from the Codi Hotels (it's mostly not my wifi), I'm also getting notifications that my hotels are closed even though I literally just checked it	4	10
790	This game is so good and entertaining. the only thing that bothers me is that I can't transfer money from one hotel to another. I know it is a game that you have to build a hotel from scratch but what else can you do with all the money that your 5 star hotels make?	4	10
791	Super super super interesting... I love it... But there is a server problem.. I hope they will solve it soon	5	10
792	Videos aren't working again.	5	10
793	Fun to kill time with. Needs work for more play time, feels incomplete. It would be nice if it was a little more in depth. Customize the hotel more. Maybe just adding more services like pool, spa, fitness center, etc. Possibly inventory managment. buying specific supplies, getting deliveries. Or even giving the restaurant/bar a star rating and more personal upgrades/customization. It would give a cause to play longer and watch more adds lol :)	1	9
794	Once you get to the next to last hotel they make it impossible to get to the last one without spending money. You upgrade the entire thing and can't get all the stars unless you buy diamonds to upgrade extras. Disappointed. REALLY loved the game. Didn't mind all the ads. It's tons of fun! But I uninstalled cause it's impossible to go further.	1	9
795	GAME PLAY PROGRESSION IS HEAVILY DEPENDENT UPON WATCHING ADS!!! In the beginning it was okay because I enjoyed the game. But quickly learned that you will need to watch 30+ ads daily for progression. That's entirely too much! Ad free version is way too expensive. Add all of that to the fact the ads DONT always load (therefore no reward) and frustration can start to mount. While concept, gameplay and graphics are awesome, I would like to see less ads.	4	9
796	Great game. Straight to the point and playing straight away with very little intro. A few ads in game but I don't mind because it helps you improve your hotel (They don't pop up every 5 minutes. You choose to watch them for more money) . Theres an option to buy the game to take the ads away, which I'm very well thinking of doing.	5	9
797	The game is amazing I have to say but there's just one thing that annoys me: I have all my rooms occupied, and when I change to another hotel just to check and then revert back, suddenly only two of my rooms are occupied. It doesn't retain my customers. I wish this is just a technical glitch or bug they can fix. Other than that, I play this game the entire day and I love it! I just hope the developers can fix it asap.	4	9
798	I gave it a try, finished first hotel. No thanks, uninstalling it. You basically have to watch ads every minute in order to make enough money to progress your hotel at a reasonable enough pace to be considered interesting. Your most significant source of income for upgrades is from watching ads. It's "addictively boring". Ad, ad, upgrade, wait, ad, ad, upgrade, wait... rinse and repeat.	1	9
799	It's fine. Good concept. Poorly implemented. Unfortunately you have to rely on a lot of ads to make any amount of significant money. Or you can pay to remove ads, like I did, almost \$20 AU, which speeds things up so much more so you actually feel like you're playing. Now if you've paid that ridiculous amount to remove ads the gameplay begins. It can actually be fun but there's a lot of repetitive play to it which becomes old very fast. Yes I'm very salty I had to pay alot for this mediocre game.	2	9

800	The one and most problem that am having is with the ads, why is it that it's always closing the app when you click on it and I don't think it's doing it on its own I believe the developers created it that way. so it's just one out of ten times you really get the chance to get the money the ads are displaying to you and that is unfair because every minute or two they send it and this is the problem it cause and that makes the game start to get boring..It's best you don't put these ads in it then	4	9
801	Was great until the last update. Now the reward videos are messed up - when I log back in I watch the video for x2 rewards and when it's over I click 'X' and it tells me "ate you sure because you'll loose your reward?" Even though I've watched the whole thing. And the dancing man offers me videos for extra money and the same thing happens, or the video doesn't even load at all.	2	9
802	I usually get bored playing games where we need to wait for an item to build/cook/ get produced but this was a really addictive and interesting game. I love the theme related items and its exciting to earn money and upgrade things. Overall a really fun experience. Would love to play more of these types of games.	5	9
803	It was a fun game to play at first, then on like the 3 chapter/ hotel it started to bug out. Maids weren't cleaning the rooms. Customers were checking into the hotel but would leave the hotel and yesterday while I was playing the game my phone started to glitch on me turning the screen on and off on repeat to where it was difficult to restart my phone.	2	9
804	The game is great, my only problem I have is with the dinning area. The dinning room could only have two seats taken and customer still go to wait in line as if there isn't any free tables. Or say two customers are eating together, one finishes and the person in line sits with the person that's still eating, even though there are other empty spots. It's just really annoying and makes no sense.	4	9
805	Hi, this Hotel Tycoon game is simple one. Small tutorial to lead you the way if first time playing . Lots of leveling up some adverts if you wanna make quick in game cash to fancy up the hotel rooms and other features !! Enjoy game. The game did freeze on me in beginning twice when I was progressing a bit. I bounced out and came back in and now things are smooth . BTW Google Play also has similar leveling up game but it's Night Club & Bar with nice relaxing club music . Give it a try too !!	5	9
806	It will keep you very busy, especially with having the money to buy new things. I wish there were goals to make the game more fun its just a free play. Also i wish there was a way to buy more rooms.. I hate the fact that buying generaters or upgrading is so much money. It does take quite a long time to get money. And what can i do besides competing a task for gems. What make it fun is that you can watch ads to raise the money or even double it.. Just make a few genius updates and ill be fine!	3	9
807	Lots of fun but seems very short. Paid £20 for both perks only to complete the game in about a week. Lots of bugs to iron out (restarting the app resolves these). Hoping that more features will be added in time - including more hotels and the possibility to put in-game money towards something once a hotel is maxed out. Update 2020-01-21: there are now 4 hotels but all are complete and it has been some time since the last one.	5	9
808	Such an hilariously-high amount of ad begging. I feel like 1/4 of the screen is taken up by "pay \$11 for thing" buttons, or the ever-present giant VIP "watch ad for game money" button. You can watch ads to add time to a 2x-income multiplier, but each ad only adds 10 minutes to a maximum of 2 hours. You'll spend more time watching advertisements than playing.	2	9
809	Good game to pass time. Interesting concept. Graphics are funky and vibrant, and well detailed. Really wish they added more hotels as Ive completed the game so far. And have done; for ages now. But theres no updates. There is so much more they can do. I will give it 4 stars until they add more hotels to upgrade then will rate 5.	4	9
810	You cannot and will not progress without ads. 30 second ads aswell. Why not 5 second ads? Want to get x2 money (for 10 minutes only) : watch an ad. Get bonus cash for upgrades : watch an ad. Need a room cleaned : watch an ad. Need guests : watch an ad. Without x2 income and without bonus cash you will not be able to progress. I spend more time watching ads then I do playing the game. Once a hotel is completed you cannot use the money gains towards anything else, the money just sits there.	1	9
811	This is a very simple yet entertaining game. I usually play this while I'm bored and it instantly cures my boredom. There is absolutely no lags bugs or anything like that. It runs smoothly and I definitely reccomend this game. In addition if you go off the game for maximum two hours, you still earn money for the 2 hours you were off which can really help when going back on so you can upgrade your hotel and pay your staff.	5	9

812	Would have been a cool game if it wasnt FLAWED. If you dont max out the number of stars needed to make it to the next level your eating potential is DONE!!! Your allowed to keep playing (which there is nothing to do once all task are complete) but cant increase your star rating for your hotels to earn more hotels. And I spent money on this game just to never be able to get another hotel after level two. And you cant start over. Super disappointed	3	9
813	Fun game but needs work. My first hotel earned 4 stars. My next 2 earned 5 each. I cant move on to the next hotel bc I don't have enough stars. I went back to my first hotel, there's nothing else to be done. There are way too many ads for this game. It would be nice if some of the money from the previous hotel rolled over to the next one.	2	9
814	My go to game at the moment. I only started playing this game a few days ago and I've now managed to unlock the second hotel. Unlike most idle games you don't get loads of cash really fast it is a bit of a grind but it's still a very fun game to play. You have to rely on investments and watching ads to get decent amounts of money which is always random sometimes 2k sometimes 10k. It would be better if you could earn a bit more money a bit faster though other than that it's a great game to play.	5	9
815	Great game, very fun! Quick to learn, but takes a while to master. Is there a way to reset the game but keep all my purchased managers and earned special managers? Now that I have earned most of them, and have made it to Camelot, I would love to start over. Again, great game!	5	9
816	The game is great so far but it could be better like dont make it hard to earn money to upgrade things to make more money at the very beginning of the game its very tedious and time consuming just to earn the little bit of money to upgrade stuff plus you have to save some money so that your staff dont quit on you i know you guys wanted a feel of running a real hotel in a game an it feels like that trust me but its also to be fun.	5	9
817	Fab! I got this game thinking it was another idle upgrading game. It's more than that, you really have to think about how you're playing or things can go wrong. Devs have put a lot of time into the interactions and animations of the visitors and staff. The only thing I would say is once the hotel is complete along with all the upgrades, could their be a way of personalising each room? - I'm also not sure how to tell why my guest in their room is angry?	5	9
818	Love this app. It's fun and engaging. I would totally give this a 5 star rating but my only issue is the ad glitch. Occasionally, the ad will glitch and allow me to watch the video but then not give me the money or I will click to watch for the money and will be kicked out which restarts the game and the VIP will have gone. On other occasions, it will glitch and the VIP will be there but I will click on him and nothing happens. Please fix this bug as it happens with over 10,000 involved.	4	9
819	I have been playing this game for about a week and all was going well, until last night. I cant watch any videos to get money or double the profits or anything. It just flashes black and white and does nothing. I can't even get out of it, i have to close the app down and open it again. Then I loose the x2 profits. Please fix this!	1	9
820	Its a good game. Slow pace, item price is reasonable, more like a reality game. I agreedthe with most players, watching ads will help in the beginning, but after u updated some items, the cash will keep generating. Just dont over hire too much of employee. And, why cant we transfer money between hotels? It doesnt make sense when first hotel is max, but cant spent the money in other hotels..the event is also impossible to reach 5% without paying, after watching tons of ads, still barely near it	3	9
821	The game has great potential but is in need of some serious optimization. Guest pathing is a bit askewed. Hotels are so large that it'll take guests 2 hours of in game time to get from one place to another. Guests will path to closed hotel services wasting valuable in game time. A second of real time is about 2.5 minutes in game and the guests are slow to get anywhere. Exiting the game for even a few seconds will turn your "no vacancy" hotel into a "10 rooms available" when you return.	3	9
822	Currently on the Emperor Palace. Not sure if its a bug for this hotel or a bug thats developed coz of the last update. It keeps glitching out and not giving me any afk money. I am not sitting here for hours watching my money go up like \$20 every 2mins or so waiting to get enough money to do anything. Uninstalling now coz to many bugs. This. The x2 thing does not give x2 money like it says it does. Getting cleaners just not getting up and doing their job no matter how many times i fire/rehire	2	9
823	It's a really good game and I enjoyed a lot! Unfortunately I'm gonna have to uninstall since there hasn't been any more update on the game for 2 years, still the same hotels so this means that the developers are not interested in this project for now. Hope someday you'll go back to it, because it's really nice and you could achieve even more players	4	9

824	Love the game, would love to see a family hotel with kids themed rooms fun pools, play areas, cinema etc. Would also be great to upgrade the presidential suites to have personal butlers and chefs. All hotels roughly the same need new hotel challenges for special events. Come on Codigames, start using your imagination a bit more please!	3	9
825	I bought the VIP pack for the event on Thursday and never received it. I contacted them several times and have yet to hear a response (it's Sunday). That is completely unacceptable. Don't buy anything with Codi games because you WON'T get it and they WON'T respond.	1	9
826	I rate this 5 STARS!...but i found a bug when when the people started to move out the house keepers started to clean but then thats when i saw the bug a house keeper just standed there by the tolit just standing there but at first it did not bother me then over time i got worried but then i got annoyed (defintion of annoyed slightly angry irritated)	5	9
827	In my opinion, it is helpful for many people but, if the technology was this good,in the olden , it would had helped my daughter's husband for his old profession in land.	5	9
828	Hope there's more to come :)	4	9
829	Love it __	5	9
830	This game was fun to play it's definitely a time waster. Issues I'm having with it now since the update is after so many videos watch sometimes just even 2 to collect things it glitches and won't let you watch videos to gain anything. If you try and shut it down to restart you lose some of the guests you may have had and have to start over. If they don't fix the issues soon I'll probably delete the game.	2	8
831	This is an idle moneymaking simulator with a twist - you start each hotel with a budget and a dream. It's fun, and grows exponentially as you improve. A lot of the bonuses are ad based, but they're well worth watching - I bought one of the bonus packs to further support the creators. There are still glitches and bugs, but they're mostly visual.	4	8
832	I have downloaded and played most of your idle games and have to say this is easily my favorite one. The progression feels natural as opposed to your and other apps where machines or stalls becomes increasingly harder to upgrade. This felt like I was really investing in my rooms for a profit. Granted, I'm not opposed to watching ads as I usually am doing other things whilst playing this, so I have a bias on progress but still. This model needs to be followed for your next game.	5	8
833	Love, love, love this game! The only ads are totally optional (I use them because I like the extra earnings you get). My one and only "complaint" is that there aren't more levels. I completed this game once, redownloaded it hoping there were new levels. Nope. C'mon, those "events" are totally stupid and a complete waste of time. PLEASE stop doing those, which are entirely repetitive anyway, and start adding new, "real" levels!	5	8
834	Great time killer overall and easy to play. I purchased the ad remover, but the upgrades altogether are definitely way too expensive, hence why I didn't get the other ones. The reason for the 2 stars is because the events are nearly impossible to achieve if you don't get the vip package, which only lasts 4ish days anyway. It doesn't carry over to the next one which makes it ridiculously greedy! Even without ads, I struggle to get even one star during the events. Game needs some adjusting	2	8
835	Well my other post doesnt exist anymore. The clockmaker interactive game is crashing the ads. And everytime it does I must restart the app. When I am forced to do this I lose anyone that is in the building as far as guests go except for the original single bedrooms. This needs to be fixed please. I love the game but restarting is obnoxious.	1	8
836	UPDATE: Still enjoy the game. Finally got was able to get passed the hotel that was effected by the update. The new hotel load correctly and I can easily play it. Still have the issue with the previous hotel and will not be able to finish it.	4	8
837	Very entertaining and time-consuming but when I had a second hotel I couldn't do anything and the money between both hotels should be shared. Also the dancing king comes only every time you have a shortage of money, so you have no choice, either lose everything from chefs and even more money, or watch the annoying adverts all day long just to take a little amount of money. There should be little or no ads in this game, because it's very amazing and wonderful but the ads just drop it to 4.4 stars instead of 5.	4	8

838	This game is good, long wait to do anything between days, makes it a nice little Idle game. I have however found a couple things I think are bugs?. I watched an advert and didn't get the money (I didn't close the ad early), I got stuck in the room upgrade menu with no choice but to restart the game, I could hit the back arrow, it was making the noise but not exiting the menu. Also the cleaner got completely stuck in one of the bedrooms and didn't move for days, a restart fixed it.	3	8
839	Everything is good, expect the game stutters(when opening it after switching from another app) from time to time, wich I don't understand while i have a pretty powerful device and the game doesn't look to demanding, although the "stutter" is more so a slight frame srop. So the only thing i would like to see improved is the optimisation if possible	4	8
840	It's definitely a good game to help you pass the time. The game mechanics are different than others I've played. This one tries to be more realistic but loses playability when night time has come. I'd give it 5 stars if there is a way to earn good amount of income while everyone is asleep. I spent some money to remove ads & to appreciate the developers hard work.	4	8
841	Really addicting games. But had one small issue, that is : whenever I logout from the game and return I see that my time suddenly become empty, even though I left it only for a few seconds. This is the only issue that is stopping me from giving that 5 starts. Really appreciate to see this fix in the next update.	4	8
842	Great game while it lasts. With only 4 levels and the latest update just with big fixes ot seems like we wont get new levels. Shame really as the game itself is great, dont even mind watching the ads to progress. I definitely wouldn't spend real money on the extras especially as within a month you can easily complete the 4 levels the game has.	3	8
843	This game is rly fun but its rly hard to get money in this game but every now and then this man comes into the hotel and starts dancing in the hallway and if u watch a video he gives you a considerable amount of money. This is kinda the only way to get enough money to upgrade ur hotel. I also wish we could have time to upgrade the hotel and then open it when we want to, instead of just having to deal with customers. However, the graphics are AMAZING in the game and I highly recommend it! :))	4	8
844	I love the fact that you dont have to wait for upgrades to complete, or buildings to finish, once u buy, u get it instantly. Make sure u buy the 'no ads' though, soooo worth the money or else this game might be slightly irritating with all the ads. Also, want to thank the support at codigames as well. Raised a ticket yesterday and it was resolved today with a little bonus for my convenience. Thats what i call service!	5	8
845	The first hotel was really fun but then with the second and the third there is a very annoying glitch that is happeneing. Everytime that I go offline (even just closing and reopening the app) half of my customers leave my hotels and it makes no sense. They just dissapear. I'm basically spending all my money upgrading rooms that don't even work if I'm not staring at my screen... I'm also going through hotels pretty quickly and I'm almost done all hotels in just 2 weeks. __	3	8
846	Hi guys, I enjoyed this game so far. However, after arriving to 2nd hotel and upgrading spa & ski services, I noticed that my income drop due to longer travel time of people going to those services. Thus, in average, less people use all four services. Would be helpful if you provide options to fasten their walking speed (that can be bought using gems) just like your other games. Will update the rating after you solve this problem. Thank you	3	8
847	I played this game for awhile and ive come to the conclusion... this game is virtually impossible for someone who has a mindset like me. It just feels like an unfinished game, due to the fact that everything cost a decent amount of money... except there are no good ways to get money except for to watch ads for coins. This game has potential to be good but if its annoying to play or gives you a headache to have to watch so many ads... thats unacceptable. Please make the game better.	1	8
848	It has so much potential but my game is bugged. I just unlocked hotel 2 and the VIP guy sometimes just refuses to show up. I don't know what causes it and he started showing up again for no reason. Progressing is insanely slow without ads and it's just a stupid bug. Sad to see that my fun had to end this soon, as I really enjoyed the game.	2	8
849	The game is fun and worth the \$10 to just get rewards without watching ads, but there aren't enough levels. Currently there are only 4 levels with one of them being a Christmas Cottage (complete with the dancing king dressed like Santa), which make me think more holiday themed levels would be nice. Like a Haunted BnB where the staff is famous monsters (or just the dancing king is fine too) and the tenants are ghosts. Even without the holiday themes, just having more hotels would be good to have.	4	8

850	Previously I gave 5 stars. I finished the third hotel, and stopped playing it since I had no more hotel to manage. But then 4th hotel came up, and I played again. I was so surprised the 4th hotel looks VERY similar with the 1st hotel. First thing that came up to my mind was "were the developers too lazy to come up with new hotel design?" I stopped playing. Wasn't interested. Some people pay for your games, don't be lazy put more efforts and thoughts to design new hotels. Disappointed!	2	8
851	I like this game, but I'm giving 3 stars because since it's supposed to be an idle game, it has a lot of glitches in it. For example I left the game to restart it because the ads weren't loading for some reason, when I came back to it, the number of guests went down from full to maybe 50% full. What the hell?? How does that happen?	3	8
852	Even though game is very slow I liked the game concept and started playing. But after playing for couple of months, still I am unable to build 2 hotels. Whenever you login to game it will always be mid night and you need to wait till morning or need to watch ads to skip night. Rediculous. Uninstalling it.. Better improve your game! Good luck!	1	8
853	I like the game but it becomes repetitive after the first hotel. Not to mention, although the nexts gives more to do, you dont get to use the capital made from the first hotel. Which makes no sense. Once the first hotel reaches 5 stars, theres nothing else to do with that capital. Would be nice if it could be used with future hotels instead of starting from scratch each time.	3	8
854	I've maxed out most of my rooms and near completing everything the game has available but I find the game quite enjoyable. I like that there's some strategy to the game when decided what to upgrade and not upgrade as well as managing power. I'm looking forward to more content being added as it's definitely going to be a game I'd love to see be expanded.	5	8
855	The graphics are gorgeous but you either have to constantly watch ads or pay in order to make any considerable progress. This is not an idle game because after 2 hours of offline you won't get anything. Also when your phone goes to sleep in game no progress is made and it just pauses the game and income somehow	2	8
856	I give this game a full 5 stars!! The graphics are amazing and this game is soooo addicting. I would say that it is a little hard to make money without watching ads, but that is the only bad part of this amazing app! So amazing graphics, addicting, and ads are normally optional (recomended though). Get this game now!!!!	5	8
857	So far it's ok, I have played these games for a long time but this one seems deliberately slow paced, especially the special events, it is not possible to go very far in the special events without buying bundles for real cash, that just makes it a waste of time to even start. There are similar games available that are a lot more free and enjoyable.	2	8
858	The game ok, but the event game is a fix. To be able to build Presidential Suites you have to buy (real money) the VIP Pack. I think you should be able to build the Presidential Suites, but if you want to build quickly then you can buy the VIP Pack. It should be a option NOT a choice, build and take time to build or buy pack and get Presidential Suites straight away. I don't mind watching adds to double you takings while away from game.	2	8
859	This is a good idle game but it only lasted me 1 month. I have purchased remove Ads as I do not want to watch video every single time the VIP comes. Thus, I have completed this game pretty fast. I hope you guys can come out with more hotels n resort. Also, it should increase the difficulty as most of the time I'm just waiting for my profit to upgrade things n hire staffs. If there is no more updates on the game, I'm gonna uninstall it since I have nothing to do anymore.	4	8
860	It's great until it's not. I've run into the problem of the ad button doesn't load it just circles forever. I've closed out of the game, forced stopped it and cleared the cache, reset my internet, restarted my tablet and it still doesn't work	3	8
861	I'm really enjoying the game but watching an ad for only a 10 minute boost is kind of ruining the gameplay. You have to watch 12 ads for a 2 hour boost, so you have to watch a full 6 minutes of just ads. Comparing to other games it feels way to ad heavy.	3	8
862	It's a good game but needs some work, doubling money to watch a video doesn't work sometimes doesn't even give the amount, also the restaurant keeps saying I'm in debt but then changes to I'm making profit, there's just some thing the game needs improvements, like a really good update...	3	8

863	I'd 1st like to say thank you for resolving my gem issue. Okay. So I enjoy the game. It would be nice to have the option to transfer some of the cash from your other hotels. I wish the guest wouldn't do the same thing at the same time. Make it a lil more realistic. Also it would be nice to be able to change the schedule. Like have housekeeping clean before everyone gets back from breakfast. Oh why spend gems on things that don't get used?? Like the mud bath..	4	8
864	Game has potential, graphics ar good (for mobile top down game) has a nice layout but there isn't a sense of challenge. Anytime I run out of money I can watch an ad (which is annoying) but still I can do that and get a boost and I feel watching ads is part of the gameplay if not you would be sitting idel waiting for some cash to make a upgrade. It's a good game but could be better	3	8
865	It's an amazing game, can't wait for the next update... I've nearly done up both the available hotels, when is the next one,.. where is it? More upgrades!!!!?? Hope so love this game, this and the idle theme park tycoon one are my life I only play them and when this one gets bigger I'm spending the jê10.49 to get rid ov the ads! One problem I have is on my mission list it says...: inaugura un hotel como Dios manda. Im English and only speak English so have no idea what that means...	5	8
866	The overall game is great other than the fact that it takes a long time to generate some actual cash. I would suggest may be a calendar to bring people back everyday with a different reward, such as cash, gold diamonds and other things. Maybe increase how much each patron to the hotel spends during their stay. But overall I am enjoying the concept of the game.	3	8
867	I love this game a lot! The only thing is getting money is hard. I've completed the first hotel, and im on the second, and money is very tight. I cant afford to pay my employee's because i upgrade all my things. Also, why have a power limit? There is still loads to upgrade in the first hotel, and i had to stop becayse of a power limit, though i updated all the batteries and generators max. But overall i love this game! Good job! Ps it would be 5 stars if not for the power limit and money	4	8
868	I gave this game about a week but now I know all it does is frustrate me. It's a free game so I expect to be able to actually play it a little. Instead I watch a thousand ads because I don't want to spend real money to get rid of them. Just found my first event and I don't see how it's possible to even get one star without paying real money, which is completely ridiculous. Definitely deleting it now.	1	8
869	I used to love this game, until this most recent hotel add. It starts you off with 1 room I've been playing for the past week and have yet to get enough money to even get a second room. My daughter plays as well and said her hotel started with \$250,000 and she was able to added rooms to get going. My acct balance was \$0 when I started, I don't know if that was a glitch for her or a glitch on mines. Another thing that I don't like is you can't purchase money only gems and gems can only do so much	3	8
870	Addictive at first, but I believe improvements could be made for example starting a new hotel the accumulated cash from previous hotels should be carried over when you first start because if a hotel is complete previous ones become irrelevant, you can't do anything more to them unless new rooms or services are constantly added secondly when it comes to events give alternative options to unlock rather than needing to spend real money and finally im up to the second to last hotel please make more.	3	8
871	Loved it. Great game. However to proceed to the 3rd level hotel you need 5 stars on at least one of your two hotels, which you can ONLY achieve by spending gems. The game literally doesnt give you enough gems to do this, so you would therefore be forced to spend money to unlock the next hotel. Absolute joke, and am immediately uninstalling. If you are not prepared to spend money to advance, do NOT install this game, as you will have no choice.	1	8
872	Acquiring the speciality furniture within the hotels should not have to be exclusively purchased using gems, as completionists will find it very irritating that they're missing out on fully upgrading the hotel. I think a good solution would be to allow gem usage for most if not all hotel upgrades while also allowing the specialty decor to be purchased with cash too.	3	8
873	Decent game and would rate higher except 1. The 2x bonus for watching a video only gives 10 minutes of the bonus up to two hour max. Other similar games give 30 min up to 5 hour max. 2. I maxed out the 2x bonus from videos and that should have lasted till 6:40PM my time...it is only 5:30 PM my time and that bonus is now gone requiring me to watch more videos, a full ONE HOUR AND 10 MINUTES before it should have been up so I basically watched 12 ads for 50 minutes of 2x bonus.....	1	8
874	Not a true great, but not one of the reeeally bad ones. Am usually one for long-form management games and most are a bit quick for my pace and i buzz through, but this one seems to drag a bit in early game. Hoping it gets better as it pregresses.	4	8

875	It is so worse that the videos have limited for us to watch and earn extra money. Have to wait for 24 hours for the videos to be back to normal and this feeling is so sucks. Hope the support team can fix this bugs if not I am going to lose my interest playing this game in the end!	1	8
876	It's great,but When you start playing, it's great. But I your first hotel, when you get over 6000 bucks, the game forces you into getting the bar. Now I had a lot planned at that point . But due to the bar, I am now almost broke. So uhh, that is my only complaint.	4	8
877	I paid for a booster pack in the game, for \$5.49. They took my money but didn't give me the booster pack. Nothing short of THEFT! Update: I demanded a refund from Google Play and was told that they'll decide if they want to give me my money back, but if they decide to, it would be up to ten business days to get it. Takes one second to steal my money, but two weeks to give it back? Sounds like a money hungry conglomerate to me. If I don't get my refund, I'm reporting the charge as fraud.	1	8
878	Way too many ads to watch with little reward. Also hate the fact that if you close the game for 1 minute you lose half of the customers already in the hotel, especially during an event it is frustrating	2	8
879	I do enjoy this game, but the problem is needing to have x amount of stars to progress to each new hotel, and on top of that, there's only 5 hotels. You can't progress as needed because you need gems, paid for with real money, to buy the necessary items to make your hotel a 5 star hotel. You need 9 stars to progress to the third hotel, 15 for the fourth and 20 for the last. Each gem item costs between 15-100 some odd gems. 1 star due to unable to progress without spending money.	1	8
880	Great game! I think it would be cool if you added card decks because most of your new games have them and if we buy everything with gems we can buy the card decks, and there's a bug where the vip disappears as soon as he starts dancing please fix the bug.	5	8
881	In first hotel it's Okay. But when you make that hotel a 4-star hotel then you unlock the second hotel. That's where my problem begins. it's already hard to manage the hotels. With added extra price for everything. You can't even use your own money from other hotels. NOW what kind of logic is it? It's my money i should be able use my money wherever i want to spent... But no there is no option for that.. Just make the money same FOR every hotels. Now in the second hotel i don't even Have enough m	2	8
882	Don't play this game. Events are impossible for freetoplay players. VIP Packs costs 12\$ PER EVENT. They're not permanent. Each events requires separate VIP pack purchases. --- I'm done playing your games thanks to your greedy business model. I paid a lot of money for your games because I had fun but charging money for VIP packs on every events? And those events only last for about 3-4 days? That's way too greedy. Thanks for the fun and you can keep the money. Farewell.	1	8
883	I really like this game, but since that last update the game is sticking and you are not able to access the dancing King to get the money as the ad is being played....this is _____. If it doesn't improve I will delete.	3	8
884	So many advertisement is understandable. But the paying game currency advertisement need to be done sure either 1 can't load. No need to judge the internet line. Using fibre 800mbps.	1	8
885	Amazing game this game had a good laid out plan my only problem is the fact that i have to click everyone to upgrade something the dev need to create a complete upgrade button incase you have the needed money to upgrade that room Have you guys considered my option	5	8
886	Fun game but you do need to make purchases otherwise the ads will irritate you after a while. I've finished the last hotel Camelot. Can you advise when new hotels will be available?	4	8
887	This game is impossible good.but you think why i give you 4 star?Well i give you 4 star in a reason. Suppose i hire 3 cheafs,3 bar manager,4 hoomkepper and 3 room booker. Then i quit game and back the game i see 3 chefs go,3 bar manager go,3 homekepper go and 2 room booker go.i need to hire again.so you need to fix this problem.dont need to fix but it so much. Plz its do down	4	8
888	So you know what the best part of this gaming app is? It's got the most awesome elevator music that I've ever heard. The melodies go round in my head about as often as my eyes roll up and around due to the fact that upon opening the app it constantly freezes.... it's impossible sometimes to even get as far as getting the option to double your earnings because, as mentioned the app becomes unresponsive. Perhaps the app is overloaded with a tad too many ads? Hmm, maybe...?	3	7

889	It would be 4 star, but the santa level completely sucks and it lacks a theme strongly compared to other levels. Can't wait to just be done with this hotel. It also has a lot of recycled furniture from previous hotels. Nothing unique. But other than this level, I've enjoyed all the others. Edit: I changed the game to 4 stars because they just added a new hotel level after the santa level. It was great and looks like they put a lot of effort into it compared to other levels.	4	7
890	It's okay, if you don't mind paying real money. It's not an idle game by default - it only runs offline if you pay to enable that. I also never really got the sense that I was a hotel tycoon. You get very little say in how your hotels run - you can't change the restaurant's hours, for instance. You also can't move money from finished hotels to the one you're working on. Lastly, there are quite a few visual problems: paintings hanging on windows, for instance.	3	7
891	It's a very simple game but with a lot in it. You keep up with everything and you're great. I also like minimal ads and cheap options to further yourself in the game. I would like it if you added a button to the upgrade screens where you can upgrade all in a room if you can afford it. It would save a lot of time where you have 23,000,000 and can upgrade more than one entire room at a time. Other than that I absolutely love the app.	5	7
892	5 STAR POTENTIAL, but too short with poor customer service. It is basically unplayable without the ad remover for \$10. I enjoyed it so much without ads that I spent another \$10 to allow my hotel to stay open while I was offline. However, I have finished every level in less than 2 weeks. The prices for this game are outrageous considering the length of the game. I also wrote to support with screenshots about a bug several times, but they never replied. LOWER THE PRICES TO 1.99	3	7
893	Game has been fine for the last 2 days, and now everytime I try to watch a video, the app crashes. Right before that started happening, if I would fill the double profit bar and exit the game the game, even for a few minutes, when I come back, the bar is empty. It's a good game to pass the time, but not enjoyable when you spend the time to fill up the bar and it's depleted in less than 5 minutes. Please fix the issue. Not spending my money on this game, especially when there are bugs like this.	2	7
894	Played through 3 hotels and a couple event hotels. This game is super fun and easy to get into. A couple issues though: every single guest seems to follow the same pattern and makes for really time consuming walking around. It would be great if guests had randomized order. Also it made little sense to me why the restaurants could only hold a max of 12-ish guests when the dining halls look like they can seat at least 20. I wouldn't mind hiring waiters to get more people fed!	5	7
895	It's alright, kind of fun at first but after the first hotel you realise it's the same boring grind over and over again. The hotels don't really have any substance, you don't make any creative decisions. It's just about upgrading to the next thing and accumulating more money which then devalues as upgrades cost even more. Ads are optional but you will have to watch them if you want to progress faster	3	7
896	The game is quite fun. The only issues (or add one that could be cool) is a downgrade system where if you don't see a hotel for a while it begins to revert. Only because when you move on from a hotel it just makes more money and there's nothing to do anymore. Another thing that would be great is a money transfer system from hotel to hotel.	4	7
897	I love this little game, simple to understand and tbh I don't even mind the ads, you don't have to watch em, it'll just take you longer to progress. I think the little people are great, especially when their faces go bright red on the toilet! Only downside is that there's only 4 levels so you finish pretty quickly but I've just started again, would love to see more resorts added	5	7
898	Seems fun so far, but a lot of the time the \$1k+ ads don't give any money, even when I complete the little gameplay preview. Update: ads no longer will load or play. When I click the option to watch an ad for extra \$, x2 profits etc, it disappears like I've watched the ad, but an ad doesn't play and I don't get bonuses. Basically the only thing that makes this game playable is getting a boost from watching the ads, so I'll probably uninstall this game soon.	2	7
899	Great game and im happy to watch some ads. However there's a bug with the cleaners. They suddenly stop working halfway and stand there. I checked the time and it was only 11am and they should be working. The only way to get rid of the bug is to restart the game. I will give 5 stars once this bug is fixed	3	7
900	I love the game! So much fun and addictive! However there are a few bugs sometimes, like a room can't be rented, or the cleaning person are so lazy that they only clean one room xD But restarting the game usually solves the issue. Also, more variables would be so amazing ___ like more commands, more into details from the management side	4	7

901	They give you a bunch of opportunities to watch videos to get more cash for the first hotel and then absolutely nothing for the second. If you're not someone who doesn't want to spend \$30 just to get money in a game, it'll be too slow for you to progress. Even upgrading items in the hotel barely generates an income so it just gets really boring.	2	7
902	The game is great and very interesting. Everything from the bar to the hotel rooms itself is just overall amazing. It would be even more fascinating if you could add more levels to the hotel, and make it an option to show each of the floors for the player or push a button and you'll maybe just see 1 floor.	4	7
903	fun game! but it's kind of frustrating that while one hotel is struggling to get started, I cant transfer money from my maxed out hotels to help. once you've got all the upgrades and features, your hotel just kind of acquires money you can't do anything with. kind of a dead end to an otherwise fun game.	3	7
904	The structure of the game is good enough but clicking a guy to watch ads is basically the key to advancement. So much so, that any other decisions you make are moot. Pretty sure if I were to pay for adless version, the game would still revolve around waiting for the guy to walk into the lobby to give you cash.	2	7
905	The game itself is great, ads are just nice, since it's your option to have it or not without paying anything, but, the money system is bad, I hope we can bring our money from the older or completed hotels to start another one,yes,it can be too much,but the amount of money you'll need for a new hotel is much too,great game,nice experience,hope to have that soon	4	7
906	It was really fun to begin with but there's a glitch every so often that won't allow you to load any ads. The only way to fix it is to constantly uninstall and reinstall the game when it happens. I've been playing this game for a couple hours now and have already uninstalled and reinstalled it at least 4 times. It's so frustrating.	1	7
907	The events are nice, but more hotels would be better. We don't need a new manager or to upgrade the ones we have if we have completed all of the hotels that could use them. It's just a waste of time, and definitely not a reason to spend money, if we don't have a purpose for the new/improved managers. More hotels are needed. Perhaps an underwater hotel, or ice hotel. There should be a little more in the hotels to do. What about ballrooms? Perhaps multiple levels of each hotel. It needs more.	2	7
908	So far it's a great game, passes the time during my quarantine and its pretty addictive, but in a good way. Only negative is that the upgrades they offer cost over \$10 each, and there are multiple upgrades you can buy, but it is totally possible to play this game without them.	5	7
909	If you want a game you do nothing really this is it. You do need to invest real money to get the better manager and to get the exclusive items in your hotel. Plus on the special 3 day events expect to invest at least \$12 or so to achieve 3 stars in 3 or 4 days I feel like the game is a dead end game. Once your hotel is complete it keeps gathering coins without a purpose. You can not use them in any other motel or upgrade anything after a point. It is not really fun	3	7
910	I loved the game until for some reason the investors stopped showing up and I couldn't watch a video to double profits anymore. I had to check every possible issue that could have stemmed from my phone just to find that the app wasn't offering me these services anymore. They won't load. I can't make substantial progress anymore.	3	7
911	The game is really well put together. There are not a bunch of ads that randomly pop up out of no where like past games. The ads that do happen are ones you decide you want to see. The game is fun and entertaining. Lots to do and upgrade. It is definitely worth playing and it's a great time killer. Plus you don't need to invest money to get farther like most games. Great game!	4	7
912	Would be more stars if it was set up as an actual empire and not as separate hotels. I wish I could use the money earned at one hotel towards the building of another. Once you get 5 stars at a hotel it's pointless to pay attention to. Also, the goals of the event hotels are impossible to reach without spending real money.	3	7
913	The game looks awesome, it's just that I can't really make no progress because earnings are ridiculously low, and when I finally get along really soon I opened a 2nd hotel that requires to earn money separately and spend more money for upgrades. The game should open more options instead of reverting back to the start in a new hotel with no option to use the money from the last	3	7

914	This game is a lot of fun and super addicting, love that more content is getting added and it get increasing more challenging and expands. I love the rewards for watching ads and the quirky little items worth diamonds. My only complaint is the the Blue Crystal Resort, the spacing between everything is far too slightly odd and causes a domino effect and makes everything else and making money complicated.	4	7
915	I really enjoyed this game out of all the idle games. Only thing missing is more levels of hotels to complete and an option to manually build presidential suites during the weekend challenges. Other than that it's a great game to just kill time with.	4	7
916	I did enjoy this game and played for a while even spent money on upgrades and no ads however I fully upgraded the blue resort (3rd or 4th hotel) and it's still stuck on 4 stars and a tiny tiny tiny little bit to get to 5. It just won't budge. Would be 5 stars but the fact I've spent almost \$50 and it still won't progress, there is no chance I'll give this a 5.	2	7
917	The gam is pretty fun imo, pretty addictive and pretty cool. The only reason I'm giving 4 stars is how when you move to a new hotel your money from the previous hotel doesn't go with it, I know that would be like overkill but at least like 10k of the money from the previous hotel get brought, for a start up since it's a bit hard to go up.	4	7
918	This is "ad" game!! At first i am just enjoying this game and i dont really care to watch many ads so i can get money, until in the blue beach resort theres many errors like when i am watched the ads but i didnt get the money, theres always half costumers when opened the game, the ads didnt come out so i'm always try to "exit and the open the game", and more. Because of that, it became really annoying and i am not enjoying this game again. Hope you guys dont install this.	1	7
919	A very good game to play which shows real life business strategies etc. But i think there should be an option to use savings from previous hotels to upgrade current hotel which will be a great help. Other than that, it's addictive. __	4	7
920	It is a simple and relaxing game that doesn't require much thought process to play the game. This game is about managing a hotel, and you make money by upgrading the rooms and other hotel services like the kitchen. It has several different hotels you can acquire by upgrading a hotel to the required amount of stars needed. Only thing I do not like is that when you switch to another hotel, you start off with only a little money. I would like the money to be shared amongst the hotels.	5	7
921	Going to quit this game, somehow the concept is good but its hard to gain money to upgrade equipment. The only way faster way is to watch MORE ADS, kind of annoying. Suggest that some money can be earned by completing mission instead of all rewarded with yellow diamonds.	2	7
922	This game will LOSE your first hotel and probably any others that are not active if you reset data. I reset the data because it was stuck on the loading screen. Restored hotel 2 from Play Games, but first was lost. I don't want to do it again, especially if I'm just going to lose it!	1	7
923	Fun game, could use a setting to turn off investors as it gets annoying seeing them over and over, also 11 USD to turn off ads permanently? Thats over 1/6 the price of RDR2!!???!! Also it would be great to have an in game purchase that allows for you to run the hotel longer as i don't want to pay 11 USD for a general manager that only works for 10 hours at a time	3	7
924	The game is good but You cannot move forward depending on just Hotel income...you will have watch 30 seconds ads evry 2 minutes. This takes all the fun.. instead of ads it could have been some puzzle or mini game.. That would have made it more interesting.. But see same ads every 2 minutes is so boring. So uninstalling the game.	1	7
925	DO NOT SPEND ANY MONEY ON THIS GAME. For events the VIP pack is a one time purchase and as noted is only effective for THAT ITERATION OF THAT MANAGER. That means when the same event comes back for the same manager, you need to repurchase the pack each time. The bonus however does stack, though there really is no reason to get any of the paid for perks. Also the offline income calculator does not work properly. For the event after returning 6 hours later the game only registered 40 minutes.	1	7
926	Great game. Yes of course with ads, but you get quick money with an ad if you are about to lose employees. I have been enjoying it on my free time. It's the first game that I keep wanting to come back to. I love it like this hopefully it stays this way. 5 stars for sure	5	7

927	I paid for No Ads. Totally worth it. Wish there were more options like when to start/end staff shifts. Better than most Idle games because you get to open up the landscape and see little ppl interact with the upgrades you've purchased. Is there a way to prevent guests from walking the long way (& back) to the baths at 3am on Arabian Nights level?	5	7
928	sadly i'll have to downgrade this game to 3 stars from 5. been a long time player and finally bought the no-ad package. buying it means you'll never see the extra customer, etc bonuses ever again. yeah i can skip ads and get rewards, but the only person who ever shows up anymore is the VIP (much less frequent than before i bought the pack), and none of the other boosters. kind of shady and sad. would've stayed an easy 5 stars but i definitely regret my purchase.	3	7
929	11.99_ is way too much to play correctly an android game of which one's get bored of in two days ... divide by 2 the price and people will certainly not hesitate anymore to buy the no ads perk that permit playing normally. For those who haven't downloaded the game, you need to know that it is only playable by watching the ads that give money, the money you earn of your hotel is not enough to upgrade anything. You need to wait like 5 minutes to upgrade a single thing __	2	7
930	I like this game, and will likely keep playing it. I do have a few small issues with it though. My first problem is that I can't see anything at the top of the screen because the game doesn't take my phone's notch into account. I can see how much money I have, but that's it. My other issue is with the game managers, and needing to pay money for them. I don't have a lot of money to spend, but would watch a crazy amount of ads if it meant I could earn managers that way instead.	4	7
931	The game is very nice, but there are 2 problems. 1, when the guy who wants to profit comes in, sometimes he just disappears and the golden car drives away. 2, there is this bug where the cleaner cleans but ends up getting freezed in the bathroom.	4	7
932	The entire game is made intentionally frustrating and slow to force you to watch ads or pay for in app purchases. The core gameplay is good, but the game doesn't let you make much profit. This leads to a slow boring game.	1	7
933	Spend your time for more valuable things, NOT TO THIS GAME. It's time killer for sure. But for you to advance in the game you need to watch a LOT of ads. You're not going anywhere without the ads. There's no skill need for this, it's just you need to watch ads or either, pay. GOING -> UNINSTALL!	1	7
934	I'm very disappointed I was having alot of fun with this game I even paid for the manager. Once I had updated all the spots in the hotels it ended with nothing to do. I suggested ways to make it more fun I even asked for more hotels but it seems that this is a very short game. So in conclusion I loved the game when there was something to do. When it is done I can find anything to do. Very big bumner!!!!____	1	7
935	Bugged The second hotel would not keep guests in the double rooms. If I switched views to go to a different hotel there would no longer be guests there. I tried it several different ways, (middle of night, just waking up, etc), all had the same result. Also any new rooms besides the 2 singles are also bugged like this	1	7
936	Played and compared quite a few tycoon games. - Fun, able to create different sizes of rooms and amenities like restaurant, spa, bar etc. - Managing employees also takes strategy to ensure profit comes in. - VIP comes around and provide cash after watching ads. However, the cash is rather low compared to other games. - It'll be better if the cash earning process can be slightly easier, otherwise it takes way too long to be able to advance through the levels. Overall great game!	4	7
937	Pretty decent idle game; it's interesting to just watch the hotel guests move around to the different activities etc. However, a couple of suggestions to improve things: 1. Have a central upgrades area where we can use the money from the 5-star hotels to upgrade general things like customer speed, multiplier timer, income from activities. It's the thing I love most about another Codigames app - Idle Supermarket Tycoon. 2. Make events more rewarding! It's so frustrating to spend hours upgrading little things only to not meet the 15 million mark and thus get NOTHING from the event. Should earn diamonds for lower targets, perhaps every 1 million? On the same note, when you DO finally earn a VIP, their increase is pointless! 5% increase, really? Should be 100 or 200% for the first star! 3. 2 hour limit on hotel opening - why? Some of us have to sleep! It should be minimum 4 hours, with the ability to upgrade as per point 1. Ditto for the 10 minute multiplier - either 10 mins for 5x or 1 hour for 2x, also upgradeable.	4	7

938	Has so much potential let down by poor code. There's so many glitches that ruin gameplay. Don't even get me started on the ads. I've paid \$20 to get the most enjoyment out of the game and I feel robbed (no ads \$10 and hotel to stay open during afk \$10) Glitches start happening the most during the 3rd hotel. Cleaners don't clean. They just stay in their room. Guests get stuck and don't move. Also on the 3rd hotel with the beach bar added. All the guests seem to want to sunbathe at 10pm-12am?!	1	7
939	Codigames has been telling everyone for a couple weeks now that they're going to contact the ad providers. Still nothing has been done about the ads. I want to enjoy this game and spend my money on it but I refuse to when it's so unreliable. Update: They finally fixed the ads so the game is perfect again __	5	7
940	This should be called, THE HOTEL MANAGER. Not Hotel Tycoon. Everytime you finish one Hotel, you cannot invest any profit in building other Hotels. So when you are finally seeing nice amounts of money rolling in and you can expand, you start a new one from scratch which takes days just to get an extra room. Even though the money is nothing when you start, every Hotel starts to get more and more expensive. Calling this game Hotel Tycoon is totally misleading. Shame.....	2	7
941	Honestly, it's one of the best idle games there is. Invest your time into investors by watching ads and your progress more than quadruples! Keep your multiplier above an hour so that way when you log off you're still racking up your stacks. Pay attention to your expenses and don't go under the amount you have to pay out daily or you'll lose employees. Everyone has their own style on maximizing income and spreading it out but make sure you calculate things to maximize profits so you can progress!	5	7
942	I really like this game but I have to take off a few stars because I didn't get what I paid my real money for!! I paid what is actually a lot of money to keep the game earning money overnight, i woke up this morning to the exact same amount as I had when I went to sleep!! What's worse is this happened on the competition hotel and I probably won't get very far in the competition hotel as I should have!! Can you fix this???	1	7
943	This is an ad generating nightmare with expensive microtransactions thrown in for spice. Progress is painfully slow. Its undeniably designed to be artificially slow. As you quickly bore of a pace that would put a snail to sleep, the app throws ad after ad after ad after ad at you. You want inconsistent amounts of cash? Watch an ad! You want X2 cash gain? Watch an ad for only 10 minutes of X2. X2 caps at 2 hours and you'll need to watch 12 ads to hit that mark. 500 characters isn't nearly enough.	1	7
944	Ads that take longer than 30 seconds or force user interaction to close are unacceptable, and this game is basically watching ads for ten minutes before going to play something else. Ad-free is not worth \$11 just because you load players down with them.	1	7
945	The game is fun but it's glitchy. Everytime you click on the investor you try and watch the ad but the ad doesn't even load and the investor leaves without giving you any money which is pretty stupid. Let me mention this too, NONE OF THE ADS FREAKING WORK!..... Just fix your game that's all I am asking from codigames right now	3	7
946	The main game is fun and simple. Lots of the characters pay homage to pop culture. I have seen Mr Trump, the hit team from pulp fiction, the genie from Aladdin and many others. The problems arise in the events, which are special hotels you must develop far faster than a regular motel. I'm this case however the event hotel develops much slower than a regular hotel. That is unless you pay for special event packages. A clear pay for play scenario. Ignore the events.	1	7
947	I love this game, in fact I have played other games from Codigames as well but recently I have seen the double earnings are not working as shown in the game. If you have double earnings started and if you exit game and return back then game reduces almost 95% of earnings so that you will have to either do some in app purchase or watch ad!	1	7
948	It's amazing! You get to watch adds to get more and do a speed-run through the entire game! It's very fun and my sis play's it everyday now! It's just like a never ending game of money and game's at the same time! I love the game very much! If you like the game, thank the creators for this! If i was not for them, this game wont be known! And again, i love the game!	4	7
949	Once you finish everything in the first two hotels you cannot move forward without spending money. You need five stars and they will only give you four. I loved this game but it was a waste of time.	1	7
950	I really like this game. I found myself wanting to keep playing. I like the challenge. I did paid to remove ads. Way better and it benefits with collecting money.	5	7

951	Great game. Just a few annoying things, not worth losing a star over. 1. Would be great to have people stay random number of days. 2. When someone comes with someone, they should do things together. 3. If the restaurant has spare tables, people should be allow to sit. 4. Using spa as example; if all the nodes are taken, the people still get out to change node and then get back in. Either don't get out if no nodes or have a waiting node. 5. Don't make people walk to a closed Service.	5	7
952	Game is good but even done all upgrades won't get 5 star think developer try to cheat people as first hotel got all stars next level won't receive any 5th star and due to this we won't play to the next level and develper just announce new event in which people spend money and they cheat people need to report this game bad and worse game 0 star don't download they cheat you	1	7
953	Cool game doesn't stop or hang it has graphic adventure game I really like it because it's smooth I hope you make more games	5	7
954	After you reach the last hotel there's nothing more to play. Don't download in the first place nothing much to accomplish.	1	7
955	This is the best game I have played in an Android phone.	5	7
956	Ci mette molto tempo per avviare il gioco. Gli hotel che durano 4 giorni hanno obiettivi troppo difficili da raggiungere. Le camere nn si possono personalizzare e dopo un po' "" troppo noioso. Le pubblicit� durano troppo e sono invasive	3	7
957	I really like this game but it keeps crashing after like 5 minutes of playing this started happening after I updated. Not to mention but in the real world you when you build chains you can take the money you earned from a previous successful chain to help build the next new one. It gives real meaning and incentive to finish those other hotels since they're still collecting money but you can't do anything with that money.	3	6
958	This is a great game. I have not been credited for hundreds of thousands of dollars for watching the ads though. That would be the only thing I am disappointed about. If I got my ad credits, I would give this game 5 stars. After playing a while I reduce my ratings to 1 star. Game starts good. After finishing 3 hotels, the game starts glitching. Ads don't pay, advertising resets when leaving and I always lose 10 - 12 rooms of customers. I have watched ads for in excess of 20 million points.	1	6
959	Honestly, been playing nonstop for a couple days. Although the game is fun to me and I love it overall, I have to rate it two stars because of the terribly slow progression. The game basically forces you to buy the microtransactions and watch the ads. Im almost done with the second hotel and I've probably have watched over 100 ads.	2	6
960	This game is addicting I love it, just cant stop playing this game It's cute simple and easy to play, there's different levels you need to accomplish. It would be cool if they could give you a bonus level where you can choose what furniture's, employees, and type of food and bar you can get. But so far it's just that good if you like how to build your hotel type of game.	5	6
961	I would like more items in the game. I feel the balance between what your offering in return for all those ads I have to watch just doesn't compare. However, the game is great and has a lot of potential. I have it 4 stars because it's bordering on a useless money grab app with all these apps. I just feel if you added more items in the hotel to upgrade then it would be a good balance. Maybe it will get better the more I play???	4	6
962	This game has an amazing idea for a style of game, but executes it so horribly. Ignoring the rant about the fact that you sit around and do barely anything, you never pull in enough money to ever get anywhere in the game without watching ads, if you don't want to shell out cash like a normal person... it's mind-numbingly boring, with a "goal" of getting a new hotel, but with the issue of never being able to get to that goal.	2	6
963	Awesome game!!! One thing thats not working is the video to skip night time and the double profits for 10 minutes. Also the real estate car is not coming anymore so my progress is very slow. Is there a way to fix this? Thanks _ EDIT: The suite wasnt part of the main hotel building lol my mistake.	4	6
964	The 30-sec ads are very helpful in sustaining the hotels cause they usually pop-up when you really need the cash. It isn't too long and it gives more money than I expected. Although, it'll base on your hotel's balance of course. So enjoyable and simple yet it makes you analyze how you manage your profits. I just hope for more hotels 'cause I'm almost at the last one. Having time-limited events or hotels may make this game more fun and entertaining to play. Please put it in future updates!	5	6

965	The game is okay though on first, it is really hard to earn and takes time to upgrade stuffs. The concept is good, there's earning and expenses system. However, I saw that we can change the wage of employees if sort for money (not paying employees result to resigning) and I can't find that option. If someone can teach me how, I'll change the review to 4 or even 5 star. The game is really addicting and expect lots of ADs to help you progress.	3	6
966	Can you please codicames add More hotels, because it would be more fun if you add more hotels cause, i'm almost tired to play this game again and again.	4	6
967	This game is amazing. So simple and yet so addicting. I would give 5 stars but however I feel that any money you have should be able to transfer between all hotels. I feel in order for it to be a proper hotel management game you should be able to use the money between all hotels so then you can still budget and feel like proper Management.	4	6
968	Really nice game with great concept, but only to the point of completing the first hotel, because when you go to the next one, you find out that hotels have different balances, which is pointless. I mean, what's even the point of having a fully upgraded hotel which has , let's say, 70k saved up, and you can't even use them to the next one???? All that money has gone to waste, and apparently your time. Got so pissed when I found that out, and uninstalled it at once. Only for that it's a 1/5.	1	6
969	In the new Little Camelot update: the parking barrier gate processing rate seems extremely slow for the amount of parking spaces you can upgrade to. I'm losing way to much cars for a fully upgraded parking lot and I'm only using the radio campaign. The cars should be processed through alot faster. I should be having a hard time filling my (fully upgraded) parking lot with just a small champagne as the radio is. Fix this to be way more balanced please this is very frustrating.	1	6
970	DECEMBER '19! Really loving the game! I am unable to sign in to my Google account through the app. I'm afraid I might lose all of my progress! UPDATE!!!! Saving via Google account does not work! I lost my first 2 fully upgraded hotels. I now have had to start over. DEVELOPERS!!!! DO YOU PLAN ON FIXING THIS? The dancing man button seldom works. It doesn't kick into a commercial. WILL GIVE 5 STARS WHEN THESE ISSUES ARE FIXED!!!!	1	6
971	Ad based lies. You watch ads to get bonuses and while I understand they sometimes do not work properly the worst is the x2 multiplier. You watch ad after ad and when you leave the game, it takes more time away, your math is incorrect and technically robbing me of time spent. I'll leave the game for 5 mins and the 38 mins I have has dropped to 6 mins. Forcing me to watch more ads and make money for the developer. I don't mind until I feel like I'm being lied to and robbed to watch more ads.	2	6
972	Fun game, but only took about a week to get all hotels, and all of them upgraded as far as possible. Would be nice to have more hotels left to get... (also, for those that experienced the video glitch as well, they've fixed it :-D) Oh! Also, no need to pay in order to win. You can, but you gain the things youd pay for extremely easy, (w/o paying) and that doesn't affect the stars. You can still get each hotel to 5 stars :)	4	6
973	love this game and just opened a new hotel starting with little money. Everything is so much more expensive and I think you should be able to transfer money from hotel to hotel. By selecting a certain amount to transfer then watching an ad to transfer. I would definitely give 5 stars if you made this change. This game is a good time killer.	4	6
974	Want to play in the special event hotel to earn extra rewards? You won't get any rewards without spending more money. Want to watch an advertisement to get an extra 4 customers? Watch it, but you won't get the extra four customers. This game is actually pretty good if it wasn't such a huge scam to get you to spend money all the time to be able to play a very simple, unoriginal tycoon game. If only I could have the time and money back wasted on this game.	2	6
975	The attention to detail in this game is amazing!!!! Fun to play when passing the time and extremely entertaining. I wish there was a way to see why customers weren't happy and how too fix it, as well as what too do with the hotels after you have completed all the challenges. I hope they create more hotels too extend the game.	5	6
976	I LOVE this game. Not too many ads, amazing locations, sweet upgrades, and great graphics. I love how you can hire people and fire them, and how the days are not an accuall day! My one recemendation though, in each resort start off with a little more money and a full hotel full of people. I would totally recemend this game! It is great.	5	6
977	Its an awesome game, at first I didn't think it would be fun but after 5 minutes of playing I really enjoyed it and didn't come off the app for a good 3 hours it's that addictive and have recommended it to my friends and would recommend to anyone else, also if you want to watch a ad to get a reward is optional it does not come up with ads in the middle of playing the game for no reason. great game __	5	6

978	This is a good and addictive game. I enjoy it so much that I purchased the pack to stop the ads. However ive noticed that they need to fix the way the guests interact with the activities. Some services are open for a few hours and even if its the only servive open they dont go to it. The guests walk to all the other services even if closed, by the time they reach the one service open, its closed already. Not generating the money it should.	3	6
979	It's pretty good as far as I've played. Fun. But I would really recommend the correction on the timings of the Front Desk Staff. They're available 6:30am till 12am. The description always says 6:30am till 12pm. 12 pm is noon. Please correct that. Otherwise a really good game, I did watch a couple of ads just to get past a little faster but you could go by without having to watch the advertisements. It's a fairly good game with every small detail pretty good. Time maintenance __	4	6
980	It was a fun game until I got everything in all three hotels to 100% complete and spent all my gold coins. After the third hotel it appears you have to spend real money to buy the items needed to receive the last two stars to open your forth hotel. I don't like games that force me to pay to continue playing when they advertise as a free game.	2	6
981	I love idle games. Right up my street for my busy work days. Suggested improvements, more hotels to upgrade to. Addition of AI competitive hotels that will take customers away if they have a higher star rating. Possible huge reward system for beating AI. Boss hire to manage staff around the hotel with better bosses available by in app purchase. Multi story hotels should be added for a more dynamic challenge on harder hotels. Add events to bring in bonus customers like hosting a concert ect	5	6
982	Edit: I'm adding a star because you added another hotel. But PLEASE fix the bugs where you enter the game after not playing for a while and not being able to double profits by watching a video. Also when you have to watch a video for investor's money that doesn't work either. Takes too long waiting for another hotel	4	6
983	Honestly I want to give 0 star. The video for 2x profit just keeps on buffering. Once I exit the game n come back its always night time, rooms are empty and cash is either less or same. This is so frustrating. And when I want to contact support team the chat support keeps buffering wherein all other apps on my phone are working fine without any buffering. If the problem persists I have to stop playing the game.	1	6
984	So I would love to give you 5* because I'm playing the game and very addicted to it however I believe there is a key feature that should be added. The services at each hotel have strange hours that not only don't line up with most hotels. But also cannot be adjusted. If you were about to adjust the bar, swimming pool, arcade and so on hours of operation this would make the game much more enjoyable even if so you got X total hours per day and they could be placed wherever the player would like.	3	6
985	**100% Average - Nothing New in Idle Genre** Be prepared to watch a ton of ads to get your first and many other hotels off the ground at the early stages of the game. If you want to get the complete 5 Star rating you will need to spend the ingame currency in order to achieve it. Because there is nothing new being offered to the genre it's very average	3	6
986	Used to love this game, but now they kind of abandoned it and just keep on rolling out this "event hotel" where you can unlock managers but its just a way to force you to spend money so you may have a slight chance of unlocking the rewards. They really should add more content/hotels other than the event ones.	1	6
987	Right now i cant open the app. It's a great game. I love to see the animation and the character in this game. This game is slow game if you not play it long enough and if you want to rapidly upgrade your game you have to watch the ads or pay some money on it. Overall its a nice addicted game but unfortunately i cannot open it right now.	3	6
988	From 4 to 5 to 3 stars. Its a great and addictive game but completed in no time at all and the devs don't seem to making new hotels. The events are the same each week and are only on weekends??? You should mix up the times and the event hotels. If the devs could get a new hotel challenge out every month (surely not that difficult), i will play again and raise to 5.	3	6
989	One thing that bad with this game is the balance for free-non-ads player. This game forcing you to watch ads for extra money or become premium player. There's no way you can keep your finance balance or even make a profit with your own hotel income. It always minus. Other than that, the gameplay for this game is good.	3	6

990	It's definitely one of the better tycoons, but they always seem to miss the difficulty curves on these games. This one each hotel goes like this: First star: challenging for the wrong reasons. You cant afford staff, but you cant make money without staff, so you basically hire them anyway and make income watching ads so you dont go negative. Second and third star: just the right balance between managing staff expenses and profit. Fourth and fifth star: No money management necessary.	4	6
991	I love the game! It's really interesting and unique! However, there's this strange glitch where only two people can sit at the restaurant, no matter how many tables I have. I restarted the game and everything, but nothing seems to be working. And I'm not sure if anyone else has this issue, so I feel bad leaving a 4-star review.	4	6
992	Edit: reduced 2 star to 1 star, as twice now I have lost my vip manager upgrades when I get them to 15% and support have not restored them. Upgrades are VERY EXPENSIVE. Nearly \$26 to remove ads, get an idle increase to 10 hours, and double your profits. It's a shame as it'd definitely be worth 5 stars if they were more affordable.	1	6
993	Please fix the in game glitches like housekeeping not finishing rooms during the hotel events. It is frustrating. Please also fix your in game ads and purchases. Update: I lost everything when i switched phone providers even though my google game services were linked. I had actually made it to the final hotel even spent money on events. To say im not happy is an understatement and I have no desire to play anymore.	3	6
994	This game looks nice... And I thought it was about managing a hotel. But actually I spent more time watching adds than playing because is the best option to earn money. If you just play it's boring and pointless. The decisions you make don't have any difference... You just wait and wait	1	6
995	The game is fun, but really the Dev just wants your money. Money to stop watching vids to get ahead faster. Pay money to stay open more then 2hours. Pay more money to remove ads. Pay money to win at a event cause if you don't good luck just getting the 11mil need to get 1 star out of the 3 to unlock help at the hotel. So if you pay a lot of money around 45CAD to u lock most of the blocks put in place.	3	6
996	Everytime i watch ads,. i lose money even the ads was finish.. getting tired of opening and it crashes over and over again.. i already finish all the hotel and still dont have new.. ____i might going to uninstall this game.. im not getting happy on it now.. ____ Ps: i just upgraded it.. but much worst than yesterday.. ads not giving any bonuses.. ____ Still no changes.. why it becoming like this?? The ads always crashes when its already end.. such a waste of money!!	1	6
997	I really like the game, but the biggest flaw is that you cannot get to 9 stars between your first 2 hotels unless you spend money. I have spent \$1 but this didn't help. It's either a glitch or on purpose. My first hotel is Max everything, and even has a lot of items you have to use your gems for, and it is a sliver away from 5 star but will not move. I spend 100 gems trying to make it 5 star. Nothing. My second hotel is Max everything, and spent gems in that one. 4 star. Please fix this	3	6
998	I like the new update of events but in my event hotel I have one room that never gets cleaned. I have 3 rooms total and 2 housekeeping staff. One of the housekeeping staff goes straight to that room and then gets stuck there. The progress circle completes and then they never move from that room. I even got the message to clean all rooms, I claimed that and it still was not clean. It was the room on the left that was already built when I opened the hotel.	3	6
999	Cool to see you need to be careful about your expenses, i just wish there was another way when guests came and there were no rooms available. I mean to stay there the same time it takes for a check in seems unnecessary. Another thing is why can a cook only cook for 2 people? That's a bit of a stretch. Other than that, i enjoy the game and is more interesting than many of this type.	4	6
